MESSAGE OF THE PRESIDENT

To the Congress of the United States:

I transmit herewith Reorganization Plan No. 21 of 1950, prepared in accordance with the provisions of the Reorganization Act of 1949. This plan effects a basic reorganization of the functions of the United States Maritime Commission along the lines recommended by the Commission on Organization of the Executive Branch of the Government.

Within the last 3 years three different bodies have studied the administration of the Maritime Commission. All have concluded that the operating deficiencies of the agency arise from inappropriate and unsound organization and that a fundamental reorganization is essential. The first of these bodies, the President's Advisory Committee on the Merchant Marine, in 1947, stated:

> It appears to the Committee that the organiration structure of the Maritime Commission as set up in the Merchant Marine Act of 1936 is wholly inadequate for the efficient conduct of the multitude of diverse activities for which the Maritime Commission is now responsible. The deficiencies of the statutory organization for administrative action are regarded by the Committee to be the most serious obstacle standing in the way of the development of the Merchant Marine of this country.

Similarly, the survey of the Maritime Commission in 1948 for the Senate Committee on Expenditures in the Executive Departments concluded that—

> The fundamental weakness of the Maritime Commission, as it is now constituted, lies in its proscribed organization.

On the basis of investigations of the Maritime Commission by two of its task forces, the Commission on Organization of the Executive Branch stated:

> It is an anomaly that a regulatory commission should also conduct the executive function of managing a huge business; that executive functions should be carried on by an agency that is not subject to Presidential directions; that executive functions should be carried on by a full-time board * * *.

While the recommendations of the various studies differ in some details, they agree on principles and on the main features of reorganization.

Basically, the administrative difficulties of the Maritime Commission have arisen, as all these studies agree, from the fact that the Commission is responsible for performing two fundamentally different types of functions which call for different types of organization. These two classes of functions are (a) regulatory and (b) operating and promotional. Under various acts the Commission regulates rates and services of water carriers; passes on agreements among carriers; and protects shippers against unfair and discriminatory practices. This type of activity requires the deliberation and independence of judgment which a board or commission is especially well designed to provide. But at the same time the Commission is charged with the conduct of a variety of large and costly promotional and business-type programs demanding the prompt and vigorous administration for which experience both in Government and in private enterprise has demonstrated that a single executive is essential.

The Maritime Commission has charge of the construction of merchant vessels for subsidized operators and for Government account. It owns and maintains the largest merchant fleet in the world, consisting of 2,200 vessels aggregating more than 22,000,000 deadweight tons. It charters and sells ships and, in time of war or national emergency, requisitions and operates vessels for the Government. It grants construction and operating differential subsidies to private shipping companies to maintain an active privately operated American merchant marine. It makes loans and insures mortgages to assist carriers in acquiring new vessels, and it conducts programs for training officers and seamen for the merchant marine. For the present fiscal year the performance of these functions will involve the expenditure of approximately $162,000,000 and the direction of an organization of 5,500 employees. In short, the administration of the Maritime Commission is a vast business undertaking. Moreover, the work of the Commission affects significantly the interests of both business and labor in the maintenance of a sound maritime industry.

Further than this, many of the activities of the Maritime Commission are closely related to other programs of the Government and have to be coordinated with them. In the construction of a subsidized ship the Commission must cooperate with the Coast Guard on those features of design, materials, and equipment which affect the safety of the vessel and with the Navy on those which especially affect the use of the ship for national defense. Furthermore, the whole program of subsidized ship construction needs to be adjusted to the plans and requirements for national defense. At the same time the Commission's programs for the development of the merchant marine must be coordinated with our foreign policy and with Federal programs with respect to other branches of transportation.

While an independent commission is an appropriate instrument for the performance of the regulatory functions of the Maritime Commission, such an agency obviously is not the type required to provide strong and efficient administration of the large operating programs now entrusted to the Commission or to obtain the needed coordination with other activities of the executive branch. This fact is amply demonstrated by the administrative difficulties and the complicated problems of coordination encountered in the operation of the Commission since the war and by the necessity of transferring a large part of its functions to the War Shipping Administration, headed by a single executive, during the war.

Briefly, this reorganization plan provides for a small Federal Maritime Board and a Maritime Administration in the Department of Commerce to perform the functions of the Maritime Commission, and abolishes the existing Commission. It transfers to the Board the regulatory functions of the Commission and definitely guarantees the independence of the Board in the performance of these functions. In addition, it vests directly in the Board the determination and award of construction and operating differential subsidies. In the performance of its subsidy functions the Board will be subject to general policy guidance by the Secretary of Commerce. The Board, however, and it alone, will determine to whom subsidies shall be granted and will make and award the subsidy contracts. Its actions therein will be conclusive and will not be subject to modification by any other agency or officer of the Department of Commerce. The other functions of the Maritime Commission, including carrying out the subsidy agreements made by the Board and administering the various operating programs, are transferred to the Secretary of Commerce for administration through the Maritime Administration. Thus, the plan provides for each of the two types of functions now vested in the Maritime Commission the type of organization best suited to its performance. At the same time, the plan will facilitate coordination of maritime policies and programs with other related policies and programs.

The division of functions under this plan conforms directly to the recommendations of the Commission on Organization of the Executive Branch of the Government. While the award of subsidies is a promotional rather than a regulatory function and might logically be assigned to the Maritime Administration instead of the Board, its impact on the shipping industry and on individual carriers is such as to make desirable the deliberation and combined judgment of a board. Accordingly, I have adhered to the recommendation of the Commission on Organization that this function be vested in a multiple body rather than a single official. Likewise, in line with the recommendations of the Commission, the plan assigns the determination of the over-all route pattern to the Secretary of Commerce.

The Maritime Board will consist of three members appointed by the President with the consent of the Senate for overlapping terms of 4 years. Not more than two of the members can be of the same political party. The Board, therefore, will be a smaller and more wieldy body which can function with greater expedition and efficiency than the existing five-member Commission. The Chairman will be designated by the President from the members of the Board and will be, ex officio, the Maritime Administrator and as such the head of the Maritime Administration. The plan also provides for a Deputy Maritime Administrator appointed by the Secretary of Commerce under the classified civil service. After investigation I have found, and hereby declare, that by reason of the reorganizations made by this plan, it is necessary to include in the plan provisions for the appointment and compensation of the members of the Federal Maritime Board and for the appointment of the Deputy Maritime Administrator.

In making the Chairman of the Federal Maritime Board the Maritime Administrator, the plan adopts an arrangement substantially similar to that which prevailed during the war, when the same individual served as Chairman of the Maritime Commission and head of the War Shipping Administration. This arrangement will have important advantages. It will facilitate cooperation between the Board and the Administration on matters of concern to both. Also, it will avoid dividing the personnel of the Maritime Commission, since the Chairman of the Board will supervise the personnel assisting it in the performance of its functions, as is now the case in the Maritime Commission, and in his capacity as Administrator he will have charge of the personnel carrying on the work of the Maritime Administration. The plan provides for the joint operation of the officers and employees under the Administrator and Chairman as a single body of personnel. The maintenance of a unified staff is essential for efficient and economical administration because many of the technical and professional personnel, such as ship designers and attorneys, now assist the Maritime Commission on problems of subsidy determination and also participate in the subsequent administration of subsidy agreements and in performing nonsubsidy functions.

The inclusion of the new Board in the Department of Commerce will permit the use of the administrative services of the Department. More important, it will eliminate the necessity of splitting the personnel of the Maritime Commission between the Department and an outside agency. In addition, it will relieve the President of having to handle relations with a separate maritime agency.

In establishing the Department of Commerce the Congress provided in the organic act of the Department that—

> It shall be the province and duty of said Department to foster, promote, and develop the foreign and domestic commerce, * * * shipping, * * * and the transportation facilities of the United States.

Over the years, however, transportation functions have become widely scattered throughout the executive branch. As a result, intelligent planning and budgeting of Federal transportation activities and the necessary coordination of transportation programs have become extremely difficult or impossible. The transfer of the functions of the Maritime Commission to the Department of Commerce will constitute a major step in correcting this condition.

Without question the Department of Commerce is now the appropriate center for transportation programs. It contains the Civil Aeronautics Administration—the major operating and promotional agency of the Government in the field of air transportation—and the Weather Bureau, and the Coast and Geodetic Survey, which provide vital services to transportation. As a result of Reorganization Plan No. 7 of 1949, it now also includes the Bureau of Public Roads, the leading promotional agency dealing with land transportation. Also, it has the Inland Waterways Corporation in the field of water transportation. The transfer of the functions of the Maritime Commission will bring into the Department the principal water-transportation agency of the Government. These actions will go a long way toward the establishment of a sound and effective organization for the operating and promotional programs of the Government relating to transportation.

It is my purpose to look to the Secretary of Commerce for leadership with respect to transportation problems and for the development of over-all transportation policy within the executive branch. Because of the magnitude and importance of the transportation functions transferred to the Department of Commerce by this reorganization plan, I have found and hereby declare that it is necessary to strengthen the top administrative structure of the Department by providing for the appointment and compensation of a new Under Secretary of Commerce for Transportation. This will make available an officer of the highest rank to assist the Secretary in supervising the varied and complex transportation programs of the Department and providing central leadership in transportation matters. With the many responsibilities of the Secretary of Commerce in other areas, the creation of this office is essential to enable him properly to fulfill his obligations with respect to transportation.

After careful investigation I have found and I hereby declare that each of the reorganizations contained in this reorganization plan is necessary to accomplish one or more of the purposes set forth in section 2(a) of the Reorganization Act of 1949. The rates of compensation fixed by the provisions of the reorganization plan for the Under Secretary of Commerce for Transportation, the Chairman, and the other two members of the Federal Maritime Board are, respectively, those which I have found to prevail in respect of comparable officers in the executive branch of the Government.

In summary, the reorganizations provided by this plan will have the following principal advantages: They will provide an efficient organization headed by a single responsible official to administer the large operating and business-type programs of the Maritime Commission. At the same time, they will preserve the benefits of a bipartisan board for the performance of the regulatory functions of the Commission and the determination of subsidies. They will reduce the number of agencies reporting directly to the President and simplify the over-all management of the executive branch. In doing so, they will provide more adequate machinery for supervising the administration of the maritime programs and will facilitate their coordination with related policies and programs of the executive branch. Finally, they will accomplish a major advance in the development of an effective organization of Federal transportation programs in accord with the recommendations of the Commission on Organization of the Executive Branch of the Government. While it is impossible to estimate in advance the savings which will be brought about by this plan, the improvements in administrative efficiency resulting from it should produce substantial reductions in expenditures for the programs transferred by the plan.

Harry S. Truman.

REORGANIZATION PLAN NO. 6 OF 1949

Eff. Aug. 20, 1949, 14 F.R. 5228, 63 Stat. 1069

Prepared by the President and transmitted to the Senate and the House of Representatives in Congress assembled, June 20, 1949, pursuant to the provisions of the Reorganization Act of 1949, approved June 20, 1949 [see 5 U.S.C. 901 et seq.].

§ 1. Administration of Functions of Commission

The Chairman of the United States Maritime Commission shall be the chief executive and administrative officer of the United States Maritime Commission. In executing and administering on behalf of the Commission its functions (exclusive of functions transferred by the provisions of section 2 of this reorganization plan) the Chairman shall be governed by the policies, regulatory decisions, findings, and determinations of the Commission.

§ 2. Transfer of Functions

There are hereby transferred from the United States Maritime Commission to the Chairman of the Commission the functions of the Commission with respect to (1) the appointment and supervision of all personnel employed under the Commission, (2) the distribution of business among such personnel and among organizational units of the Commission, and (3) the use and expenditure of funds for administrative purposes: *Provided*, That the provisions of this section do not extend to personnel employed regularly and full time in the offices of members of the Commission other than the Chairman: *Provided further*, That the heads of the major administrative units shall be appointed by the Chairman only after consultation with the other members of the Commission.

§ 3. Performance of Transferred Functions

The functions of the Chairman under the provisions of this reorganization plan shall be performed by him or, subject to his supervision and direction, by such officers and employees under his jurisdiction as he shall designate.

Message of the President

To the Congress of the United States:

I transmit herewith Reorganization Plan No. 6 of 1949, prepared in accordance with the Reorganization Act of 1949. This plan is designed to strengthen the administration of the United States Maritime Commission by making the Chairman and the chief executive and administrative officer of the Commission and vesting in him responsibility for the appointment of its personnel and the supervision and direction of their activities. After investigation, I have found and hereby declare that each reorganization included in this plan is necessary to accomplish one or more of the purposes set forth in section 2(a) of the Reorganization Act of 1949.

Unlike other major regulatory commissions, the Maritime Commission is responsible not only for the performance of important regulatory functions but also for the administration of large and complex operating and promotional programs. Whereas the budgets of most regulatory agencies amount to only a few million dollars annually, the expenditures of the Maritime Commission exceed $130,000,000 a year. As a result of the war the Commission is the owner of a fleet of over 2,300 ships, aggregating more than 23,000,000 dead-weight tons.

While it is the policy of the Government, as set forth by the Merchant Marine Act of 1936 and the Merchant Ship Sales Act of 1946, to develop and maintain an adequate and effective merchant marine under private ownership, the Commission is still confronted with the necessity of carrying on substantial programs for the charter and sale of Government-owned vessels and with the continuing task of maintaining the reserve merchant fleet.

Apart from its functions with respect to the war-built fleet, the accomplishment of the Government's permanent objective with respect to the development of the American merchant marine inevitably involves the Commission to a wide variety of activities. Among these are the regulation of rates and competitive practices of water carriers, the determination of essential trade routes and services, the award of subsidies to offset differences between American and foreign costs, the design and construction of ships, the inspection of subsidized vessels, and the training of seamen.

In the last 2 years the operation of the Maritime Commission has been subjected to independent examination by three bodies—the President's Advisory Committee on the Merchant Marine, the Senate Committee on Expenditures in the Executive Departments, and the Commission on Organization of the Executive Branch of the Government. All of these studies have pointed to difficulties in the conduct of the Commission's business and the necessity of improved organization to strengthen the administration of the agencies. The remedies proposed have differed in some respects, but all the studies have emphasized the need of concentrating in a single official the management of a large part of the agency's work.

During the war such a concentration was temporarily accomplished by Executive order under the authority of the First War Powers Act. In effect, the Chairman of the Commission, as War Shipping Administrator, was made directly responsible for the administration of several major operating programs of the Commission. This arrangement proved its value under the stress of war. About a year after the end of the fighting, however, it was terminated and the organization reverted to the prewar pattern.

As a result of postwar experience, the Commission appointed a general manager in 1948. While this has brought considerable improvement, it has not extricated the Commission from administration to the degree which is desirable.

After careful consideration of the problems involved in improving the operation of the Maritime Commission, I have concluded that the proper action at this time is to concentrate in the Chairman the responsibility for the internal administration of the agency. This is achieved by the proposed reorganization plan by transferring to the Chairman the appointment of the personnel of the agency, except for the immediate assistants of the Commissioners, and the supervision and direction of their work. This is substantially the arrangement recommended for regulatory commissions by the Commission on Organization of the Executive Branch of the Government.

Such a plan of organization has many advantages. It leaves in the Commission as a body the performance of regulatory functions, the determination of subsidies, and the determination of major policies. Thus, it utilizes the Commission for the type of work for which such a body is best adapted. At the same time the plan places under a single official the day-to-day direction of the work of the staff within the policies and determinations adopted by the Commission in the exercise of its functions. This will provide more businesslike administration and help to overcome the delays, backlogs, and operating difficulties which have hampered the agency. At the same time by freeing the members of the Commission of much detail, the plan will enable them to concentrate on major questions of policy and program and thereby will obtain earlier and better considered resolution of the basic problems of the agency.

Though the taking effect of this plan in itself may not result in substantial immediate economies, it is probable that the improved organizational arrangements will bring about, over a period of time, improved operations and substantially reduced expenditures. An itemization of these reductions, however, in advance of actual experience under the plan is not practicable.

I am convinced that this reorganization plan will contribute importantly to the more businesslike and efficient administration of the programs of the Maritime Commission.

HARRY S. TRUMAN.

THE WHITE HOUSE, June 20, 1949.

FEDERAL MARITIME BOARD AND MARITIME ADMINISTRATION

The following is a statement, in part, of the Department of Commerce, relating to the organization and functions of the Federal Maritime Board, and the Maritime Administration, created by Reorg. Plan No. 21 of 1950, set out above, as such statement appeared in 16 F.R. 44 to 46, Jan. 3, 1951:

The statement of organization and functions of the Maritime Administration issued in 15 F.R. 4454–4457 is hereby revoked and the following substituted therefor:

1. *Establishment.* The Federal Maritime Board and the Maritime Administration were established in the Department of Commerce by Reorganization Plan No. 21 of 1950, effective May 24, 1950 [set out above]. In performance of their functions the Federal Maritime Board and the Maritime Administration are guided by the broad declaration of policy stated in Title I of the Merchant Marine Act, 1936 (49 Stat. 1985) [46 U.S.C. 1101], reaffirmed in section 2 of the Merchant Ship Sales Act, 1946 (60 Stat. 41) [50 App. U.S.C. 1735] * * *.

2. *Organization of the Federal Maritime Board.* The Federal Maritime Board is composed of three members appointed by the President by and with the advice and consent of the Senate. The President designates one of the members to serve as Chairman of the Federal Maritime Board. The Chairman serves as chief executive and administrative officer of the Federal Maritime Board. Any two members in office constitute a quorum for the transaction of the business of the Federal Maritime Board, and the affirmative votes of any two members are sufficient for the disposition of any matter which may come before the Federal Maritime Board.

The Federal Maritime Board has the following organizational components: (a) Office of the Chairman of the Federal Maritime Board; (b) Offices of the Members of the Federal Maritime Board; (c) Secretary's Office; (d) Regulation Office; and (e) Hearing Examiners' Office.

Insofar as he deems desirable, the Chairman of the Federal Maritime Board makes use of the officers and employees of the Maritime Administration to perform activities for the Federal Maritime Board.

3. *Functions of the Federal Maritime Board*—(a) *Regulatory functions.* Under Reorganization Plan No. 21 of 1950 the Federal Maritime Board is independent of the Secretary of Commerce in the performance of the following functions: (1) All functions under the provisions of sections 14 to 20, inclusive, and sections 22 to 33, inclusive, of the Shipping Act, 1916, as amended [46 U.S.C. 812–819, 821–832], including such functions with respect to the regulation and control of rates, services, practices, and agreements of common carriers by water and of other persons;

(2) All functions with respect to the regulation and control of rates, fares, charges, classifications, tariffs, regulations, and practices of common carriers by water under the provisions of the Intercoastal Shipping Act, 1933, as amended [46 U.S.C. 843–848];

(3) The functions with respect to the making of rules and regulations affecting shipping in the foreign trade to adjust or meet conditions unfavorable to such shipping, and with respect to the approval, suspension, modification, or annulment of rules or regulations of other Federal agencies affecting shipping in the foreign trade, under the provisions of section 19 of the Merchant Marine Act, 1920, as amended [46 U.S.C. 876], exclusive of subsection (1)(a) thereof;

(4) The functions with respect to investigating discriminatory rates, charges, classifications, and practices in the foreign trade, and with respect to recommending legislation to correct such discrimination, under the provisions of section 212(e) of the Merchant Marine Act, 1936 [46 U.S.C. 1122(e)]; and

(5) So much of the functions with respect to requiring the filing of reports, accounts, records, rates, charges, and memoranda, under the provisions of section 21 of the Shipping Act, 1916, as amended [46 U.S.C. 820], as relates to its functions under items (1) through (4), above.

(b) *Subsidy contracts.* Under Reorganization Plan No. 21 of 1950 the Federal Maritime Board is guided by the general policies of the Secretary of Commerce in performing the following functions: (1) The functions with respect to making, amending, and terminating construction (reconstruction or reconditioning) differential subsidy contracts, including contracts for the construction, reconstruction, or reconditioning of vessels and contracts for the sale of vessels to subsidy applicants or contracts to pay a differential subsidy and the cost of national defense features. In the exercise of this function the Federal Maritime Board investigates and determines the relative cost of construction of comparable vessels in the United States and foreign countries and the extent and character of aids and subsidies granted by foreign governments to their merchant marines;

(2) The functions with respect to making, amending, and terminating operating differential subsidy contracts and, subsequent to entering into an operating differential subsidy contract, making determinations with respect to employment and wage conditions, and taking action on readjustment of operating cost differentials and the sale, assignment, or transfer of the contract. In the exercise of this function the Federal Maritime Board investigates and determines the relative cost of operating vessels under the registry of the United States and under foreign registry, and the extent and character of aids and subsidies granted by foreign governments to their merchant marines;

(3) The functions with respect to investigating and reporting on relative construction and operating costs in the United States and foreign maritime countries, and the relative advantages of operating under United States or foreign registry, and on marine insurance, navigation laws, and vessel mortgages as authorized under section 12 of the Shipping Act, 1916 [46 U.S.C. 811]; and

(4) The functions with respect to requiring the filing of reports, accounts, records, rates, charges, and memoranda as relates to its functions as set forth in items (1), (2), and (3), above.

(c) *Charters under the Merchant Ship Sales Act, 1946.* The Federal Maritime Board makes determinations, after public hearings, as to whether the bareboat charter of warbuilt dry cargo vessels owned by the United States is required in the public interest in any service then not adequately served and for which privately owned American-flag vessels are not available for charter by private operators on reasonable conditions and rates, and certifies its findings to the Secretary of Commerce together with any restrictions and conditions which it determines to be necessary or appropriate to protect the public interest in respect to such charters and to protect privately owned vessels against competition from Government vessels chartered by the Secretary of Commerce. All such charters are reviewed annually by the Federal Maritime Board for the purpose of making recommendations to the Secretary of Commerce as to whether conditions exist justifying the continuance of the charters. The functions of the Secretary of Commerce with respect to the chartering of vessels has been delegated to the Maritime Administrator.

(d) *War risk insurance.* Pursuant to Public Law 763, 81st Congress [46 U.S.C. 1281-1294], the Federal Maritime Board makes determinations of the fair and reasonable value of vessels insured under the provisions of Title XII of the Merchant Marine Act, 1936, as amended [46 U.S.C. 1281-1294]. The Secretary of Commerce may not settle an insurance claim with respect to a vessel in an amount in excess of the vessel's fair and reasonable value as determined by the Federal Maritime Board.

(e) In carrying out its functions under paragraphs (a), (b), (c) and (d), above, the Federal Maritime Board adopts rules and regulations; makes reports and recommendations to Congress; subpoenas witnesses; administers oaths; takes evidence; requires the production of books, papers and documents as necessary; issues opinions; promulgates orders; engages in enforcement and other legal proceedings; and performs all functions formerly performable by the Maritime Commission, which have been transferred to the Federal Maritime Board pursuant to Reorganization Plan No. 21 of 1950.

4. *Organization of the Maritime Administration*—(a) *Maritime Administrator.* The Chairman of the Federal Maritime Board is ex officio the Maritime Administrator. When serving as Maritime Administrator, he reports and is responsible to the Secretary of Commerce.

(b) *Deputy Maritime Administrator.* The Maritime Administrator is assisted in his duties by a Deputy Maritime Administrator, who is the Acting Maritime Administrator during the absence or disability of the Maritime Administrator and, unless the Secretary of Commerce designates another person, during a vacancy in the Office of Maritime Administrator. The Deputy Maritime Administrator is appointed by the Secretary of Commerce, after consultation with the Maritime Administrator. The Deputy Maritime Administrator at no time sits as a member of the Federal Maritime Board.

(c) *Organizational components.* The Maritime Administration has the following organizational components: (1) Office of the Maritime Administrator; (2) Staff Offices including the Office of the General Counsel, the Program Planning Office, the Budget Office, and the Personnel Office; (3) Division of Claims; (4) Office of Subsidy and Government Aid; (5) Office of Maritime Operations; (6) Office of Ship Construction; (7) Office of the Comptroller; and (8) Offices of the Coast Directors.

(d) *Use of officers and employees of the Federal Maritime Board.* Insofar as he deems desirable, the Maritime Administrator makes use of officers and employees of the Federal Maritime Board under his supervision as Chairman to perform activities for the Maritime Administration.

(5) *Functions of the Maritime Administrator.* The Maritime Administrator is responsible for the performance of all functions transferred to the Secretary of Commerce under Reorganization Plan No. 21 of 1950, subject to the limitations set forth in Department Order No. 116, as amended, with power of redelegation, and for the performance of activities for the Federal Maritime Board as determined desirable by the Chairman of the Federal Maritime Board.

(a) The Office of the Maritime Administrator directs the activities of the Maritime Administration and includes personnel who render staff services to the Maritime Administrator.

APPOINTMENT OF PERSONNEL

The following is a legal opinion, in part, dated August 29, 1950, and prepared by the General Counsel of the Maritime Administration, with respect to the authority of the chairman of the Federal Maritime Board to make appointments of personnel under the Board and the extent of the authority of the Secretary of Commerce under Reorg. Plan No. 21 of 1950, set out above, as to such personnel:

Sec. 103 of Reorganization Plan 21 of 1950 [set out above] transferred to the Chairman of the Federal Maritime Board "all functions of the Chairman of the United States Maritime Commission (including his functions under the provisions of Reorganization Plan No. 6 of 1949 [set out above]) with respect to the functions transferred to the Board by the provisions of Sections 104 and 105" of Plan 21. Section 104 transferred to the Board the regulatory functions of the Maritime Commission and Section 105 transferred certain of the subsidy functions of the Commission, not including, however, the function of administering subsidy contracts.

Sec. 106 of Plan 21 provides for the status of the Board and of the Chairman and their relationship to the Secretary of Commerce. * * *.

In order to fully understand the intent of Plan 21, it is necessary to examine the status of the appointing authority of the Chairman of the Maritime Commission immediately prior to the transfer of functions under Plan 21. As set forth above, Section 103 of Plan 21 makes specific reference to the authority of the Chairman of the Commission under Plan 6 of 1949 as being transferred to the Chairman of the Board.

Reorganization Plan 6 was transmitted by the President to Congress on June 20, 1949. Its purpose as stated in the message of transmittal [set out in Appendix to Title 5, Government Organization and Employees] was "to strengthen the administration of the United States Maritime Commission by making the Chairman the chief executive and administrative officer of the Commission and *vesting in him responsibility for the appointment of its personnel* and the supervision and direction of their activities." (Emphasis supplied.)

Section 2 of Plan 6 transferred from the Commission to the Chairman certain functions including the appointment of personnel (exclusive of "personnel employed regularly and full time" in the offices of other members) with the proviso that the Chairman would consult with other members before appointing the heads of major administration units. Section 1 of Plan 6 provided that in exercising certain functions the Chairman should be guided by policies of the Commission. This section significantly excepted from such requirement the authority transferred to the Chairman under Section 2 including the appointive authority. Thus the appointive authority (excluding only personnel in offices of Commission members) was exclusively and, except for the proviso relating to heads of major units, unconditionally vested in the Chairman of the Commission until Plan 21 took effect.

Plan 21 transferred all the functions of the Commission and of the Chairman of the Commission. As stated above, some of these functions went to the Federal Maritime Board (Secs. 104, 105). Others were transferred to the Chairman of the Board (Sec. 103). Functions not otherwise transferred went to the Secretary of Commerce (Sec. 204).

The functions transferred to the Board and to the Chairman relate to regulatory authority (to be exercised independently) and subsidy functions (to be exercised subject to the guidance of general policies established by the Secretary of Commerce). As Section 103 transferring functions to the Chairman relating to these subjects makes specific reference to the authority of the Chairman of the Commission under Plan 6, which included the appointment of personnel, it appears evident that so much of the appointive power as relates to personnel performing these functions passed to the Chairman of the Board to be exercised by him independently as to personnel performing regulatory functions and subject to the injunction of Sec. 106 (to be guided by the policies of the Secretary of Commerce) as to personnel performing services in connection with the subsidy functions performed by the Board.

This conclusion is reinforced by reference to a decision of the Attorney General to the Secretary of Commerce, dated May 13, 1940, construing somewhat similar provisions in a reorganization plan transferring to the Department certain functions of the Civil Aeronautics Authority [Reorg. Plan No. IV of 1940, § 7, eff. June 30, 1940, 5 F.R. 2421, 54 Stat. 1234, set out in the Appendix to Title 5, Government Organization and Employees] * * *. Despite the specific mention of the personnel functions the Attorney General held that the appointive authority was in the Board. This decision was based upon reasoning recognizing the practical fact that independence in the exercise of the functions of the Board could not be achieved if the control of personnel and finances of the Board were in the Secretary of Commerce.

I have reached the conclusion that the appointive authority as to personnel engaged in regulatory and certain of the subsidy functions is vested in the Chairman, notwithstanding certain facts which might tend to indicate a different result.

Chief among these is the statement contained in the President's message transmitting Plan 21, as follows:

"In making the Chairman of the Federal Maritime Board the Maritime Administrator, the plan adopts an arrangement substantially similar to that which prevailed during the war, when the same individual served as Chairman of the Maritime Commission and head of the War Shipping Administration. This arrangement will have important advantages. It will facilitate cooperation between the Board and the Administration on matters of concern to both. Also, it will avoid dividing the personnel of the Maritime Commission, since the Chairman of the Board will supervise the personnel assisting it in the performance of its functions, as is now the case in the Maritime Commission, and in his capacity as Administrator he will have charge of the personnel carrying on the work of the Maritime Administration. The plan provides for the joint operation of the officers and employees under the Administrator and Chairman as a single body of personnel. The maintenance of a unified staff is essential for efficient and economical administration because many of the technical and professional personnel, such as ship designers and attorneys, now assist the Maritime Commission on problems of subsidy determination and also participate in the subsequent administration of subsidy agreements and in performing nonsubsidy functions.

"The inclusion of the new Board in the Department of Commerce will permit the use of the administrative services of the Department. More important, it will eliminate the necessity of splitting the personnel of the Maritime Commission between the Department and an outside agency. * * *".

A literal reading of portions of this statement might be used as a basis for argument that a single appointive authority was intended. This meaning cannot be given the statement, however, in view of the specific language of the Plan as previously discussed. It is more likely that the President had in mind the fact that the Plan seems to contemplate a delegation of authority from the Secretary to the Chairman-Administrator by providing in Sec. 204 that "The Secretary of Commerce may from time to time make such provisions as he shall deem appropriate authorizing the performance by the Maritime Administrator of any function transferred to such Secretary by the provisions of this reorganization plan." Sec. 302 provides that the Chairman-Administrator shall make joint use of personnel.

Another argument against the conclusion stated could be based upon the fact that Plan 21 makes specific reference in transferring functions to the Board of certain titles and portions of the Merchant Marine Act, 1936, as amended [this chapter], without making any reference to Sec. 201(e) of that Act [subsec. (e) of this section] which is the source of the appointive authority formerly vested in the Commission. This argument fails, however, when consideration is given to the fact that immediately prior to Plan 21 this authority was vested not in the Commission but in the Chairman of the Commission under Plan 6 and is included in the specific reference to Plan 6.

It is clear that both Plan 21 and the President's transmittal message contemplate the use of personnel to perform dual functions for the Board and for the Administrator. It is equally clear that the Plan itself does not contain provisions vesting in a *single appointive authority* the power to establish such a group of personnel. It is evident, therefore, that the President contemplated that this objective be achieved by the Chairman's voluntarily utilizing the services of employees appointed under the authority of the Secretary to perform services in connection with Board functions and, in his capacity as Administrator, utilizing the services of employees employed by him under the direct grant of authority in the Plan to perform duties assigned to him by the Secretary. Thus the Plan, although directing the joint use of personnel, intends that result to be accomplished through the use of the administrative discretion granted the Chairman-Administrator by Section 302 of the Plan to be exercised in the interest of economy and efficiency, and does not vest exclusive appointing authority either in the Secretary or the Chairman-Administrator.

(b) Bulk cargo carrying services

The bulk cargo carrying services that should, for the promotion, development, expansion, and maintenance of the foreign commerce of the United States and for the national defense or other national requirements be provided by United States-flag vessels whether or not operating on particular services, routes, or lines;

The type, size, speed, method of propulsion, and other requirements of the vessels, including express-liner or super-liner vessels, which should be employed in such services or on such routes or lines, and the frequency and regularity of the sailings of such vessels, with a view to furnishing adequate, regular, certain, and permanent service, or which should be employed to provide the bulk cargo carrying services necessary to the promotion, maintenance, and expansion of the foreign commerce of the United States and its national defense or other national requirements whether or not such vessels operate on a particular service, route, or line;

The relative cost of construction of comparable vessels in the United States and in foreign countries;

(i) Transportation to foreign ports of cotton, coal, lumber, and cement

The advisability of enactment of suitable legislation authorizing the Secretary of Transportation in an economic or commercial emergency, to aid the farmers and cotton, coal, lumber, and cement producers in any section of the United States in the transportation and landing of their products in any foreign port, which products can be carried in dry-cargo vessels by reducing rates, by supplying additional tonnage to any American operator, or by operation of vessels directly by the Secretary of Transportation, until such time as the Secretary of Transportation shall deem such special rate reduction and operation unnecessary for the benefit of the American farmers and such producers; and

(j) New designs of vessels; intercoastal and inland water transportation

New designs, new methods of construction, and new types of equipment for vessels; the possibilities of promoting the carrying of American foreign trade in American vessels; and intercoastal and inland water transportation, including their relation to transportation by land and air.

§ 1151. Subsidy authorized for vessels to be operated in foreign trade

(a) Application for subsidy for construction; conditions precedent to granting

Any proposed ship purchaser who is a citizen of the United States or any shipyard of the United States may make application to the Secretary of Transportation for a construction-differential subsidy to aid in the construction of a new vessel to be used in the foreign commerce of the United States. No such application shall be approved by the Secretary of Transportation unless he determines that (1) the plans and specifications call for a new vessel which will meet the requirements of the foreign commerce of the United States, will aid in the promotion and development of such commerce, and be suitable for use by the United States for national defense or military purposes in time of war or national emergency; (2) if the applicant is the proposed ship purchaser, the applicant possesses the ability, experience, financial resources, and other qualifications necessary for the operation and maintenance of the proposed new vessel, and (3) the granting of the aid applied for is reasonably calculated to carry out effectively the purposes and policy of this chapter. The contract of sale, and the mortgage given to secure the payment of the unpaid balance of the purchase price shall not restrict the lawful or proper use or operation of the vessel except to the extent expressly required by law. The Secretary of Transportation may give preferred consideration to applications that will tend to reduce construction-differential subsidies and that propose the construction of ships of higher transport capability and productivity.

(b) Submission of plans to Navy Department; certification of approval

The Secretary of Transportation shall submit the plans and specifications for the proposed vessel to the Navy Department for examination thereof and suggestions for such changes therein as may be deemed necessary or proper in order that such vessel shall be suitable for economical and speedy conversion into a naval or military auxiliary, or otherwise suitable for the use of the United States Government in time of war or national emergency. If the Secretary of the Navy approves such plans and specifications as submitted, or as modified, in accordance with the provisions of this subsection, he shall certify such approval to the Secretary of Transportation.

(c) Application for subsidy for reconstruction or reconditioning; conditions precedent to granting; contracts

Any citizen of the United States or any shipyard of the United States may make application to the Secretary of Transportation for a construction-differential subsidy to aid in reconstructing or reconditioning any vessel that is to be used in the foreign commerce of the United States. If the Secretary of Transportation, in the exercise of his discretion, shall determine that the granting of the financial aid applied for is reasonably calculated to carry out effectively the purposes and policy of this chapter, the Secretary of Transportation may approve such application and enter into a contract or contracts with the applicant therefor providing for the payment by the United States of a construction-differential subsidy that is to be ascertained, determined, controlled, granted, and paid, subject to all the applicable conditions and limitations of this subchapter and under such further conditions and limitations as may be prescribed in the rules and regulations of the Secretary of Transportation has adopted as provided in section 1114(b) of this Appendix; but the financial aid authorized by this subsection shall be extended to reconstruction or reconditioning only in exceptional cases and after a thorough study and a formal determination by the Secretary of Transportation that the proposed reconstruction or reconditioning is consistent with the purposes and policy of this chapter.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1152, 1173 of this Appendix.

§ 1152. Construction of vessels; bids; subsidies

(a) Approval of bids; contract with bidder; acceptance of negotiated price; shipyard records, availability; contract with applicant or qualified citizen for purchase of vessel

If the Secretary of the Navy certifies his approval under section 1151(b) of this Appendix, and the Secretary of Transportation approves the application, he may secure bids for the construction of the proposed vessel according to the approved plans and specifications. If the bid of the shipbuilder who is the lowest responsible bidder is determined by the Secretary of Transportation to be fair and reasonable, the Secretary of Transportation may approve such bid, and if such approved bid is accepted by the proposed ship purchaser, the Secretary of Transportation is authorized to enter into a contract with the successful bidder for the construction, outfitting, and equipment of the proposed vessel, and for the payment by the Secretary of Transportation to the shipbuilder, on terms to be agreed upon in the contract, of the contract price of the vessel, out of the construction fund hereinbefore referred to, or out of other available funds. Notwithstanding the provisions of the first sentence of section 1155 of this Appendix with respect to competitive bidding, the Secretary of Transportation is authorized to accept a price for the construction of the ship which has been negotiated between a shipyard and proposed ship purchaser if (1) the proposed ship purchaser and the shipyard submit backup cost details and evidence that the negotiated price is fair and reasonable; (2) the Secretary of Transportation finds that the negotiated price is fair and reasonable; and (3) the shipyard agrees that the Comptroller General of the United States or any of his duly authorized representatives shall, until the expiration of three years after final payment have access to and the right to examine any pertinent books, documents, papers, and records of the shipyard or any of its subcontractors related to the negotiation or performance of any contract or subcontract negotiated under this subsection and will include in its subcontracts a provision to that effect. Concurrently with entering into such contract with the shipbuilder, the Secretary of Transportation is authorized to enter into a contract for the sale of such vessel upon its completion, to the applicant if he is the proposed ship purchaser and if not to another citizen of the United States, if the Secretary of Transportation determines that such citizen possesses the ability, experience, financial resources, and other qualifications necessary for the operation and maintenance of the vessel at a price corresponding to the estimated cost, as determined by the Secretary of Transportation pursuant to the provisions of this chapter, of building such vessel in a foreign shipyard.

(b) Basis for fixing subsidy; cost of construction in foreign yards; annual recomputation and publication of foreign cost; limitation on construction differential; report on American shipbuilding industry

The amount of reduction in selling price which is herein termed "construction differential subsidy" shall equal, but not exceed, the excess of the bid of the shipbuilder constructing the proposed vessel (excluding the cost of any features incorporated in the vessel for national defense uses, which shall be paid by the Secretary in addition to the subsidy), over the fair and reasonable estimate of cost, as determined by the Secretary, of the construction of that type vessel if it were constructed under similar plans and specifications (excluding national defense features as above provided) in a foreign shipbuilding center which is deemed by the Secretary to furnish a fair and representative example for the determination of the estimated foreign cost of construction of vessels of the type proposed to be constructed. The Secretary of Transportation shall recompute such estimated foreign cost annually unless, in the opinion of the Secretary, there has been a significant change in shipbuilding market conditions. The Secretary shall publish notice of his intention to compute or recompute such estimated foreign cost and shall give interested persons, including but not limited to shipyards and shipowners and associations thereof, an opportunity to file written statements. The Secretary's consideration shall include, but not be limited to, all relevant matter so filed, and his determination shall include or be accompanied by a concise explanation of the basis of his determination. The construction differential approved and paid by the Secretary shall not exceed 50 per centum of the cost of constructing, reconstructing, or reconditioning the vessel (excluding the cost of national defense features). If the Secretary finds that the construction differential exceeds, in any case, the foregoing percentage of such cost, the Secretary may negotiate with any bidder (whether or not such person is the lowest bidder) and may contract with such bidder (notwithstanding the first sentence of section 1155 of this Appendix) for the construction, reconstruction, or reconditioning of the vessel involved in a domestic shipyard at a cost which will reduce the construction differential to such percentage or less. In the event that the Secretary has reason to believe that the bidding in any instance is collusive, he shall report all of the evidence on which he acted (1) to the Attorney General of the United States, and (2) to the President of the Senate and to the Speaker of the House of Representatives if the Congress shall be in session or if the Congress shall not be in session, then to the Secretary of the Senate and Clerk of the House, respectively.

(c) Terms of sale of vessel to purchaser

In such contract of sale between the purchaser and the Secretary of Transportation, the purchaser shall be required to make cash payments to the Secretary of Transportation of not less than 25 per centum of the price at which the vessel is sold to the purchaser. The cash payments shall be made at the time and in the same proportion as provided for the payments on account of the construction cost in the contract between the shipbuilder and the Secretary of Transportation. The purchaser shall pay, not less frequently than annually, interest on those portions of the Secretary of Transportation's payments as made to the shipbuilder which are chargeable to the purchaser's portion of the price of the vessel (after deduction of the purchaser's cash payments) at a rate not less than (i) a rate determined by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the average maturities of such loans, adjusted to the nearest one-eighth of 1 per centum, plus (ii) an allowance adequate in the judgment of the Secretary of Transportation to cover administrative costs. The balance of such purchase price shall be paid by the purchaser, within twenty-five years after delivery of the vessel and in not to exceed twenty-five equal annual installments, the first of which shall be payable one year after the delivery of the vessel by the Secretary of Transportation to the purchaser. Interest at the rate per annum applicable to payments that are chargeable to the purchaser's portion of the price of the vessel shall be paid on all such installments of the purchase price remaining unpaid.

(d) Repealed. Pub. L. 87-877, § 2(a), Oct. 24, 1962, 76 Stat. 1200

(e) Construction in navy yards; sales to citizens; terms

If no bids are received for the construction, outfitting, or equipping of such vessel, or if it appears to the Secretary of Transportation that the bids received from privately owned shipyards of the United States are collusive, excessive, or unreasonable, and if a citizen of the United States agrees to purchase said vessel as provided in this section, then, to provide employment for citizens of the United States, the Secretary of Transportation may have such vessel constructed, outfitted, or equipped at not in excess of the actual cost thereof in a navy yard of the United States under such regulations as may be promulgated by the Secretary of the Navy and the Secretary of Transportation. In such event the Secretary of Transportation is authorized to pay for any such vessel so constructed from his construction fund. The Secretary of Transportation is authorized to sell any vessel so constructed, outfitted, or equipped in a navy yard to a citizen of the United States for the fair and reasonable value thereof, but at not less than the cost thereof less the equivalent to the construction differential subsidy determined as provided by subsection (b) of this section, such sale to be in accordance with all the provisions of this subchapter.

(f) Survey of shipbuilding capability; correction of inadequacies; reimbursement of certain vessel construction and delivery expenses

The Secretary of Transportation, with the advice of and in coordination with the Secretary of the Navy, shall at least once each year, as required for purposes of this chapter, survey the existing privately owned shipyards capable of merchant ship construction, or review available data on such shipyards if deemed adequate, to determine whether their capabilities for merchant ship construction, including facilities and skilled personnel, provide an adequate mobilization base at strategic points for purposes of national defense and national emergency. The Secretary of Transportation, in connection with ship construction, reconstruction, reconditioning, or remodeling under this subchapter and subchapter VII of this chapter, upon a basis of a finding that the award of the proposed construction, reconstruction, reconditioning, or remodeling work will remedy an existing or impending inadequacy in such mobilization base as to the capabilities and capacities of a shipyard or shipyards at a strategic point, and after taking into consideration the benefits accruing from standardized construction, the conditions of unemployment, and the needs and reasonable requirements of all shipyards, may allocate such construction, reconstruction, reconditioning, or remodeling to such yard or yards in such manner as he may determine to be fair, just, and reasonable to all sections of the country, subject to the provisions of this subsection. In the allocation of construction work to such yards as herein provided, the Secretary of Transportation may, after first obtaining competitive bids for such work in compliance with the provisions of this chapter, negotiate with the bidders and with other shipbuilders concerning the terms and conditions of any contract for such work, and is authorized to enter into such contract at a price deemed by the Secretary of Transportation to be fair and reasonable. Any contract entered into by the Secretary of Transportation under the provisions of this subsection shall be subject to all of the terms and conditions of this chapter, excepting those pertaining to the awarding of contracts to the lowest bidder which are inconsistent with the provisions of this subsection. In the event that a contract is made providing for a price in excess of the lowest responsible bid which otherwise would be accepted, such excess shall be paid by the Secretary of Transportation as a part of the cost of national defense, and shall not be considered as a part of the construction-differential subsidy. In the event that a contract is made providing for a price lower than the lowest responsible bid which otherwise would be accepted, the construction-differential subsidy shall be computed on the contract price in lieu of such bid.

If, as a result of allocation under this subsection, the purchaser incurs expenses for inspection and supervision of the vessel during construction and for the delivery voyage of the vessel in excess of the estimated expenses for the same services that he would have incurred if the vessel had been constructed by the lowest responsible bidder the Secretary of Transportation (with respect to construction under this subchapter, except section 1159 of this Appendix) shall reimburse the purchaser for such excess, less one-half of any gross income the purchaser receives that is allocable to the delivery voyage minus one-half of the extra expenses incurred to produce such gross income, and such reimbursement shall not be considered part of the construction-differential subsidy: *Provided*, That no interest shall be paid on any refund authorized under this chapter. If the vessel is constructed under section 1159 of this Appendix the Secretary of Transportation shall reduce the price of the vessel by such excess, less one-half of any gross income (minus one-half of the extra expenses incurred to produce such gross income) the purchaser receives that is allocable to the delivery voyage. In the case of a vessel that is not to receive operating-differential subsidy, the delivery voyage shall be deemed terminated at the port where the vessel begins loading. In the case of a vessel that is to receive operating-differential subsidy, the delivery voyage shall be deemed terminated when the vessel begins loading at a United States port in an essential service. In either case, however, the vessel owner shall not be compensated for excess vessel delivery costs in an amount greater than the expenses that would have been incurred in delivering the vessel from the shipyard at which it was built to the shipyard of the lowest responsible bidder. If as a result of such allocation, the expenses the purchaser incurs with respect to such services are less than the expenses he would have incurred for such services if the vessel had been constructed by the lowest responsible bidder, the purchaser shall pay to the Secretary of Transportation an amount equal to such reduction and, if the vessel was built with the aid of construction-differential subsidy, such payment shall not be considered a reduction of the construction-differential subsidy.

(g) Sale of vessels acquired by Secretary

Upon the application of any citizen of the United States to purchase any vessel acquired by the Secretary of Transportation under the provisions of section 1125 of this Appendix, the Secretary of Transportation is authorized to sell such vessel to the applicant for the fair and reasonable value thereof, but at not less than the cost thereof to the Secretary of Transportation less depreciation at the rate of 4 per centum per annum from the date of completion, excluding the cost of national-defense features added by the Secretary of Transportation, less the equivalent of any applicable construction-differential subsidy as provided by subsection (b) of this section, such sale to be in accordance with all the provisions of this subchapter. Such vessel shall thereupon be eligible for an operating-differential subsidy under subchapter VI of this chapter, notwithstanding the provisions of section 1171(a)(1), and section 1180(1) of this Appendix, or any other provision of law.

(h) Installation or removal of national defense features; title to such features

The Secretary of Transportation is authorized to construct, purchase, lease, acquire, store, maintain, sell, or otherwise dispose of national defense features intended for installation on vessels. The Secretary of Transportation is authorized to install or remove such national defense features on any vessel (1) which is in the National Defense Reserve Fleet as defined by section 1744(a) of the Appendix to title 50, (2) which is requisitioned, purchased, or chartered under section 1242 of this Appendix, (3) which serves as security for the guarantee of an obligation by the Secretary of Transportation under subchapter XI of this chapter, or (4) which is the subject of an agreement between the owner of such vessel and the Secretary of Transportation to install or remove such national defense features. Title to such national defense features which the Secretary of Transportation determines are not to be permanently incorporated in a vessel shall not be affected by such installation or removal unless otherwise transferred in accordance with the provisions of this subchapter.

(i) Plans, specifications, and proposals for national defense features; certification of approval

The Secretary of Transportation shall submit the plans and specifications for such national defense features and the proposals for their acquisition, storage, utilization, or disposition to the Navy Department for examination thereof and suggestion for such changes therein as may be deemed necessary or proper in order that such features shall be suitable for the use of the United States Government in time of war or national emergency. If the Secretary of the Navy approves such plans, specifications, or proposals as submitted, or as modified in accordance with the provisions of this subsection, he shall certify such approval to the Secretary of Transportation.

Subsec. (f). Pub. L. 88-410 provided for reimbursement of expenses incurred during construction and the delivery voyage of a vessel, if as a result of allocation under this subsection, they are in excess of the estimated expenses that would have been incurred if the vessel had been constructed by the lowest responsible bidder, less one-half of any gross income allocable to the delivery voyage, minus one-half the extra expenses incurred to produce such income, and that such reimbursement shall not be part of the construction-differential subsidy, that no interest be paid on any refund authorized, that if the vessel is constructed under section 1159 the price of the vessel is to be reduced by such excess expenses less such gross income, calculated as above, obtained on the delivery voyage, that if the vessel is not to receive the operating-differential subsidy the delivery voyage shall be deemed terminated at the port where the vessel begins loading, and if it does receive the subsidy, when the vessel begins loading at a United States port on any essential service of the operator, but in either case there is to be no compensation greater than the expenses that would have been incurred in delivering the vessel from the shipyard at which it was built to the one of the lowest bidder, that if the allocation results in a saving of expenses for the applicant, the applicant shall pay an equal amount to the Secretary, and if the vessel was built with the subsidy, such payment shall not be considered a reduction of the subsidy.

1962—Subsec. (b). Pub. L. 87-877, § 1, among other changes, substituted references to the Secretary, for references to the Federal Maritime Board, wherever appearing, and provided that in the reconstruction or reconditioning of a passenger vessel having the characteristics set forth in section 1153 of this Appendix, the construction differential shall not exceed 60 per centum of the cost, excluding national defense features, however, after June 30, 1964, the construction differential approved by the Secretary for any vessel shall not exceed 50 per centum of such cost.

Subsec. (f). Pub. L. 87-877, § 2(e), (f), substituted "at least once each year" for "periodically", "existing or impending inadequacy" for "existing inadequacy", and struck out ", with the approval of the President," before "allocate such construction".

L. 86-607, § 1(1), increased the limitation on construction differential from 50 to 55 per centum of the construction cost of a vessel and provided for such percentage limitation in lieu of former 33⅓ per centum of construction cost, increased to 50 per centum on affirmative vote of two Board members.

Subsec. (c). Pub. L. 86-518, § 1, substituted "twenty-five" for "twenty" in two places.

Subsec. (d). Pub. L. 86-607, § 1(2), increased the limitation on construction-differential from 50 to 55 per centum of the construction cost of a vessel.

Subsec. (g). Pub. L. 86-518, § 2, substituted "at the rate of 4 per centum per annum" for "based on a twenty-year life expectancy".

1956—Subsec. (f). Act July 26, 1956, substituted provisions that required Secretary of Commerce, with advice of Secretary of the Navy, to make periodic survey of privately owned shipyards to determine adequacy for providing mobilization base, and that any inadequacies would be corrected by Secretary of Commerce or Federal Maritime Board with the approval of the President by allocating work to such yards, for former provisions allowing periodic survey by the Federal Maritime Board of both Navy and privately owned shipyards.

1939—Subsec. (b). Act Aug. 4, 1939, substituted "a foreign shipbuilding center which is deemed by the Commission to furnish a fair and representative example for the determination of the estimated foreign cost of construction of vessels of the type proposed to be constructed" for "a principal foreign shipbuilding center which may reasonably be availed of by the principal foreign competitors in the service in which the vessel is to be operated, and which is deemed by the Commission to furnish a fair and representative example for the determination of the estimated cost of construction in foreign countries of vessels of the type proposed to be constructed".

1938—Subsec. (a). Act June 23, 1938, § 9, substituted "of the contract price of the vessel" for "the cost of the vessel".

Subsec. (b). Act June 23, 1938, § 10, permitted negotiations and contracts to build vessels in domestic shipyards in cases where the construction differential exceeds 33⅓ per centum or 50 per centum of the cost, and to require a report where there is reason to believe that the bidding is collusive.

Subsec. (c). Act June 23, 1938, § 11, among other changes, substituted "of not less than 25 per centum of the price at which the vessel is sold to the applicant" for "a sum equal to 25 per centum of the construction cost of the vessel paid by the Commission (excluding cost of national-defense features as above provided)", and required the applicant to pay, not less frequently than annually, interest at the rate of 3½ per centum per annum on those portions of payments made to the shipbuilder which are chargeable to the applicant's purchase price of the vessel (after deduction of the applicant's cash payments).

Subsec. (d). Act June 23, 1938, § 12, substituted "construction-differential subsidy" for "construction subsidy", and inserted provisions relating to limitation on approval of construction-differential in excess of 50 per centum of the construction cost of the vessel paid by the Commission.

CONSTRUCTION AND SALE OF SUPERLINER PASSENGER VESSELS

Pub. L. 85-521, July 15, 1958, 72 Stat. 359, provided: "That it is necessary, in order to carry out the merchant marine policy declared in the Merchant Marine Act, 1936, as amended [this chapter], to have (a) a superliner passenger vessel equivalent to the steamship United States, to replace the steamship America for operation on an essential trade route in the North Atlantic, and (b) a superliner passenger vessel with capacity of approximately one thousand four hundred passengers for operation on an essential trade route in the Pacific Ocean. Nothing herein shall preclude the operation of either of these vessels in other areas, subject to the approval of the Federal Maritime Board. There is hereby authorized to be appropriated to the Department of Commerce such sums as may be necessary, to remain available until expended, for the construction, outfitting, and equipping of such vessels.

"SEC. 2. Concurrently with entering into contracts with shipbuilders for the construction of said vessels, the Board is authorized to enter into contracts for the sale of the vessels, fully outfitted and equipped, upon their completion, (a) with respect to the superliner passenger vessel equivalent to the steamship United States, to the United States Lines Company, for the fixed price of $47,000,000, and (b) with respect to the superliner passenger vessel for operation in the Pacific Ocean, to the American President Lines, Limited, for the fixed price of $34,000,000, or 45 per centum of the domestic construction cost of the vessel fully outfitted and equipped (excluding national defense features and escalation) whichever is the greater. The sales prices stated herein shall include the cost of stabilizers, all outfit and equipment not covered by the shipbuilders' bids, customary architects' and interior decorators' fees for design, inspection during construction, and all escalation provided for in the shipbuilders' bids: *Provided, however,* That such prices shall be increased in an amount equal to 45 per centum of any net change in the cost of the vessels (other than national defense features) arising out of any changes in the bid specifications approved by the Federal Maritime Board or any changes in the usual outfitting and equipping of the vessels if such changes are requested by the purchasers and approved by the Federal Maritime Board after the enactment hereof. Terms and conditions of payment of the purchase price shall be as provided for in sections 502(c) and 503 of the Merchant Marine Act, 1936, as amended [sections 1152(c) and 1153 of this Appendix]. In order that such construction of the superliner passenger vessel equivalent to the steamship United States may be accomplished promptly, the Federal Maritime Board, in its discretion, may have such a vessel constructed, without further bidding, under outstanding bids which have hitherto been made by United States shipbuilders on a similar vessel.

"SEC. 3. Except as otherwise provided in this Act, the construction and sale of the superliner passenger vessels authorized by this Act shall be in accordance with the provisions of the Merchant Marine Act, 1936, as amended [this chapter].

"SEC. 4. For the purposes of this Act the words 'construction differential subsidy' used in the Merchant Marine Act, 1936, as amended [this chapter], shall mean the difference between the sales price paid by the purchaser hereunder and the cost of the vessel (less national defense features) including the cost of stabilizers, all outfit and equipment not covered by the shipbuilders' bids, customary architects' and interior decorators' fees for design, inspection during construction, and all escalation provided for in the shipbuilders' bids.

"SEC. 5. Any contract for an operating differential subsidy on the operation of a vessel constructed and sold under this Act shall be subject to the provisions of title VI of the Merchant Marine Act, 1936, as amended [subchapter VI of this chapter]: *Provided, however,* That such contract shall provide that, if at the end of any recapture period, the net profits on the operation of such vessel for such recapture period, computed without regard to profits or losses on other vessels operated by the contractor, exceed 10 per centum per annum on a cumulative basis upon the contractor's capital necessarily employed in the operation of such vessel, as determined by the Federal Maritime Board, the contractor shall account to the United States for an amount equal to 75 per centum of such excess profits."

§ 1153. Documentation of completed vessel under laws of United States; delivery to purchaser; first mortgage to secure deferred payments

Upon completion of the construction of any vessel in respect to which a construction-differential subsidy is to be allowed under this subchapter and its delivery by the shipbuilder to the Secretary of Transportation, the vessel shall be documented under the laws of the United States, and concurrently therewith, or as soon thereafter as practicable, the vessel shall be delivered with a bill of sale to the purchaser with warranty against liens, pursuant to the contract of sale between the purchaser and the Secretary of Transportation. The vessel shall remain documented under the laws of the United States for not less than twenty-five years, or so long as there remains due the United States any principal or interest on account of the purchaser price, whichever is the longer period. At the time of delivery of the vessel the purchaser shall execute and deliver a first-preferred mortgage to the United States to secure payment of any sums due from the purchaser in respect to said vessel: *Provided,* That notwithstanding any other provisions of law, the payment of any sums due in respect to a passenger vessel purchased under section 1737(b) of Appendix to title 50, reconverted or restored for normal operation in commercial services, or in respect to a passenger vessel purchased under subchapter V of this chapter, which is delivered subsequent to March 8, 1946, and which (i) is of not less than ten thousand gross tons, (ii) has a designed speed approved by the Secretary of Transportation but not less than eighteen knots, (iii) has accommodations for not less than two hundred passengers, and, (iv) is approved by the Secretary of Defense as being desirable for national defense purposes, may, with the approval of the Secretary of

Transportation be secured only by a first-preferred mortgage on said vessel. With the approval of the Secretary of Transportation, such preferred mortgage may provide that the sole recourse against the purchaser of such a passenger vessel under such mortgage, and any of the notes secured thereby, shall be limited to repossession of the vessel by the United States and the assignment of insurance claims, if the purchaser shall have complied with all provisions of the mortgage other than those relating to the payment of principal and interest when due, and the obligation of the purchaser shall be satisfied and discharged by the surrender of the vessel, and all right, title, and interest therein to the United States. Such vessel upon surrender shall be (i) free and clear of all liens and encumbrances whatsoever, except the lien of the preferred mortgage, (ii) in class, and (iii) in as good order and condition, ordinary wear and tear excepted, as when acquired by the purchaser, except that any deficiencies with respect to freedom from encumbrances, condition, and class, may, to the extent covered by valid policies of insurance, be satisfied by the assignment to the United States of claims of the purchaser under such policies of insurance. The purchaser shall also comply with all the provisions of section 868 of this Appendix.

§ 1154. Purchase of vessel constructed in accordance with application for subsidy; bid or negotiated price basis for subsidy and payments for cost of national defense features; documentation

If a qualified purchaser under the terms of this subchapter desires to purchase a vessel to be constructed in accordance with an application for construction-differential subsidy under this subchapter, the Secretary of Transportation may, in lieu of contracting to pay the entire cost of the vessel under section 1152 of this Appendix, contract to pay only construction-differential subsidy and the cost of national defense features to the shipyard constructing such vessel. The construction-differential subsidy and payments for the cost of national defense features shall be based upon the lowest responsible domestic bid unless the vessel is constructed at a negotiated price as provided by section 1152(a) of this Appendix or under a contract negotiated by the Secretary of Transportation as provided in section 1152(b) of this Appendix in which event the construction-differential subsidy and payments for the cost of national defense features shall be based upon such negotiated price. No construction-differential subsidy, as provided in this section, shall be paid unless the said contract or contracts or other arrangements contain such provisions as are provided in this subchapter to protect the interests of the United States as the Secretary of Transportation deems necessary. Such vessel shall be documented under the laws of the United States as provided in section 1153 of this Appendix. The contract of sale, and the mortgage given to secure the payment of the unpaid balance of the purchase price, shall not restrict the lawful or proper use or operation of the vessel, except to the extent expressly required by law.

All construction in respect of which a construction-differential subsidy is allowed under this subchapter shall be performed in a shipyard of the United States as the result of competitive bidding, after due advertisement, with the right reserved in the Secretary of Transportation to disapprove, any or all bids. In all such construction the shipbuilder, subcontractors, materialmen, or suppliers shall use, so far as practicable, only articles, materials, and supplies of the growth, production, or manufacture of the United States as defined in paragraph K [1] of section 1401 of title 19; *Provided, however*, That with respect to other than major components of the hull, superstructure, and any material used in the construction thereof, (1) if the Secretary of Transportation determines that the requirements of this sentence will unreasonably delay completion of any vessel beyond its contract delivery date, and (2) if such determination includes or is accompanied by a concise explanation of the basis therefor, then the Secretary of Transportation may waive such requirements to the extent necessary to prevent such delay. No shipbuilder shall be deemed a responsible bidder unless he possesses the ability, experience, financial resources, equipment, and other qualifications necessary properly to perform the proposed contract. § 1156. Operation of subsidy constructed vessel limited to foreign trade; repayments to Secretary for deviations

Every owner of a vessel for which a construction-differential subsidy has been paid shall agree that the vessel shall be operated exclusively in foreign trade, or on a round-the-world voyage, or on a round voyage from the west coast of the United States to a European port or ports which includes intercoastal ports of the United States, or a round voyage from the Atlantic coast of the United States to the Orient which includes intercoastal ports of the United States, or on a voyage in foreign trade on which the vessel may stop at the State of Hawaii, or an island possession or island territory of the United States, and that if the vessel is operated in the domestic trade on any of the above-enumerated services, he will pay annually to the Secretary of Transportation that proportion of one-twenty-fifth of the construction-differential subsidy paid for such vessel as the gross revenue derived from the domestic trade bears to the gross revenue derived from the entire voyages completed during the preceding year. The Secretary may consent in writing to the temporary transfer of such vessel to service other than the service covered by such agreement for periods not exceeding six months in any year, whenever the Secretary may determine that such transfer is necessary or appropriate to carry out the purposes of this chapter. Such consent shall be conditioned upon the agreement by the owner to pay to the Secretary, upon such terms and conditions as he may prescribe, an amount which bears the same proportion to the construction-differential subsidy paid by the Secretary as such temporary period bears to the entire economic life of the vessel. No operating-differential subsidy shall be paid for the operation of such vessel for such temporary period.

Section Referred to in Other Sections

This section is referred to in sections 1152, 1274 of this Appendix.

§ 1160. Acquisition of obsolete vessels

(a) Definitions

When used in this section—

(1) The term "obsolete vessel" means a vessel or vessels, each of which (A) is of not less than one thousand three hundred and fifty gross tons, (B) in the judgment of the Secretary of Transportation, should, by reason of age, obsolescence, or otherwise, be replaced in the public interest and (C) has been owned by a citizen or citizens of the United States for at least three years immediately prior to the date of acquisition hereunder.

(2) The term "new vessel" means a vessel or vessels, each of which (A) is constructed under the provisions of this chapter, and is acquired within two years from the date of completion of such vessel, or is purchased under section 1204 of this Appendix, as amended, by the person turning in an obsolete vessel under this section, or (B) is hereafter constructed in a domestic shipyard on private account and not under the provisions of this chapter, and documented under the laws of the United States.

(b) Promotion of construction of new vessels; allowance on obsolete vessels

In order to promote the construction of new, safe, and efficient vessels to carry the domestic and foreign waterborne commerce of the United States, the Secretary of Transportation is authorized, subject to the provisions of this section, to acquire any obsolete vessel in exchange for an allowance of credit. The obsolete vessel shall be acquired by the Secretary of Transportation, if the owner so requests, either at the time the owner contracts for the construction or purchase of a new vessel or within five days of the actual date of delivery of the new vessel to the owner. The amount of the allowance shall be determined at the time of the acquisition of the obsolete vessel by the Secretary of Transportation. In the event the obsolete vessel is acquired by the Secretary of Transportation at the time the owner contracts for the construction or purchase of the new vessel, the allowance shall not be paid to the owner of the obsolete vessel, but shall be applied upon the purchase price of a new vessel. In the case of a new vessel constructed under the provisions of this chapter, such allowance may, under such terms and conditions as the Secretary of Transportation may prescribe, be applied upon the cash payments required under this chapter. In case the new vessel is not constructed under the provisions of this chapter, the allowance shall, upon acquisition of the obsolete vessel by the Secretary of Transportation, be paid, for the account of the owner, to the shipbuilder constructing such new vessel. In the event that title to the obsolete vessel is acquired by the Secretary of Transportation at the time of delivery of the new vessel, the allowance shall be deposited in the owner's capital construction fund. This subsection shall apply to obsolete vessels exchanged for new vessels hereafter contracted to be built, or eligible for such exchange but not exchanged in connection with a contract for new vessels executed prior to October 1, 1960.

(c) Utility value of new vessel; gross tonnage

The utility value of the new vessel for operation in the domestic or foreign commerce of the United States shall not be substantially less than that of the obsolete vessel. The gross tonnage of the obsolete vessel may exceed the gross tonnage of the new vessel in a ratio not in excess of three to one, if the Secretary of Transportation finds that the new vessel, although of lesser tonnage, will provide utility value equivalent to or greater than that of the obsolete vessel.

(d) Amount of allowance on obsolete vessel; determination of amount

The allowance for an obsolete vessel shall be the fair and reasonable value of such vessel as determined by the Secretary of Transportation. In making such determination the Secretary of Transportation shall consider: (1) the scrap value of the obsolete vessel both in American and foreign markets, (2) the depreciated value based on a twenty or twenty-five year life, whichever is applicable to the obsolete vessel, and (3) the market value thereof for operation in the world trade or in the foreign or domestic trade of the United States. In the event the obsolete vessel is acquired by the Secretary of Transportation at the time the owner contracts for the construction of the new vessel, and the owner uses such vessel during the period of construction of the new vessel, the allowance shall be reduced by an amount representing the fair value of such use. The rate for the use of the obsolete vessel shall be fixed by the Secretary of Transportation for the entire period of such use at the time of execution of the contract for the construction of the new vessel.

(e) Recognition of gain for income tax purposes; basis for gain or loss

No gain shall be recognized to the owner for the purpose of Federal income taxes in the case of a transfer of an obsolete vessel to the Secretary of Transportation under the provisions of this section. The basis for gain or loss upon a sale or exchange and for depreciation under the applicable Federal income-tax laws of a new vessel acquired as contemplated in this section shall be the same as the basis of the obsolete vessel or vessels exchanged for credit upon the acquisition of such new vessel, increased in the amount of the cost of such vessel (other than the cost represented by such obsolete vessel or vessels) and decreased in the amount of loss recognized upon such transfer.

(f) Report to Congress

The Secretary of Transportation shall include in his annual report to Congress a detailed statement of all transactions consummated under the provisions of the preceding subsections during the period covered by such report.

(g) Use of vessels 25 years old or more

An obsolete vessel acquired by the Secretary of Transportation under this section which is or becomes twenty-five years old or more, and vessels presently in the Secretary's laid-up fleet which are or become twenty-five years old or more, shall in no case be used for commercial operation, except that any such obsolete vessel, or any such vessel in the laid-up fleet may be used during any period in which vessels may be requisitioned under section 1242 of this Appendix, as amended, and except as otherwise provided in this chapter for the employment of the Secretary's vessels in steamship lines on trade routes exclusively serving the foreign trade of the United States.

(h) Acquisition of tankers for national defense reserve

The Secretary of Transportation is authorized until July 1, 1958 (subject to the provisions of this section as herein amended), to acquire a tanker or tankers, determined by him to be desirable for inclusion in the national defense reserve, in exchange for an allowance of credit to be applied upon the purchase price of a new tanker or tankers: *Provided*, That each of the tankers to be traded in (1) is not less than one thousand three hundred and fifty gross tons; (2) is not less than ten years old; (3) is owned by a citizen or citizens of the United States; (4) and preference shall be given to those tankers which have been documented under the laws of the United States for not less than three years immediately preceding; and (5) is in class with respect to hull and machinery satisfactory to the Secretary of Transportation on the date of its physical delivery to the United States and shall be considered an "obsolete vessel" for purposes of this section: *And provided further*, That only a tanker which is constructed after August 10, 1954 and documented under the laws of the United States shall be considered a "new vessel" for purposes of this section.

The Secretary of Transportation is authorized to pay the cost of national defense features incorporated in any such new tanker. In the event that the United States acquires ownership of such new tanker, the price paid therefor shall not include any amount for national defense features paid for by the United States. The foregoing provisions shall run with the title to each new tanker and be binding on all owners thereof.

The allowance of credit for a traded-in tanker which was sold under the Merchant Ship Sales Act of 1946, as amended [50 App. U.S.C. 1735 et seq.], or which was eligible for a price adjustment under section 9 of such Act [50 App. U.S.C. 1742], shall be: (1) in the case of tankers sold under such Act, the depreciated net sales price paid to the United States, and (2) in the case of tankers which were eligible for price adjustment under such Act, the statutory sales price of such tanker as of March 8, 1946, depreciated: plus the depreciated cost of any additions or betterments to the tanker which were capitalized by the owner and allowed for Federal income tax purposes. Such allowance shall be determined as of the date the owner contracts for the construction of a new tanker. In each case, depreciation shall be computed on the basis of the life of the tanker adopted or accepted by the Internal Revenue Service for determining depreciation for income-tax purposes to the date the owner contracts for the construction of a new tanker.

The allowance of credit for any other traded-in tanker shall be determined in accordance with the provisions of subsection (d) of this section.

In no event shall the amount of credit allowed under this subsection or subsection (d) of this section for a traded-in tanker exceed the price paid by the owner for such tanker, plus the cost of any additions or betterments to the tanker capitalized by such owner and allowed for income-tax purposes.

If an owner uses any tanker traded in pursuant to this section subsequent to the date of the contract for construction of a new tanker, the allowance determined shall be reduced by an amount equal to depreciation for the period of such use and computed in accordance with the schedule adopted or accepted by the Internal Revenue Service. Title to the traded-in tanker shall in all instances vest in the United States, and the allowance of credit shall be applied at the time of physical delivery of such tanker to the United States, which shall be no later than ninety days after delivery of the new tanker. The traded-in tanker shall thereupon be placed in the national defense reserve subject to the provisions of section 11 of the Merchant Ship Sales Act of 1946, as amended [50 App. U.S.C. 1744].

(i) Exchange of vessels; valuation; scrapping of traded out vessels

The Secretary of Transportation is authorized to acquire mariner class vessels constructed under subchapter VII of this chapter and Public Law 911, Eighty-first Congress, and other suitable vessels, constructed in the United States, which have never been under foreign documentation, in exchange for obsolete vessels in the National Defense Reserve Fleet. For purposes of this subsection, the trade-in and trade-out vessels shall be valued at the higher of their scrap value in domestic or foreign markets as of the date of the exchange: *Provided*, That in any exchange transactions, the value assigned to the traded-in and traded-out vessels will be determined on the same basis. The value of the traded-out vessels shall be as nearly as possible equal to the value of the traded-in vessel plus the fair value of the cost of towing the traded-out vessel to the place of scrapping. To the extent the value of the traded-out vessel exceeds the value of the traded-in vessel plus the fair value of the cost of towing, the owner of the traded-in vessel shall pay the excess to the Secretary of Transportation in cash at the time of exchange. This excess shall be deposited into the Vessel Operations Revolving Fund and all costs incident to the lay-up of the vessels acquired under this chapter may be paid from balances in the Fund. No payments shall be made by the Secretary of Transportation to the owner of any traded-in vessel in connection with any exchange under this subsection. This section is referred to in title 26 section 1059; title 50 App. section 1741.

§ 1161. Reserve funds for construction or acquisition of vessels; taxation

(a) "New vessel" defined

When used in this section the term "new vessel" means any vessel (1) documented or agreed with the Secretary of Transportation to be documented under the laws of the United States; (2) construction in the United States after December 31, 1939, or the construction of which has been financed under subchapters V or VII of this chapter, or the construction of which has been aided by a mortgage insured under subchapter XI of this chapter; and (3) either (A) of such type, size, and speed as the Secretary of Transportation shall determine to be suitable for use on the high seas or Great Lakes in carrying out the purposes of this chapter, but not of less than two thousand gross tons or of less speed than twelve knots, unless the Secretary of Transportation shall determine and certify in each case that a vessel of a specified lesser tonnage or speed is desirable for use by the United States in case of war or national emergency, or (B) constructed to replace a vessel or vessels requisitioned or purchased by the United States.

(b) Establishment of construction reserve funds

For the purposes of promoting the construction, reconstruction, reconditioning, or acquisition of vessels, or for other purposes authorized in this section, necessary to carrying out the policy set forth in section 1101 of this Appendix, any citizen of the United States who is operating a vessel or vessels in the foreign or domestic commerce of the United States or in the fisheries or owns in whole or in part a vessel or vessels being so operated, or who, at the time of purchase or requisition of the vessel by the Government, was operating a vessel or vessels so engaged or owned in whole or in part a vessel or vessels being so operated or had acquired or was having constructed a vessel or vessels for the purpose of operation in such commerce or in the fisheries, may establish a construction reserve fund, for the construction, reconstruction, reconditioning, or acquisition of new vessels, or for other purposes authorized in this section, to be composed of deposits of proceeds from sales of vessels, indemnities on account of losses of vessels, earnings from the operation of vessels documented under the laws of the United States and from services incident thereto, and receipts, in the form of interest or otherwise, with respect to amounts previously deposited. Such construction reserve fund shall be established, maintained, expended, and used in accordance with the provisions of this section and rules or regulations to be prescribed jointly by the Secretary of Transportation and the Secretary of the Treasury.

(c) Recognition of gain for taxation where proceeds of sale or indemnity for loss deposited in fund

In the case of the sale or actual or constructive total loss of a vessel, if the taxpayer deposits an amount equal to the net proceeds of the sale or to the net indemnity with respect to the loss in a construction reserve fund established under subsection (b) of this section, then—

(1) if the taxpayer so elects in his income-tax return for the taxable year in which the gain was realized, or

(2) in case a vessel is purchased or requisitioned by the United States, or is lost, in any taxable year beginning after December 31, 1939, and the taxpayer receives payment for the vessel so purchased or requisitioned, or receives from the United States indemnity on account of such loss, subsequent to the end of such taxable year, if the taxpayer so elects prior to the expiration of sixty days after the receipt of the payment or indemnity, and in accordance with a form of election to be prescribed by the Commissioner of Internal Revenue with the approval of the Secretary of the Treasury,

no gain shall be recognized to the taxpayer in respect of such sale or indemnification in the computation of net income for the purposes of Federal income or excess-profits taxes. If an election is made under subdivision (2) of this subsection and if computation or recomputation in accordance with this subsection is otherwise allowable but is prevented, on the date of making such election or within six months thereafter, by any statute of limitation, such computation or recomputation nevertheless shall be made notwithstanding such statute if a claim therefor is filed within six months after the date of making such election.

For the purposes of this subsection no amount shall be considered as deposited in a construction reserve fund unless it is deposited within sixty days after it is received by the taxpayer.

As used in this subsection the term "net proceeds" and the term "net indemnity" mean the sum of (1) the adjusted basis of the vessel and (2) the amount of gain which would be recognized to the taxpayer without regard to this subsection.

(d) Basis for determining gain or loss and for depreciation of new vessels

The basis for determining gain or loss and for depreciation, for the purposes of Federal income or excess profits taxes, of any new vessel constructed, reconstructed, reconditioned, or acquired by the taxpayer, or with respect to which purchase-money indebtedness is liquidated as provided in subsection (g) of this section, in whole or in part out of the construction reserve fund shall be reduced by that portion of the deposits in the fund expended in the construction, reconstruction, reconditioning, acquisition, or liquidation of purchase-money indebtedness of the new vessel which represents gain not recognized for tax purposes under subsection (c) of this section.

(e) Order, proportions, etc., of deposits and withdrawals

For the purposes of this section, (1) if the net proceeds of a sale or the net indemnity in respect of a loss are deposited in more than one deposit, the amount consisting of the gain shall be considered as first deposited; (2) amounts expended, obligated, or otherwise withdrawn shall be applied against the amounts deposited in the fund in the order of deposit; and (3) if any deposit consists in part of gain not recognized under subsection (c) of this section, any expenditure, obligation, or withdrawal applied against such deposit shall be considered to consist of gain in the proportion that the part of the deposit consisting of gain bears to the total amount of the deposit.

(f) Amounts in fund as accumulation of earnings or profits

With respect to any taxable year, amounts on deposit on the last day of such year in a construction reserve fund in accordance with this section and with respect to which all the requirements of subsection (g) of this section have been satisfied, to the extent that such requirements are applicable as of the last day of said taxable year, shall not constitute an accumulation of earnings or profits within the meaning of section 102 of the Internal Revenue Code.

(g) Benefits of section conditioned upon manner and time of expenditure of deposits

The provisions of subsections (c) and (f) of this section shall apply to any deposit in the construction reserve fund only to the extent that such deposit is expended or obligated for expenditure, in accordance with rules and regulations to be prescribed jointly by the Secretary of Transportation and the Secretary of the Treasury—

(1) under a contract for the construction or acquisition of a new vessel or vessels (or in the discretion of the Secretary of Transportation, for a part interest therein), or, with the approval of the Secretary of Transportation, for the reconstruction or reconditioning of a new vessel or vessels, entered into within (i) two years from the date of deposit or the date of any extension thereof which may be granted by the Secretary of Transportation pursuant to the provisions of subsection (h) of this section, in the case of deposits made prior to the date on which these amendatory provisions become effective, or (ii) three years from the date of such deposit in the case of a deposit made after such effective date, only if under such rules and regulations—

(A) within such period not less than 12½ per centum of the construction or contract price of the vessel or vessels is paid or irrevocably committed on account thereof and the plans and specifications therefor are approved by the Secretary of Transportation to the extent by him deemed necessary; and

(B) in case of a vessel or vessels not constructed under the provisions of this subchapter or not purchased from the Secretary of Transportation, (i) said construction is completed, within six months from the date of the construction contract, to the extent of not less than 5 per centum thereof (or in case the contract covers more than one vessel, the construction of the first vessel so contracted for is so completed to the extent of not less than 5 per centum) as estimated by the Secretary of Transportation and certified by him to the Secretary of the Treasury, and (ii) all construction under such contract is completed with reasonable dispatch thereafter;

(2) for the liquidation of existing or subsequently incurred purchase-money indebtedness to persons other than a parent company of, or a company affiliated or associated with, the mortgagor on a new vessel or vessels within (i) two years from the date of deposit or the date of any extension thereof which may be granted by the Secretary of Transportation pursuant to the provisions of subsection (h) of this section, in the case of deposits made prior to the date on which these amendatory provisions become effective, or (ii) three years from the date of such deposit in the case of a deposit made after such effective date.

(h) Authorizations of extensions of time

The Secretary of Transportation is authorized under rules and regulations to be prescribed jointly by the Secretary of the Treasury and the Secretary of Transportation to grant extensions of the period within which the deposits shall be expended or obligated or within which construction shall have progressed to the extent of 5 per centum of completion as provided herein, but such extension shall not be for an aggregate additional period in excess of two years with respect to the expenditure or obligation of such deposits or more than one year with respect to the progress of such construction: *Provided*, That until January 1, 1965, in addition to the extensions hereinbefore permitted, further extensions may be granted ending not later than December 31, 1965.

(i) Taxation of deposits upon failure of conditions

Any such deposited gain or portion thereof which is not so expended or obligated within the period provided, or which is otherwise withdrawn before the expiration of such period, or with respect to which the construction has not progressed to the extent of 5 per centum of completion within the period provided, or with respect to which the Secretary of Transportation finds and certifies to the Secretary of the Treasury that, for causes within the control of the taxpayer, the entire construction is not completed with reasonable dispatch, if otherwise taxable income under the law applicable to the taxable year in which such gain was realized, shall be included in the gross income for such taxable year, except for the purpose of the declared value excess-profits tax and the capital stock tax. If any such deposited gain or portion thereof with respect to a deposit made in any taxable year ending on or before June 30, 1945 is so included in gross income for such taxable year, there shall (in addition to any other deficiency) be assessed, collected, and paid in the same manner as if it were a deficiency, an amount equal to 1.1 per centum of the amount of gain so included, such amount being in lieu of any adjustment with respect to the declared value excess-profits tax for such taxable year.

(j) Assessment and collection of deficiency tax

Notwithstanding any other provision of law, any deficiency in tax for any taxable year resulting from the inclusion of any amount in gross income as provided by subsection (i) of this section, and the amount to be treated as a deficiency under such subsection in lieu of any adjustment with respect to the declared value excess-profits tax, may be assessed or a proceeding in court for the collection thereof may be begun without assessment, at any time: *Provided, however*, That interest on any such deficiency or amount to be treated as a deficiency shall not begin until the date the deposited gain or portion thereof in question is required under subsection (i) of this section to be included in gross income.

(k) Taxable years governed by section

This section shall be applicable to a taxpayer only in respect of sales or indemnifications for losses occurring within a taxable year beginning after December 31, 1939, and only in respect of earnings derived during a taxable year beginning after December 31, 1939.

(*l*) Vessels deemed constructed or acquired by taxpayers owning stock in corporations constructing or acquiring vessels

For the purposes of this section a vessel shall be considered as constructed or acquired by the taxpayer if constructed or acquired by a corporation at a time when the taxpayer owns at least 95 per centum of the total number of shares of each class of stock of the corporation.

(m) Definitions

The terms used in this section shall have the same meaning as in chapter 1 of the Internal Revenue Code.

(n) "Contract for the construction" and "construction contract" defined

The terms "contract for the construction" and "construction contract", as used in this section, shall include, in the case of a taxpayer who constructs a new vessel in a shipyard owned by such taxpayer, an agreement between such taxpayer and the Secretary of Transportation with respect to such construction and containing provisions deemed necessary or advisable by the Secretary of Transportation to carry out the purposes and policy of this section.

(o) "Reconstruction and reconditioning" defined

The terms "reconstruction and reconditioning", as used in this section, shall include the reconstruction, reconditioning, or modernization of a vessel for exclusive use on the Great Lakes, including the Saint Lawrence River and Gulf, if the Secretary of Transportation determines that the objectives of this chapter will be promoted by such reconstruction, reconditioning, or modernization, and, notwithstanding any other provisions of law, such vessel shall be deemed to be a "new vessel" within the meaning of this section for such reconstruction, reconditioning, or modernization.

SUBCHAPTER VI—OPERATING-DIFFERENTIAL SUBSIDY

SUBCHAPTER REFERRED TO IN OTHER SECTIONS

This subchapter is referred to in sections 1131, 1152, 1191, 1204, 1211, 1222, 1223, 1226, 1227, 1228, 1244 of this Appendix.

§ 1171. Subsidy authorized for operation of vessels in foreign trade or in off-season cruises

(a) Application for subsidy; conditions precedent to granting

The Secretary of Transportation is authorized and directed to consider the application of any citizen of the United States for financial aid in the operation of a vessel or vessels, which are to be used in an essential service in the foreign commerce of the United States or in such service and in cruises authorized under section 1183 of this Appendix. In this subchapter VI the term "essential service" means the operation of a vessel on a service, route, or line described in section 1121(a) of this Appendix or in bulk cargo carrying service described in section 1121(b) of this Appendix. No such application shall be approved by the Secretary of Transportation unless he determines that (1) the operation of such vessel or vessels in an essential service is required to meet foreign-flag competition and to promote the foreign commerce of the United States except to the extent such vessels are to be operated on cruises authorized under section 1183 of this Appendix, and that such vessel or vessels were built in the United States, or have been documented under the laws of the United States not later than February 1, 1928, or actually ordered and under construction for the account of citizens of the United States prior to such date; (2) the applicant owns, or leases or can and will build or purchase, or lease, a vessel or vessels of the size, type, speed, and number, and with the proper equipment required to enable him to operate in an essential service, in such manner as may be necessary to meet competitive conditions, and to promote foreign commerce; (3) the applicant possesses the ability, experience, financial resources, and other qualifications necessary to enable him to conduct the proposed operations of the vessel or vessels as to meet competitive conditions and promote foreign commerce; (4) the granting of the aid applied for is necessary to place the proposed operations of the vessel or vessels on a parity with those of foreign competitors, and is reasonably calculated to carry out effectively the purposes and policy of this chapter. To the extent the application covers cruises, as authorized under section 1183 of this Appendix, the Secretary of Transportation may make the portion of this last determination relating to parity on the basis that any foreign flag cruise from the United States competes with any American flag cruise from the United States.

(b) Statements as to financial interests to accompany application; penalty for false statements

Every application for an operating-differential subsidy under the provisions of this subchapter shall be accompanied by statements disclosing the names of all persons having any pecuniary interest, direct or indirect, in such application, or in the ownership or use of the vessel or vessels, routes, or lines covered thereby, and the nature and extent of any such interest, together with such financial and other statements as may be required by the Secretary of Transportation. All such statements shall be under oath or affirmation and in such form as the Secretary of Transportation shall prescribe. Any person who, in an application for financial aid under this subchapter or in any statement required to be filed therewith, willfully makes any untrue statement of a material fact, shall be guilty of a misdemeanor.

1970—Subsec. (a). Pub. L. 91-603 included the leasing of vessels in cl. (2).

Pub. L. 91-469 inserted definition of "essential service", and substituted "an essential service" for "such service, route, or line" in cl. (1) and "in an essential service" for "and maintain the service, route, or line" in cl. (2); substituted "Secretary of Commerce" for "Commission" in two places; and substituted "he" for "it" in third sentence preceding "determines that", respectively.

1961—Subsec. (a). Pub. L. 87-45 required the Federal Maritime Board to consider applications for financial aid in the operation of vessels in cruises under section 1183 of this Appendix, and permitted the Board, to the extent the application covers such cruises, to make the portion of the determination relating to parity on the basis that any foreign flag cruise from the United States competes with any American flag cruise from the United States.

TRANSFER OF FUNCTIONS

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 1152 of this Appendix.

§ 1172. Determination of necessity of subsidy to meet competition

Except with respect to cruises authorized under section 1183 of this Appendix, no contract for an operating-differential subsidy shall be made by the Secretary of Transportation for the operation of a vessel or vessels to meet foreign competition, except direct foreign-flag competition, until and unless the Secretary of Transportation, after a full and complete investigation and hearing, shall determine that an operating-differential subsidy is necessary to meet competition of foreign-flag ships.

(June 29, 1936, ch. 858, title VI, § 602, 49 Stat. 2002; June 23, 1938, ch. 600, § 40(b), 52 Stat. 964; May 27, 1961, Pub. L. 87-45, § 3, 75 Stat. 91; Oct. 21, 1970, Pub. L. 91-469, § 35(a), 84 Stat. 1035; Aug. 6, 1981, Pub. L. 97-31, § 12(94), 95 Stat. 161.)

AMENDMENTS

1981—Pub. L. 97-31 substituted "Secretary of Transportation" for "Secretary of Commerce" wherever appearing.

1970—Pub. L. 91-469 substituted "Secretary of Commerce" for "Commission" in two places.

1961—Pub. L. 87-45 excepted cruises authorized under section 1183 of this Appendix.

1938—Act June 23, 1938, substituted "operating-differential subsidy" for "operating subsidy".

§ 1173. Contracts for payment of subsidy

(a) Authorization of contracts

If the Secretary of Transportation approves the application, he may enter into a contract with the applicant for the payment of an operating-differential subsidy determined in accordance with the provisions of subsection (b) of this section, for the operation of such vessel or vessels in an essential service and in cruises authorized under section 1183 of this Appendix for a period not exceeding twenty years, and subject to such reasonable terms and conditions, consistent with this chapter, as the Secretary of Transportation shall require to effectuate the purposes and policy of this chapter, including a performance bond with approved sureties, if such bond is required by the Secretary of Transportation.

(b) Amount of subsidy

Such contract shall provide, except as the parties should agree upon a lesser amount, that the amount of the operating-differential subsidy for the operation of vessels in an essential service shall equal the excess of the subsidizable wage costs of the United States officers and crews, the fair and reasonable cost of insurance, subsistence of officers and crews on passenger vessels, as defined in section 1183 of this Appendix, maintenance, and repairs not compensated by insurance, incurred in the operation under United States registry of the vessel or vessels covered by the contract, over the estimated fair and reasonable cost of the same items of expense (after deducting therefrom any estimated increase in such items necessitated by features incorporated pursuant to the provisions of section 1151(b) of this Appendix) if such vessel or vessels were operated under the registry of a foreign country whose vessels are substantial competitors of the vessel or vessels covered by the contract: *Provided, however,* That the Secretary of Transportation may, with respect to any vessel in an essential bulk cargo carrying service as described in section 1121(b) of this Appendix, pay, in lieu of the operating-differential subsidy provided by this subsection (b), such sums as he shall determine to be necessary to make the cost of operating such vessel competitive with the cost of operating similar vessels under the registry of a foreign country. For any period during which a vessel cruises as authorized by section 1183 of this Appendix, operating-differential subsidy shall be computed as though the vessel were operating on the essential service to which the vessel is assigned: *Provided, however,* That if the cruise vessel calls at a port or ports outside of its assigned service, but which is served with passenger vessels (as defined in section 1183 of this Appendix) by another subsidized operator at an operating-differential subsidy rate for wages lower than the cruise vessel has on its assigned essential service, the operating-differential subsidy rates for each of the subsidizable items for each day (a fraction of a day to count as a day) that the vessel stops at such port shall be at the respective rates applicable to the subsidized operator regularly serving the area.

(c) "Collective bargaining costs", "base period costs", "base period", and "subsidizable wage costs of United States officers and crews" defined; determination of collective bargaining costs and establishment of new base periods; wage change index

(1) When used in this section—

(A) The term "collective bargaining costs" means the annual cost, calculated on the basis of the per diem rate of expense as of any date, of all items of expense required of the applicant through collective bargaining or other agreement, covering the employ of United States officers and crew of a vessel, including payments required by law to assure old-age pensions, unemployment benefits, or similar benefits and taxes or other governmental assessments on crew payrolls, but excluding subsistence of officers and crews on vessels other than passenger vessels as defined in section 1183 of this Appendix and costs relating to:

(i) the officers or members of the crew that the Secretary of Transportation has found, prior to the award of a contract for the construction or reconstruction of a vessel, to be unnecessary for the efficient and economical operation of such vessel: *Provided,* That the Secretary of Transportation shall afford representatives of the collective-bargaining unit or units responsible for the manning of the vessel an opportunity to comment on such finding prior to the effective date of such finding: *And provided further,* That in determining whether officers or members of the crew are necessary for the efficient and economical operation of such vessel, the Secretary of Transportation shall give due consideration to, but shall not be bound by, wage and manning scales and working conditions required by a bona fide collective-bargaining agreement, or

(ii) those officers or members of the crew that the Secretary of Transportation has found, prior to ninety days following October 21, 1970, to be unnecessary for the efficient and economical operation of the vessel.

(B) The term "base period costs" means for the base period beginning July 1, 1970, and ending June 30, 1971, the collective-bargaining costs as of January 1, 1971, less all other items of cost that have been disallowed by the Secretary of Transportation prior to ninety days following October 21, 1970, and not already excluded from collective-bargaining costs under subparagraph (A)(i) or (A)(ii) of this subsection. In any subsequent base period the term "base period costs" means the average of the subsidizable wage cost of United States officers and crews for the preceding annual period ending June 30 (calculated without regard to the limitation of the last sentence of paragraph (D) of this subdivision but increased or decreased by the increase or decreased in the index described in subdivision (3) of this subsection from January 1 of such annual period to January 1 of the base period), and the collective-bargaining costs as of January 1 of the base period: *Provided*, That in no event shall the base period cost be such that the difference between the base period cost and the collective-bargaining costs as of January 1 of any base period subsequent to the first base period exceeds five-fourths of 1 per centum of the collective-bargaining costs as of such January 1 multiplied by the number of years that have elapsed since the most recent base period.

(C) The term "base period" means any annual period beginning July 1, and ending June 30 with respect to which a base period cost is established.

(D) The term "subsidizable wage costs of United States officers and crews" in any period other than a base period means the most recent base period costs increased or decreased by the increase or decrease from January 1 of such base period to January 1 of such period in the index described in subdivision (3) hereof, and with respect to a base period means the base period cost. The subsidizable wage costs of United States officers and crews in any period other than a base period shall not be less than 90 per centum of the collective-bargaining costs as of January 1 of such period nor greater than 110 per centum of such collective-bargaining costs.

(2) The Secretary of Transportation shall determine the collective-bargaining costs on ships in subsidized operation as of January 1, 1971, and as of each January 1 thereafter, and shall as of intervals of not less than two years nor more than four years, establish a new base period cost, except that the Secretary shall not establish a new base period unless he announces his intention to do so prior to the December 31 that would be included in the new base period.

(3) The Bureau of Labor Statistics shall compile the index referred to in subdivision (1). Such index shall consist of the average annual change in wages and benefits placed into effect for employees covered by collective-bargaining agreements with equal weight to be given to changes affecting employees in the transportation industry (excluding the offshore maritime industry) and to changes affecting employees in private nonagricultural industries other than transportation. Such index shall be based on the materials regularly used by the Bureau of Labor Statistics in compiling its regularly published statistical series on wage and benefit changes arrived at through collective bargaining. Such materials shall remain confidential and not be subject to disclosure.

(d) Foreign wage computation; foreign manning

Each foreign wage cost computation shall be made after an opportunity is given to the contractor to submit in writing and in timely fashion all relevant data within his possession. In making the computation, the Secretary shall consider all relevant matter so presented and all foreign wage cost data collected at his request or on his behalf. Such foreign cost data shall be made available to an interested contractor, unless the Secretary shall find that disclosure of the data will prevent him from obtaining such data in the future. In determining foreign manning for purposes of this section, the foreign manning determined for any ship type with respect to any base period shall not be redetermined until the beginning of a new base period.

(e) Monthly payment of wage subsidy; procedures for calculation and payment of subsidy on certain expenses

The wage subsidy shall be payable monthly for the voyages completed during the month, upon the contractor's certification that the subsidized vessels were in authorized service during the month. The Secretary of Transportation shall prescribe procedures for the calculation and payment of subsidy on items of expense which are included in "collective-bargaining costs" but are not included in the daily rate because they are unpredictably timed.

(f) Monthly percentage payment of other than wage subsidy; security for refund of overpayments; payment of remainder after audit of voyage accounts

Ninety percent of the amount of the insurance and maintenance and repair and subsistence of officers and crews subsidy shall be payable monthly for the voyages completed during the month on the basis of the subsidy estimated to have accrued with respect to such voyages. Any such payment shall be made only after there has been furnished to the Secretary of Transportation such security as he deems to be reasonable and necessary to assure refund of any overpayment. The contractor and the Secretary of Transportation shall audit the voyage accounts as soon as practicable after such payment. The remaining 10 percent of such subsidy shall be payable after such audit.

"(a) The amendments made by this Act [see Short Title of 1970 Amendment note set out under section 1245 of this Appendix] shall not affect any contract with the Secretary of Commerce or his delegates that is in effect on the date of enactment of this Act [Oct. 21, 1970]. At the request of the other party to such operating-differential subsidy contract, the Secretary of Commerce shall amend such contract so as to be in accordance with all of the amendments made by this Act. No amendment made by this Act shall be incorporated in such contract unless all such amendments are incorporated in such contract, except that if the other party elects to continue under the "old fund" as provided in section 607 as amended by section 21 of this Act [section 1177 of this Appendix], such amendment need not be incorporated in such contract. Until such contract is amended or if such contract is not amended, it shall be administered in accordance with the provisions of the Merchant Marine Act, 1936 [this chapter] as they existed immediately prior to enactment of this Act. Nothing in section 16 of this Act amending section 603 of the Merchant Marine Act, 1936 [subsec. (b) of this section] or in the contracts made thereunder, shall be deemed to affect or to change existing law or contracts with respect to the proceedings now pending before the Secretary of Commerce relating to the payment of subsidy in respect of cargoes covered by section 901(b)(1) of the Merchant Marine Act, 1936 [section 1241(b)(1) of this Appendix], section 616(a) of Title 15, United States Code, or section 2631 of Title 10, United States Code.

"(b) If any operating-differential subsidy contract in existence on the date of enactment of this Act [Oct. 21, 1970] is amended by including all of the amendments made by this Act or all of the amendments made by this Act other than those made by section 21 [amending section 1177 of this Appendix], the operator may elect to terminate his recapture period as of the date of such contract amendment and have his recapture computed on the basis of the shortened period, or he may elect to continue his recapture period until the end of its ten-year term and continue his recapture obligations as provided by the Merchant Marine Act, 1936, prior to the enactment of this Act [see Short Title of 1970 Amendment note set out under section 1245 of this Appendix] until the end of such ten-year period. The amendments in either event shall provide that, with respect to seafaring personnel, in determining the rights and obligations of the contractor under such contract, the limitation of section 805(c) of the Merchant Marine Act, 1936 [section 1223(c) of this Appendix], as it existed immediately before the enactment of this Act [Oct. 21, 1970] shall not apply."

§ 1174. Additional subsidy; when authorized

If in the case of any particular foreign-trade route the Secretary of Transportation shall find after consultation with the Secretary of State, that the subsidy provided for in this subchapter is in any respect inadequate to offset the effect of governmental aid paid to foreign competitors, he may grant such additional subsidy as he determines to be necessary for that purpose.

(a) Vessels engaged in coastwise or intercoastal trade; vessels on inland waterways

No operating-differential subsidy shall be paid for the operation of any vessel on a voyage on which it engages in coastwise or intercoastal trade: *Provided, however,* That such subsidy may be paid on a round-the-world voyage or a round voyage from the west coast of the United States to a European port or ports or a round voyage from the Atlantic coast to the Orient which includes intercoastal ports of the United States or a voyage in foreign trade on which the vessel may stop at the State of Hawaii, or an island possession or island territory of the United States, and if the subsidized vessel earns any gross revenue on the carriage of mail, passengers, or cargo by reason of such coastal or intercoastal trade the subsidy payment for the entire voyage shall be reduced by an amount which bears the same ratio to the subsidy otherwise payable as such gross revenue bears to the gross revenue derived from the entire voyage. No vessel operating on the inland waterways of the United States shall be considered for the purposes of this chapter to be operating in foreign trade.

(b) Vessels more than 25 years old

No operating-differential subsidy shall be paid for the operation of a vessel that is more than twenty-five years of age unless the Secretary of Transportation finds that it is to the public interest to grant such financial aid for the operation of such vessel and enters a formal order thereon.

(c) Vessels to be operated in an essential service served by citizens of the United States

No contract shall be made under this subchapter with respect to a vessel to be operated in an essential service served by citizens of the United States which would be in addition to the existing service, or services, unless the Secretary of Transportation shall determine after proper hearing of all parties that the service already provided by vessels of United States registry is inadequate, and that in the accomplishment of the purposes and policy of this chapter additional vessels should be operated thereon; and no contract shall be made with respect to a vessel operated or to be operated in an essential service served by two or more citizens of the United States with vessels of United States registry, if the Secretary of Transportation shall determine the effect of such a contract would be to give undue advantage or be unduly prejudicial, as between citizens of the United States, in the operation of vessels in such essential service unless following public hearing, due notice of which shall be given to each operator serving such essential service, the Secretary of Transportation shall find that it is necessary to enter into such contract in order to provide adequate service by vessels of United States registry. The Secretary of Transportation in determining for the purposes of this section whether services are competitive, shall take into consideration the type, size, and speed of the vessels employed, whether passenger or cargo, or combination passenger and cargo, vessels, the ports or ranges between which they run, the character of cargo carried, and such other facts as he may deem proper.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 1177 of this Appendix.

§ 1177. Capital construction fund

(a) Agreement rules; persons eligible; replacement, additional, or reconstructed vessels for prescribed trade and fishery operations; amount of deposits, annual limitation; conditions and requirements for deposits and withdrawals

Any citizen of the United States owning or leasing one or more eligible vessels (as defined in subsection (k)(1) of this section) may enter into an agreement with the Secretary under, and as provided in, this section to establish a capital construction fund (hereinafter in this section referred to as the "fund") with respect to any or all of such vessels. Any agreement entered into under this section shall be for the purpose of providing replacement vessels, additional vessels, or reconstructed vessels, built in the United States and documented under the laws of the United States for operation in the United States foreign, Great Lakes, or noncontiguous domestic trade or in the fisheries of the United States and shall provide for the deposit in the fund of the amounts agreed upon as necessary or appropriate to provide for qualified withdrawals under subsection (f) of this section. The deposits in the fund, and all withdrawals from the fund, whether qualified or nonqualified, shall be subject to such conditions and requirements as the Secretary may by regulations prescribe or are set forth in such agreement; except that the Secretary may not require any person to deposit in the fund for any taxable year more than 50 percent of that portion of such person's taxable income for such year (computed in the manner provided in subsection (b)(1)(A) of this section) which is attributable to the operation of the agreement vessels.

(b) Ceiling on deposits; lessees; "agreement vessel" defined

(1) The amount deposited under subsection (a) of this section in the fund for any taxable year shall not exceed the sum of:

(A) that portion of the taxable income of the owner or lessee for such year (computed as provided in chapter 1 of the Internal Revenue Code of 1954 [26 U.S.C. 1 et seq.] but without regard to the carryback of any net operating loss or net capital loss and without regard to this section) which is attributable to the operation of the agreement vessels in the foreign or domestic commerce of the United States or in the fisheries of the United States,

(B) the amount allowable as a deduction under section 167 of the Internal Revenue Code of 1954 [26 U.S.C. 167] for such year with respect to the agreement vessels,

(C) if the transaction is not taken into account for purposes of subparagraph (A), the net proceeds (as defined in joint regulations) from (i) the sale or other disposition of any agreement vessel, or (ii) insurance or indemnity attributable to any agreement vessel, and

(D) the receipts from the investment or reinvestment of amounts held in such fund.

(2) In the case of a lessee, the maximum amount which may be deposited with respect to an agreement vessel by reason of paragraph (1)(B) for any period shall be reduced by any amount which, under an agreement entered into under this section, the owner is required or permitted to deposit for such period with respect to such vessel by reason of paragraph (1)(B).

(3) For purposes of paragraph (1), the term "agreement vessel" includes barges and containers which are part of the complement of such vessel and which are provided for in the agreement.

(c) Investment requirements; depositories; fiduciary requirements; interest-bearing securities; stock: percentage for domestic issues, listing and registration, prudent acquisitions, value and percentage equilibrium, and treatment of preferred issues

Amounts in any fund established under this section shall be kept in the depository or depositories specified in the agreement and shall be subject to such trustee and other fiduciary requirements as may be specified by the Secretary. They may be invested only in interest-bearing securities approved by the Secretary; except that, if the Secretary consents thereto, an agreed percentage (not in excess of 60 percent) of the assets of the fund may be invested in the stock of domestic corporations. Such stock must be currently fully listed and registered on an exchange registered with the Securities and Exchange Commission as a national securities exchange, and must be stock which would be acquired by prudent men of discretion and intelligence in such matters who are seeking a reasonable income and the preservation of their capital. If at any time the fair market value of the stock in the fund is more than the agreed percentage of the assets in the fund, any subsequent investment of amounts deposited in the fund, and any subsequent withdrawal from the fund, shall be made in such a way as to tend to restore the fund to a situation in which the fair market value of the stock does not exceed such agreed percentage. For purposes of this subsection, if the common stock of a corporation meets the requirements of this subsection and if the preferred stock of such corporation would meet such requirements but for the fact that it cannot be listed and registered as required because it is nonvoting stock, such preferred stock shall be treated as meeting the requirements of this subsection.

(d) Nontaxability of deposits; eligible deposits

(1) For purposes of the Internal Revenue Code of 1954—

(A) taxable income (determined without regard to this section) for the taxable year shall be reduced by an amount equal to the amount deposited for the taxable year out of amounts referred to in subsection (b)(1)(A) of this section,

(B) gain from a transaction referred to in subsection (b)(1)(C) of this section, shall not be taken into account if an amount equal to the net proceeds (as defined in joint regulations) from such transaction is deposited in the fund,

(C) the earnings (including gains and losses) from the investment and reinvestment of amounts held in the fund shall not be taken into account,

(D) the earnings and profits of any corporation (within the meaning of section 316 of such Code [26 U.S.C. 316]) shall be determined without regard to this section, and

(E) in applying the tax imposed by section 531 of such Code [26 U.S.C. 531] (relating to the accumulated earnings tax), amounts while held in the fund shall not be taken into account.

(2) Paragraph (1) shall apply with respect to any amount only if such amount is deposited in the fund pursuant to the agreement and not later than the time provided in joint regulations.

(e) Accounts within fund: capital account, capital gain account, and ordinary income account; limitation on capital losses

For purposes of this section—

(1) Within the fund established pursuant to this section three accounts shall be maintained:

(C) the ordinary income account.

(2) The capital account shall consist of—

(C) 85 percent of any dividend received by the fund with respect to which the person maintaining the fund would (but for subsection (d)(1)(C) of this section) be allowed a deduction under section 243 of the Internal Revenue Code of 1954 [26 U.S.C. 243], and

(D) interest income exempt from taxation under section 103 of such Code [26 U.S.C. 103].

(3) The capital gain account shall consist of—

(A) amounts representing capital gains on assets held for more than 6 months and referred to in subsection (b)(1)(C) or (b)(1)(D) of this section reduced by

(B) amounts representing capital losses on assets held in the fund for more than 6 months.

(4) The ordinary income account shall consist of—

(A) amounts referred to in subsection (b)(1)(A) of this section,

(B)(i) amounts representing capital gains on assets held for 6 months or less and referred to in subsection (b)(1)(C) or (b)(1)(D) of this section, reduced by—

(ii) amounts representing capital losses on assets held in the fund for 6 months or less,

(C) interest (not including any tax-exempt interest referred to in paragraph (2)(D)) and other ordinary income (not including any dividend referred to in subparagraph (E)) received on assets held in the fund,

(D) ordinary income from a transaction described in subsection (b)(1)(C) of this section, and

(E) 15 percent of any dividend referred to in paragraph (2)(C).

(5) Except on termination of a fund, capital losses referred to in paragraph (3)(B) or in paragraph (4)(B)(ii) shall be allowed only as an offset to gains referred to in paragraph (3)(A) or (4)(B)(i), respectively.

(f) Purposes of qualified withdrawals; nonqualified withdrawal treatment for nonfulfillment of substantial obligations

(1) A qualified withdrawal from the fund is one made in accordance with the terms of the agreement but only if it is for:

(A) the acquisition, construction, or reconstruction of a qualified vessel,

(B) the acquisition, construction, or reconstruction of barges and containers which are part of the complement of a qualified vessel, or

(C) the payment of the principal on indebtedness incurred in connection with the acquisition, construction or reconstruction of a qualified vessel or a barge or container which is part of the complement of a qualified vessel.

Except to the extent provided in regulations prescribed by the Secretary, subparagraph (B), and so much of subparagraph (C) as relates only to barges and containers, shall apply only with respect to barges and containers constructed in the United States.

(2) Under joint regulations, if the Secretary determines that any substantial obligation under any agreement is not being fulfilled, he may, after notice and opportunity for hearing to the person maintaining the fund, treat the entire fund or any portion thereof as an amount withdrawn from the fund in a nonqualified withdrawal.

(g) Tax treatment of qualified withdrawals; basis reduction

(1) Any qualified withdrawal from a fund shall be treated—

(A) first as made out of the capital account,

(B) second as made out of the capital gain account, and

(C) third as made out of the ordinary income account.

(2) If any portion of a qualified withdrawal for a vessel, barge, or container is made out of the ordinary income account, the basis of such vessel, barge, or container shall be reduced by an amount equal to such portion.

(3) If any portion of a qualified withdrawal for a vessel, barge, or container is made out of the capital gain account, the basis of such vessel, barge, or container shall be reduced by an amount equal to—

(A) Five-eighths of such portion, in the case of a corporation (other than an electing small business corporation, as defined in section 1371 of the Internal Revenue Code of 1954 [26 U.S.C. 1371]), or

(B) One-half of such portion, in the case of any other person.

(4) If any portion of a qualified withdrawal to pay the principal on any indebtedness is made out of the ordinary income account or the capital gain account, then an amount equal to the aggregate reduction which would be required by paragraphs (2) and (3) if this were a qualified withdrawal for a purpose described in such paragraphs shall be applied,in the order provided in joint regulations, to reduce the basis of vessels, barges, and containers owned by the person maintaining the fund. Any amount of a withdrawal remaining after the application of the preceding sentence shall be treated as a nonqualified withdrawal.

(5) If any property the basis of which was reduced under paragraph (2), (3), or (4) is disposed of, any gain realized on such disposition, to the extent it does not exceed the aggregate reduction in the basis of such property under such paragraphs, shall be treated as an amount referred to in subsection (h)(3)(A) of this section which was withdrawn on the date of such disposition. Subject to such conditions and requirements as may be provided in joint regulations, the preceding sentence shall not apply to a disposition where there is a redeposit in an amount determined under joint regulations which will, insofar as practicable, restore the fund to the position it was in before the withdrawal.

(h) Tax treatment of nonqualified withdrawals; FIFO and LIFO bases; interest rate

(1) Except as provided in subsection (i) of this section, any withdrawal from a fund which is not a qualified withdrawal shall be treated as a nonqualified withdrawal.

(2) Any nonqualified withdrawal from a fund shall be treated—

(A) first as made out of the ordinary income account,

(B) second as made out of the capital gain account, and

(C) third as made out of the capital account.

For purposes of this section, items withdrawn from any account shall be treated as withdrawn on a first-in-first-out basis; except that (i) any nonqualified withdrawal for research, development, and design expenses incident to new and advanced ship design, machinery and equipment, and (ii) any amount treated as a nonqualified withdrawal under the second sentence of subsection (g)(4) of this section, shall be treated as withdrawn on a last-in-first-out basis.

(3) For purposes of the Internal Revenue Code of 1954—

(A) any amount referred to in paragraph (2)(A) shall be included in income as an item of ordinary income for the taxable year in which the withdrawal is made,

(B) any amount referred to in paragraph (2)(B) shall be included in income for the taxable year in which the withdrawal is made as an item of gain realized during such year from the disposition of an asset held for more than 6 months, and

(C) for the period on or before the last date prescribed for payment of tax for the taxable year in which this withdrawal is made—

(i) no interest shall be payable under section 6601 of such Code [26 U.S.C. 6601] and no addition to the tax shall be payable under section 6651 of such Code [26 U.S.C. 6651],

This section is referred to in section 1152 of this Appendix.

§ 1181. Transfer of vessels to foreign registry on default of United States

Any contractor desiring to transfer any such vessel to foreign registry upon such default or cancelation shall file an application in writing with the Secretary of Transportation setting forth its contentions with respect to the lack of just cause or lawful grounds for such default or cancelation. The Secretary of Transportation shall afford the contractor an opportunity for a hearing within twenty days after such contractor files written application therefor, and after the testimony, if any, in such hearing has been reduced to writing and filed with the Secretary of Transportation, he shall, within a reasonable time, grant or deny the application by order.

If any such application is denied, the contractor may obtain a review of the order of denial in the United States Court of Appeals for the District of Columbia, by filing in such court, within twenty days after the entry of such order, a written petition praying that the order of the Secretary of Transportation be set aside. A copy of such petition shall be forthwith transmitted by the clerk of the court to the Secretary of Transportation or any officer designated by him for that purpose, and thereupon the Secretary of Transportation shall file in the court the record upon which the order complained of was entered, as provided in section 2112 of title 28. § 1183. Off-season cruises by passenger vessels

(a) "Passenger vessel" defined

In this section, "passenger vessel" means a vessel which (1) is of not less than ten thousand gross tons, and (2) has accommodations for not less than one hundred passengers.

(b) Authorization for payment of subsidy

If the Secretary of Transportation finds that the operation of any passenger vessel with respect to which a contract for the payment of an operating-differential subsidy has been entered into under section 1173 of this Appendix effective before January 2, 1960, is not required for all of each year, in order to furnish adequate service on the service, route, or line covered by such contract, he may amend such contract to agree to pay an operating-differential subsidy for operation of the vessel (1) on such service, route, or line for some part or no part of each year, and (2) on cruises for all or part of each year if such specific cruise is approved by the Secretary of Transportation under subsection (e) of this section: *Provided, however*, That no such vessel may cruise for more than seven months of each year to ports which are regularly served by another United States-flag passenger vessel pursuant to an operating-differential subsidy contract.

(c) Authorization for payment of subsidy to passenger vessels providing domestic service

The Secretary of Transportation may authorize passenger vessels under operating-differential subsidy contracts to provide domestic service between specified ports while the vessels are on voyages in an essential service in the foreign commerce of the United States without reduction of operating-differential subsidy and the partial payback of construction-differential subsidy for operating in the domestic trades, if he finds that such domestic service will not result in a substantial deviation from the service, route, or line for which operating-differential subsidy is paid and will not adversely affect service on such service, route, or line.

(d) Conditions for cruises or domestic service while on voyages in an essential service in foreign commerce

When a vessel is being operated on cruises or has been authorized under this section to provide domestic passenger services while on voyages in an essential service in foreign commerce of the United States—

(1) except as provided in subdivision (4) of this subsection, it shall carry no mail unless required by law, or cargo except passengers' luggage, except between those ports between which it may carry mail and cargo on its regular service assigned by contract;

(2) it may not carry one-way passengers between those ports served by another United States carrier on its regular service assigned by contract, without the consent of such carrier, except between those ports between which it may carry one-way passengers on its own regular service assigned by contract;

(3) it shall stop at other domestic ports only for the same time and the same purpose as is permitted with respect to a foreign-flag vessel which is carrying passengers who embarked at a domestic port, except that a cruise may end at a different port or coast from that where it began and may embark or disembark passengers at other domestic ports, either when not involving transportation in the domestic offshore trade in competition with a United States-flag passenger vessel offering berth service therein, or, if involving such transportation, with the consent of such carrier: *Provided, however*, That nothing herein shall be construed to repeal or modify section 1223(a) of this Appendix.

(4) Any other provisions of this chapter or of the Shipping Act, 1916 [46 App. U.S.C. 801 et seq.], to the contrary notwithstanding, with the approval of the Secretary of Transportation, it may carry cargo and mail between ports to the extent such carriage is not in direct competition with a carrier offering United States-flag berth service between those ports, or, if such carriage is in direct competition with one or more carriers offering United States-flag berth service between such ports, with the consent of the next scheduled United States-flag carrier, which consent shall not be unreasonably withheld in the judgment of the Maritime Administrator.

Section 1175(c) of this Appendix shall not apply to cruises authorized under this section. Notwithstanding the applicable provisions of sections 1175(a) and 1156 of this Appendix requiring the reduction of operating differential subsidy and the partial payback of construction differential subsidy for operating in the domestic trades, such reduction of operating subsidy and partial payback of construction subsidy under sections 1175(a) and 1156, respectively, of this Appendix, shall not apply to cruises or domestic services authorized under this section.

(e) Application for approval of cruise; notice to other American flag operators

Upon the application of any operator for approval of a specific cruise, the Secretary of

Transportation, after notice to all other American flag operators who may be affected and after affording all such operators an opportunity to submit written data, views or arguments, with or without opportunity to present the same orally in any manner, and after consideration of all relevant matter presented, shall approve the proposed cruise, if he determines that the proposed cruise will not substantially adversely affect an existing operator's service performed with passenger vessels of United States registry. Such approval shall not be given more than two years in advance of the beginning of the cruise.

If the Secretary of Transportation shall find that any trade route (determined by the Secretary of Transportation to be an essential trade route as provided in section 1121 of this Appendix) cannot be successfully developed and maintained and the Secretary of Transportation's replacement program cannot be achieved under private operation of such trade route by a citizen of the United States with vessels registered under the laws thereof, without further Government aid in addition to the financial aids authorized under subchapters V and VI of this chapter, the Secretary of Transportation is authorized to have constructed, in private shipyards or in navy yards, the vessel or vessels of the types deemed necessary for such trade route, and to demise such new vessel or vessels, or bare-boat charter to the American-flag operator established on such trade route, without advertisement or competition, upon an annual charter hire of not less than 4 per centum of the price (herein referred to as the "foreign cost") at which such vessel or vessels would be sold if constructed under subchapter V of this chapter plus an amount equal to (i) the sum of a percentage of the depreciated foreign cost computed annually upon the basis of a twenty-five year life of the vessel determined by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the term of the charter, adjusted to the nearest one-eighth of 1 per centum, plus (ii) an allowance adequate in the judgment of the Secretary of Transportation to cover administrative costs. Such charter may contain an option to the charterer to purchase such vessel or vessels from the Secretary of Transportation within five years after delivery thereof under the charter, upon the same terms and conditions as are provided in subchapter V of this chapter for the purchase of new vessels from the Secretary of Transportation, except that (a) the purchase price shall be the foreign cost less depreciation to the date of purchase based upon a twenty-five year life; (b) the required cash payment payable at the time of such purchase shall be 25 per centum of the purchase price as so determined; (c) the charter may provide that all or any part of the charter hire paid in excess of the minimum charter hire provided for in this section may be credited against the cash payment payable at the time of such purchase; (d) the balance of the purchase price shall be paid within the years remaining of the twenty-five years after the date of delivery of the vessel under the charter and in approximately equal annual installments, except that the first of said installments, which shall be payable upon the next ensuing anniversary date of such delivery under the charter, shall be a proportionate part of the annual installment, interest to be payable upon the unpaid balances from the date of purchase, at a rate not less than (i) a rate determined by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the average maturities of such loans, adjusted to the nearest one-eighth of 1 per centum, plus (ii) an allowance adequate in the judgment of the Secretary of Transportation to cover administrative costs.

Such charter shall provide for operation of the vessel exclusively in foreign trade, or on a round-the-world voyage, or on a round voyage from the west coast of the United States to a European port or ports which includes intercoastal ports of the United States, or a round voyage from the Atlantic coast of the United States to the Orient which includes intercoastal ports of the United States, or on a voyage in foreign trade on which the vessel may stop at the State of Hawaii, or an island possession or island Territory of the United States, and if the vessel is operated in the domestic trade on any of the above-enumerated services the charterer will pay annually to the Secretary of Transportation that proportion of one-twenty-fifth of the difference between the domestic and foreign cost of such vessel as the gross revenue derived from the domestic trade bears to the gross revenue derived from the entire voyages completed during the preceding year.

(a) Requirement that officers and employees travel on American ships

Any officer or employee of the United States traveling on official business overseas or to or from any of the possessions of the United States shall travel and transport his personal effects on ships registered under the laws of the United States where such ships are available unless the necessity of his mission requires the use of a ship under a foreign flag: *Provided*, That the Comptroller General of the United States shall not credit any allowance for travel or shipping expenses incurred on a foreign ship in the absence of satisfactory proof of the necessity therefor.

(b) Cargoes procured, furnished or financed by United States; waiver in emergencies; exceptions; definition

(1) Whenever the United States shall procure, contract for, or otherwise obtain for its own account, or shall furnish to or for the account of any foreign nation without provision for reimbursement, any equipment, materials, or commodities, within or without the United States, or shall advance funds or credits or guarantee the convertibility of foreign currencies in connection with the furnishing of such equipment, materials, or commodities, the appropriate agency or agencies shall take such steps as may be necessary and practicable to assure that at least 50 per centum of the gross tonnage of such equipment, materials or commodities (computed separately for dry bulk carriers, dry cargo liners, and tankers), which may be transported on ocean vessels shall be transported on privately owned United States-flag commercial vessels, to the extent such vessels are available at fair and reasonable rates for United States-flag commercial vessels, in such manner as will insure a fair and reasonable participation of United States-flag commercial vessels in such cargoes by geographic areas: *Provided*, That the provisions of this subsection may be waived whenever the Congress by concurrent resolution or otherwise, or the President of the United States or the Secretary of Defense declares that an emergency exists justifying a temporary waiver of the provisions of this paragraph and so notifies the appropriate agency or agencies: *And provided further*, That the provisions of this subsection shall not apply to cargoes carried in the vessels of the Panama Canal Company. Nothing herein shall repeal or otherwise modify the provisions of section 1241-1 of this Appendix. (2) Every department or agency having responsibility under this subsection shall administer its programs with respect to this subsection under regulations issued by the Secretary of Transportation. The Secretary of Transportation shall review such administration and shall annually report to the Congress with respect thereto.

§ 1241d. Findings and declarations with respect to export transportation of agricultural commodities

(a) The Congress finds and declares—

(1) that a productive and healthy agricultural industry and a strong and active United States maritime industry are vitally important to the economic well-being and national security objectives of our Nation,

(2) that both industries must compete in international markets increasingly dominated by foreign trade barriers and the subsidization practices of foreign governments; and

(3) that increased agricultural exports and the utilization of United States merchant vessels contribute positively to the United States balance of trade and generate employment opportunities in the United States.

(b) It is therefore declared to be the purpose and policy of the Congress in sections 1241d to 1241p of this Appendix—

(1) to enable the Department of Agriculture to plan its export programs effectively, by clarifying the ocean transportation requirements applicable to such programs;

(2) to take immediate and positive steps to promote the growth of the cargo carrying capacity of the United States merchant marine;

(3) to expand international trade in United States agricultural commodities and products and to develop, maintain, and expand markets for United States agricultural exports;

(4) to improve the efficiency of administration of both the commodity purchasing and selling and the ocean transportation activities associated with export programs sponsored by the Department of Agriculture;

(5) to stimulate and promote both the agricultural and maritime industries of the United States and encourage cooperative efforts by both industries to address their common problems; and

(6) to provide in this chapter for the appropriate disposition of these findings and purposes.

(a)(1) For fiscal year 1986 and each fiscal year thereafter, the minimum quantity of agricultural commodities to be exported under programs subject to section 1241f of this Appendix shall be the average of the tonnage exported under such programs during the base period defined in subsection (b) of this section, discarding the high and low years.

(2) The President may waive the minimum quantity for any fiscal year required under paragraph (1) if he determines and reports to the Congress, together with his reasons, that such quantity cannot be effectively used for the purposes of such programs or, based on a certification by the Secretary of Agriculture, that the commodities are not available for reasons which include the unavailability of funds.

(b) The base period utilized for computing the minimum tonnage quantity referred to in subsection (a) of this section for any fiscal year shall be the five fiscal years beginning with the sixth fiscal year preceding such fiscal year and ending with the second fiscal year preceding such fiscal year.

(June 29, 1936, ch. 858, title IX, § 901c, as added Dec. 23, 1985, Pub. L. 99-198, title XI, § 1142, 99 Stat. 1493.)

§ 1241h. Financing of shipment of agricultural commodities in United States-flag vessels

(a) Financing by Secretary of Transportation of increased ocean freight charges

The Secretary of Transportation shall finance any increased ocean freight charges incurred in any fiscal year which result from the application of section 1241f of this Appendix.

(b) Reimbursement of Secretary of Agriculture and Commodity Credit Corporation; computations

If in any fiscal year the total cost of ocean freight and ocean freight differential for which obligations are incurred by the Department of Agriculture and the Commodity Credit Corporation on exports of agricultural commodities and products thereof under the agricultural export programs specified in section 1241f(b) of this Appendix exceeds 20 percent of the value of such commodities and products and the cost of such ocean freight and ocean freight differential on which obligations are incurred by such Department and Corporation during such year, the Secretary of Transportation shall reimburse the Department of Agriculture and the Commodity Credit Corporation for the amount of such excess. For the purpose of this subsection, commodities shipped from the inventory of the Commodity Credit Corporation shall be valued as provided in section 1733(b) of title 7.

(c) Issuance, etc., of obligations for financing

For the purpose of meeting those expenses required to be assumed under subsections (a) and (b) of this section, the Secretary of Transportation shall issue to the Secretary of the Treasury such obligations in such forms and denominations, bearing such maturities and subject to such terms and conditions, as may be prescribed by the Secretary of Transportation with the approval of the Secretary of the Treasury. Such obligations shall be at a rate of interest as determined by the Secretary of the Treasury, taking into consideration the average market yield on outstanding marketable obligations of the United States with remaining periods of maturity comparable to the average maturities of such obligations during the month preceding the issuance of such obligations of the Secretary of Transportation. The Secretary of the Treasury shall purchase any obligations of the Secretary of Transportation issued under this subsection and, for the purpose of purchasing such obligations, the Secretary of the Treasury may use as a public debt transaction the proceeds from the sale of any securities issued under chapter 31 of title 31 after December 23, 1985, and the purposes for which securities may be issued under such chapter are extended to include any purchases of the obligations of the Secretary of Transportation under this subsection. All redemptions and purchases by the Secretary of the Treasury of the obligations of the Secretary of Transportation shall be treated as public-debt transactions of the United States.

(d) Authorization of appropriations

There is authorized to be appropriated annually for each fiscal year, commencing with the fiscal year beginning October 1, 1986, an amount sufficient to reimburse the Secretary of Transportation for the costs, including administrative expenses and the principal and interest due on the obligations to the Secretary of the Treasury incurred under this section. Reimbursement of any such costs shall be made with appropriated funds, as provided in this section, rather than through cancellation of notes.

(e) Notification of Congress respecting failure to obtain funds necessary for financing

Notwithstanding the provisions of this section, in the event that the Secretary of Transportation is unable to obtain the funds necessary to finance the increased ocean freight charges resulting from the requirements of subsections (a) and (b) of this section and section 1241f(a) of this Appendix, the Secretary of Transportation shall so notify the Congress within 10 working days of the discovery of such insufficiency.

In the event of termination under this section, nothing in sections 1241e through 1241h of this Appendix shall be construed as exempting export activities from or subjecting export activities to the cargo preference laws except to the extent those activities are exempt under section 1707a(b) of title 7. It shall be the duty of the Commission to conduct a comprehensive study and review of the ocean transportation of agricultural exports subject to the cargo preference laws referred to in section 1241f of this Appendix and to make recommendations to the President and the Congress for improving the efficiency of such transportation on United States-flag vessels in order to reduce the costs incurred by the United States in connection with such transportation. (3) Sixty days after the submission of the final report, the Commission shall cease to exist.

(c) Contents of reports

The Commission shall include in its reports submitted pursuant to subsection (b) of this section recommendations concerning the feasibility and desirability of achieving the following goals with respect to the ocean transportation of agricultural commodities subject to the cargo preference laws referred to in section 1241f of this Appendix:

(3) Ensuring that shipments of such commodities are made under the most advantageous terms available, including—

(A) charters for full shiploads;

(C) charters for consecutive voyages and contracts of affreightment; and

(D) adjustment of rates in the event that vessels used for shipments of such commodities also carry cargoes on return voyages.

(4) Reduction and elimination of impediments, including delays in port, to the efficient loading and operation of the vessels employed for shipment of such commodities.

(5) Utilization of open and competitive bidding for the ocean transportation of such commodities.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 1241d of this Appendix.

§ 1242. Requisition or purchase of vessels in time of emergency

(a) Compensation; restoration; consequential damages

Whenever the President shall proclaim that the security of the national defense makes it advisable or during any national emergency declared by proclamation of the President, it shall be lawful for the Secretary of Transportation to requisition or purchase any vessel or other watercraft owned by citizens of the United States, or under construction within the United States, or for any period during such emergency, to requisition or charter the use of any such property. The termination of any emergency so declared shall be announced by a further proclamation by the President. When any such property or the use thereof is so requisitioned, the owner thereof shall be paid just compensation for the property taken or for the use of such property, but in no case shall the value of the property taken or used be deemed enhanced by the causes necessitating the taking or use. If any property is taken and used under authority of this section, but the ownership thereof is not required by the United States, such property shall be restored to the owner in a condition at least as good as when taken, less ordinary wear and tear, or the owner shall be paid an amount for reconditioning sufficient to place the property in such condition. The owner shall not be paid for any consequential damages arising from a taking or use of property under authority of this section.

(b) Determination of value of vessel

When any vessel is taken or used under authority of this section, upon which vessel a construction-differential subsidy has been allowed and paid, the value of the vessel at the time of its taking shall be determined as provided in section 1212 of this Appendix, and in determining the value of any vessel taken or used, on which a construction-differential subsidy has not been paid, the value of any national defense features previously paid for by the United States shall be excluded.

(c) Charter of vessels; compensation; reimbursement for loss or damage

If any property is taken and used under authority of this section, but the ownership thereof is not required by the United States, the Secretary of Transportation, at the time of the taking or as soon thereafter as the exigencies of the situation may permit, shall transmit to the person entitled to the possession of such property a charter setting forth the terms which, in the Secretary's judgment, should govern the relationships between the United States and such person and a statement of the rate of hire which, in the Secretary's judgment, will be just compensation for the use of such property and for the services required under the terms of such charter. If such person does not execute and deliver such charter and accept such rate of hire, the Secretary of Transportation shall pay to such person as a tentative advance only, on account of such just compensation a sum equal to 75 per centum of such rate of hire as the same may from time to time be due under the terms of the charter so tendered, and such person shall be entitled to sue the United States in a court having jurisdiction of such claims to recover such amounts as would be equal to just compensation for the use of the property and for the services required in connection with such use: *Provided, however*, That in the event of an election by such person to reject the rate of hire fixed by the Secretary of Transportation and to sue in the courts, the excess of any amounts advanced on account of just compensation over the amount of the court judgment will be required to be refunded. In the event of loss or damage to such property, due to operation of a risk assumed by the United States under the terms of a charter prescribed in this subsection, but no valuation of such vessel or other property or mode of compensation has been agreed to, the United States shall pay just compensation for such loss or damage, to the extent the person entitled thereto is not reimbursed therefor through policies of insurance against such loss or damage.

(d) Determination of amount of compensation

In all cases, the just compensation authorized by this section shall be determined and paid by the Secretary of Transportation as soon as practicable, but if the amount of just compensation determined by the Secretary is unsatisfactory to the person entitled thereto; such person shall be paid, as a tentative advance only, 75 per centum of the amount so determined and shall be entitled to sue the United States to recover such amount as would equal just compensation therefor, in the manner provided for by sections 1346 and 1491 of title 28: *Provided, however*, That in that event of an election to reject the amount determined by the Secretary of Transportation and to sue in the courts, the excess of any amounts advanced on account of just compensation over the amount of the court judgment will be required to be refunded.

The existence of any valid claim by way of mortgage or maritime claim or attachment lien upon such vessel shall not prevent the taking thereof pursuant to this section: *Provided, however*, That in the event any such claim exists the Secretary of Transportation may in his discretion deposit such portion of the compensation hereunder, or advances on account thereof, as may equal but not exceed the amount of such claims in respect of the vessel, with the Treasurer of the United States, and the fund so deposited shall be available for the payment of such compensation, and shall be subject to be applied to the payment of the amount of any valid claim by way of mortgage or maritime lien or attachment lien upon such vessel, or of any stipulation therefor in a court of the United States, or of any State, subsisting at the time of such requisition or taking of title or possession; the holder of any such claim may commence prior to June 30, 1943, or within six months after the first such deposit with the Treasurer and publication of notice thereof in the Federal Register, whichever date is later, and maintain in the United States district court from whose custody such vessel has been or may be taken or in whose territorial jurisdiction the vessel was lying at the time of requisitioning or taking of title or possession, a suit in admiralty according to the principles of libels in rem against the fund, which shall proceed and be heard and determined according to the principles of law and to the rules of practice obtaining in like cases between private parties, and any decree in said suit shall be paid out of the first and all subsequent deposits of compensation; and such suit shall be commenced in the manner provided by section 742 of this Appendix and service of process shall be made in the manner therein provided by service upon the United States attorney and by mailing by registered mail to the Attorney General and the Secretary of Transportation and due notice shall under order of the court be given to all interested persons, and any decree shall be subject to appeal and revision as now provided in other cases of admiralty and maritime jurisdiction.

(e) Use of vessels by Secretary; transfer to other departments or agencies; reimbursement of Secretary

The Secretary of Transportation is authorized to repair, recondition, reconstruct, and operate, or charter for operation, any property acquired under authority of this section. The Secretary of Transportation is further authorized to transfer the possession or control of any such property to any department or agency of the Government of the United States upon such terms and conditions as may be approved by the President. In case of any such transfer the department or agency to which the transfer is made shall promptly reimburse the Secretary of Transportation for the Department of Transportation's expenditures on account of just compensation, purchase price, repairs, reconditioning, reconstruction, or charter hire for the property transferred. Such reimbursements shall be deposited in the construction fund established by section 1116 of this Appendix.

(b) Adjustment of obligations and arrangements for maintenance of essential vessels

For the purposes of preserving in the national interest the full availability and usefulness of essential vessels, which, under the provisions of the Neutrality Act of 1939 [22 U.S.C. 441 et seq.] (or any proclamation issued thereunder), or compatibly with the national interest, cannot be operated in the service, route, or line to which such vessels are assigned pursuant to this chapter, or in which they would otherwise be operated, the Secretary of Transportation is authorized to make adjustments of obligations in respect to such vessels and to make arrangements for the maintenance of such vessels, subject to the provisions of this section and to such rules and regulations as the Secretary of Transportation shall prescribe as necessary or appropriate for carrying out the purposes and provisions of this section. If the Secretary of Transportation, upon written application in respect of any essential vessel, determines after such examination, investigation, and proceedings as he deems desirable, that (1) the operation of such vessel in the service, route, or line to which such vessel is assigned pursuant to this chapter, or in which it would otherwise be operated, is either (A) not lawful under the Neutrality Act of 1939 (or any proclamation issued thereunder), or (B) not compatible with the maintenance of availability of such vessel for purposes of national defense and commerce, (2) it is not feasible under existing law to employ such vessel in any other service or operation in either the foreign or domestic trades (except temporary or emergency operation under subsection (c)(5) hereof), and (3) the applicant, by reason of the restrictions of the Neutrality Act of 1939, or the withdrawal of vessels for national-defense purposes under clause (1) hereof, is not earning or will not earn a fair and reasonable return on the capital necessarily employed in its business, the Secretary of Transportation may make adjustments and arrangements with the applicant as provided in subsection (c) of this section, which shall continue in effect only during the circumstances above described.

(c) Provisions included within adjustments and arrangements

Such adjustments and arrangements shall include suspension of the requirement to operate such vessel in foreign trade under the applicable operating-differential or construction-differential subsidy contract or mortgage or other agreement, and of the right to operating-differential subsidy in respect of such vessel, and may include any one or more of the following provisions, in whole or in part, as, and to the extent that, the Secretary of Transportation may deem to be necessary or appropriate to carry out the purposes of this chapter, or the purposes and provisions of this section:

(1) Lay-up of the vessel by the owner or, at the option of the Secretary of Transportation, in the custody of the Secretary of Transportation, with payment or reimbursement by the Secretary of Transportation of necessary and proper expenses thereof (including reasonable overhead and insurance), or in lieu of such payment or reimbursement, a fixed periodic allowance therefor;

(2) Postponement, for a period not in excess of the period or periods of lay-up, of the maturity date of each installment on account of the principal of obligations to the United States in respect of the vessel (whether or not such maturity date shall fall within such period or periods), or rearrangement of such maturities;

(3) Postponement or cancellation of interest accruing on such obligations during such period or periods of lay-up;

(4) Extension for a period not in excess of the period or periods of lay-up, of the twenty-year life limitation in respect of the vessel, and of the period or periods of other limitations and provisions of this chapter, insofar as they are based upon a twenty-year life;

(5) Provisions for such temporary or emergency employment of the vessel in lieu of layup as may be practicable, with such arrangements for management of the vessel, payment of expenses, and application of the proceeds of such employment, as the Secretary of Transportation may approve, the period or periods of such operation being included as part of the period or periods of lay-up;

(6) The payment to the Secretary of Transportation, upon termination of the arrangements with the applicant hereunder, out of the applicant's net profits, earned while such arrangements were in effect, in excess of 10 per centum per annum on the capital necessarily employed in the applicant's business, in reimbursement, to the extent that the Secretary of Transportation shall deem it necessary to carry out the purposes of this section, on account of obligations postponed or canceled and expenses incurred or paid by the Secretary of Transportation under this subsection. For the purposes of this paragraph capital of the applicant represented by vessels of the applicant laid up or operated under this section shall not be excluded from capital necessarily employed in the applicant's business. The Secretary of Transportation may require that the vessels so laid up or operated be security for reimbursement hereunder.

(d) Readjustment or modification of adjustments and arrangements

The adjustments and arrangements made under subsection (c) of this section in respect of any vessel shall be subject to such readjustment or modification from time to time as may be deemed necessary by the Secretary of Transportation to carry out the purposes and provisions of this section.

(e) Expenses incurred in adjustments and arrangements

Moneys in the construction fund of the Secretary of Transportation shall be available for expenses of the Secretary of Transportation incurred in adjustments or arrangements made under this section.

(a) Principal and interest

The Secretary, upon application by a citizen of the United States, is authorized to guarantee, and to enter into commitments to guarantee, the payment of the interest on, and the unpaid balance of the principal of, any obligation which is eligible to be guaranteed under this subchapter.

(b) Security interest

No obligation shall be guaranteed under this subchapter unless the obligor conveys or agrees to convey to the Secretary such security interest, which may include a mortgage or mortgages on a vessel or vessels, as the Secretary may reasonably require to protect the interest of the United States.

(c) Amount of guarantee; percentage limitation; determination of actual cost of vessel

The Secretary shall not guarantee the principal of obligations in an amount in excess of 75 per centum, or 87½ per centum, whichever is applicable under section 1274 of this Appendix, of the amount, as determined by the Secretary which determination shall be conclusive, paid by or for the account of the obligor for the construction, reconstruction, or reconditioning of a vessel or vessels with respect to which a security interest has been conveyed to the Secretary, unless the obligor creates an escrow fund as authorized by section 1279a of this Appendix, in which case the Secretary may guarantee 75 per centum or 87½ per centum, whichever is applicable under section 1274 of this Appendix, of the actual cost of such vessel or vessels.

§ 1274. Eligibility for guarantee

(a) Purpose of obligations

Pursuant to the authority granted under section 1273(a) of this Appendix, the Secretary, upon such terms as he shall prescribe, may guarantee or make a commitment to guarantee, payment of the principal of and interest on an obligation which aids in—

(1) financing, including reimbursement of an obligor for expenditures previously made for, construction, reconstruction, or reconditioning of a vessel or vessels owned by citizens of the United States which are designed principally for research, or for commercial use (A) in the coastwise or intercoastal trade; (B) on the Great Lakes, or on bays, sounds, rivers, harbors, or inland lakes of the United States; (C) in foreign trade as defined in section 1244 of this Appendix for purposes of subchapter

V of this chapter;; or (D)[1] as an ocean thermal energy conversion facility or plantship; or (E) with respect to floating drydocks, in the construction, reconstruction, reconditioning, or repair of vessels: *Provided, however,* That no guarantee shall be entered into pursuant to this paragraph (a)(1) later than one year after delivery, or redelivery in the case of reconstruction or reconditioning of any such vessel unless the proceeds of the obligation are used to finance the construction, reconstruction, or reconditioning of a vessel or vessels, or facilities or equipment pertaining to marine operations;

(2) financing, including reimbursement of an obligor for expenditures previously made for, construction, reconstruction, reconditioning, or purchase of a vessel or vessels owned by citizens or nationals of the United States or citizens of the Northern Mariana Islands which are designed principally for research, or for commercial use in the fishing trade or industry;

(3) financing the purchase, reconstruction, or reconditioning of vessels or fishery facilities for which obligations were guaranteed under this subchapter that, under the provisions of section 1275 of this Appendix:

(A) are vessels or fishery facilities for which obligations were accelerated and paid;

(B) were acquired by the Fund; or

(C) were sold at foreclosure instituted by the Secretary;

(4) financing, in whole or in part, the repayment to the United States of any amount of construction-differential subsidy paid with respect to a vessel pursuant to subchapter V of this chapter;

(5) refinancing existing obligations issued for one of the purposes specified in (1), (2), (3), or (4) whether or not guaranteed under this subchapter, including, but not limited to, short-term obligations incurred for the purpose of obtaining temporary funds with the view to refinancing from time to time; or

(6) financing or refinancing, including, but not limited to, the reimbursement of obligors for expenditures previously made for, the construction, reconstruction, reconditioning, or purchase of fishery facilities.

Any obligation guaranteed under paragraph (6) shall be treated, for purposes of this subchapter in the same manner and to the same extent as an obligation guaranteed under this subchapter which aids in the construction, reconstruction, reconditioning, or purchase of a vessel; except with respect to provisions of this subchapter that by their nature can only be applied to vessels.

(b) Contents of obligations

Obligations guaranteed under this subchapter—

(1) shall have an obligor approved by the Secretary as responsible and possessing the ability, experience, financial resources, and other qualifications necessary to the adequate operation and maintenance of the vessel or vessels which serve as security for the guarantee of the Secretary;

(2) subject to the provisions of paragraph (1) of subsection (c) of this section, shall be in an aggregate principal amount which does not exceed 75 per centum of the actual cost or depreciated actual cost, as determined by the Secretary, of the vessel which is used as security for the guarantee of the Secretary: *Provided, however,* That in the case of a vessel, the size and speed of which are approved by the Secretary; and which is or would have been eligible for mortgage aid for construction under section 1159 of this Appendix (or would have been eligible for mortgage aid under section 1159 of this Appendix except that the vessel was built with the aid of construction-differential subsidy and said subsidy has been repaid) and in respect of which the minimum downpayment by the mortgagor required by that section would be or would have been 12½ per centum of the cost of such vessel, such obligations may be in an amount which does not exceed 87½ per centum of such actual cost or depreciated actual cost: *Provided, further,* That the obligations which relate to a barge which is constructed without the aid of construction-differential subsidy, or, if so subsidized, on which said subsidy has been repaid, may be in an aggregate principal amount which does not exceed 87½ per centum of the actual cost or depreciated actual cost thereof: *Provided, further,* That in the case of any vessel to be used in the fishing trade or industry, such obligations may be in an aggregate principal amount which does not exceed 87½ per centum of the actual cost or depreciated actual cost of the vessel: *Provided further,* That in the case of an ocean thermal energy conversion facility or plantship which is constructed without the aid of construction-differential subsidy, such obligations may be in an aggregate principal amount which does not exceed 87½ percent of the actual cost or depreciated actual cost of the facility or plantship;

(3) shall have maturity dates satisfactory to the Secretary but, subject to the provisions of paragraph (2) of subsection (c) of this section, not to exceed twenty-five years from the date of the delivery of the vessel which serves as security for the guarantee of the Secretary or, if the vessel has been reconstructed or reconditioned, not to exceed the later of (i) twenty-five years from the date of delivery of the vessel and (ii) the remaining years of the useful life of the vessel as determined by the Secretary;

(4) shall provide for payments by the obligor satisfactory to the Secretary;

(5) shall bear interest (exclusive of charges for the guarantee and service charges, if any) at rates not to exceed such per centum per annum on the unpaid principal as the Secretary determines to be reasonable, taking into account the range of interest rates prevailing in the private market for similar loans and the risks assumed by the Secretary;

---

[1] So in original. Probably should be "chapter; (D)".

(6) shall provide, or a related agreement shall provide, that if the vessel used as security for the guarantee of the Secretary is a delivered vessel, the vessel shall be in class A-1, American Bureau of Shipping, or shall meet such other standards as may be acceptable to the Secretary, with all required certificates, including but not limited to, marine inspection certificates of the United States Coast Guard, with all outstanding requirements and recommendations necessary for retention of class accomplished, unless the Secretary permits a deferment of such repairs, and shall be tight, stanch, strong, and well and sufficiently tackled, appareled, furnished, and equipped, and in every respect seaworthy and in good running condition and repair, and in all respects fit for service; and

(7) may provide, or a related agreement may provide, if the vessel used as security for the guarantee of the Secretary is a passenger vessel having the tonnage, speed, passenger accommodations and other characteristics set forth in subchapter V of this chapter, and if the Secretary approves, that the sole recourse against the obligor by the United States for any payments under the guarantee shall be limited to repossession of the vessel and the assignment of insurance claims and that the liability of the obligor for any payments of principal and interest under the guarantee shall be satisfied and discharged by the surrender of the vessel and all right, title, and interest therein to the United States: *Provided*, That the vessel upon surrender shall be (i) free and clear of all liens and encumbrances whatsoever except the security interest conveyed to the Secretary under this subchapter, (ii) in class, and (iii) in as good order and condition, ordinary wear and tear excepted, as when acquired by the obligor, except that any deficiencies with respect to freedom from encumbrances, condition and class may, to the extent covered by valid policies of insurance, be satisfied by the assignment to the Secretary of claims of the obligor under such policies.

The Secretary may not establish, as a condition of eligibility for guarantee under this subchapter, a minimum principal amount for an obligation covering the reconstruction or reconditioning of a fishing vessel or fishery facility. For purposes of this subchapter, the reconstruction or reconditioning of a fishing vessel or fishery facility does not include the routine minor repair of maintenance of the vessel or facility.

(c) Security

(1) The security for the guarantee of an obligation by the Secretary under this subchapter may relate to more than one vessel and may consist of any combination of types of security. The aggregate principal amount of obligations which have more than one vessel as security for the guarantee of the Secretary under this subchapter may equal, but not exceed, the sum of the principal amount of obligations permissible with respect to each vessel.

(2) If the security for the guarantee of an obligation by the Secretary under this subchapter relates to more than one vessel, such obligation may have the latest maturity date permissible under subsection (b) of this section with respect to any of such vessels: *Provided*, That the Secretary may require such payments of principal, prior to maturity, with respect to all related obligations as he deems necessary in order to maintain adequate security for his guarantee.

(d) Restrictions

(1)(A) No commitment to guarantee, or guarantee of, an obligation shall be made by the Secretary of Transportation unless the Secretary finds that the property or project with respect to which the obligation will be executed will be economically sound. In making that determination, the Secretary shall consider—

(i) the need in the particular segment of the maritime industry for new or additional capacity, including any impact on existing equipment for which a guarantee under this subchapter is in effect;

(ii) the market potential for the employment of the vessel over the life of the guarantee;

(iii) projected revenues and expenses associated with employment of the vessel;

(iv) any charters, contracts of affreightment, transportation agreements, or similar agreements or undertakings relevant to the employment of the vessel;

(v) other relevant criteria; and

(vi) for inland waterways, the need for technical improvements, including but not limited to increased fuel efficiency, or improved safety.

(B) No commitment to guarantee, or guarantee of, an obligation shall be made by the Secretary of Commerce unless the Secretary finds, at or prior to the time such commitment is made or guarantee becomes effective, that the property or project with respect to which the obligation will be executed will be, in the Secretary's opinion, economically sound and in the case of fishing vessels, that the purpose of the financing or refinancing is consistent with the wise use of the fisheries resources and with the development, advancement, management, conservation, and protection of the fisheries resources, or with the need for technical improvements including but not limited to increased fuel efficiency or improved safety.

(2) No commitment to guarantee, or guarantee of an obligation may be made by the Secretary under this subchapter for the purchase of a used fishing vessel or used fishery facility unless—

Fee payments shall be made by the obligor to the Secretary when moneys are first advanced under a guaranteed obligation and at least sixty days prior to each anniversary date thereafter. All fees shall be computed and shall be payable to the Secretary under such regulations as the Secretary may prescribe. Such regulations shall provide a formula for determining the creditworthiness of obligors under which the most creditworthy obligors pay a fee computed on the lowest allowable percentage and the least creditworthy obligors pay a fee which may be computed on the highest allowable percentage (the range of creditworthiness to be based on obligors which have actually issued guaranteed obligations).

(f) Investigation of applications

The Secretary shall charge and collect from the obligor such amounts as he may deem reasonable for the investigation of applications for a guarantee, for the appraisal of properties offered as security for a guarantee, for the issuance of commitments, for services in connection with the escrow fund authorized by section 1279a of this Appendix and for the inspection of such properties during construction, reconstruction, or reconditioning: *Provided*, That such charges shall not aggregate more than one-half of 1 per centum of the original principal amount of the obligations to be guaranteed.

CODIFICATION

Section was not enacted as part of the Merchant Marine Act, 1936, which comprises this chapter.

AMENDMENTS

1981—Pub. L. 97-31 substituted "Secretary of Transportation" for "Secretary of Commerce".

§ 1289. Administrative provisions

(a) Issuance of policies, rules, and regulations; settlement of claims; valuation; rejection and review of valuation

(1) The Secretary, in the administration of this subchapter, may issue such policies, rules, and regulations as he deems proper and may adjust and pay losses, compromise and settle claims, whether in favor of or against the United States and pay the amount of any judgment rendered against the United States in any suit, or the amount of any settlement agreed upon, in respect of any claim under insurance authorized by this subchapter.

(2) In respect of hull insurance, the valuation in the policy for actual or constructive total

loss of the vessel insured shall be a stated valuation (exclusive of National Defense features paid for by the Government) determined by the Secretary which shall not exceed the amount that would be payable if the vessel had been requisitioned for title under section 1242(a) of this Appendix at the time of the attachment of the insurance under said policy: *Provided*, That the insured shall have the right within sixty days after the attachment of the insurance under said policy, or within sixty days after determination of such valuation by the Secretary, whichever is later, to reject such valuation, and shall pay, at the rate provided for in said policy, premiums upon such asserted valuation as the insured shall specify at the time of rejection, but such asserted valuation shall not operate to the prejudice of the Government in any subsequent action on the policy. In the event of the actual or constructive total loss of the vessel, if the insured has not rejected such valuation the amount of any claim therefor which is adjusted, compromised, settled, adjudged, or paid shall not exceed such stated amount, but if the insured has so rejected such valuation, the insured shall be paid as a tentative advance only, 75 per centum of such valuation so determined by the Secretary and shall be entitled to sue the United States in a court having jurisdiction of such claims to recover such valuation as would be equal to the just compensation which such court determines would have been payable if the vessel had been requisitioned for title under section 1242(a) of this Appendix at the time of the attachment of the insurance under said policy: *Provided*, That in the event of an election by the insured to reject the stated valuation fixed by the Secretary and to sue in the courts, the amount of the judgment will be payable without regard to the limitations contained in section 1242-1 of this Appendix, although the excess of any amounts advanced on account of just compensation over the amount of the court judgment will be required to be refunded. In the event of such court determination, premiums under the policy shall be adjusted on the basis of the valuation as finally determined and of the rate provided for in said policy.

(b) Forms and policies; rates; fees

The Secretary may prescribe and change forms and policies, and fix, adjust, and change the amounts insured and rates of premium provided for in this subchapter. The Secretary may charge and collect an annual fee in an amount calculated to cover the expenses of processing applications for insurance, the employment of underwriting agents, and the appointment of experts.

(c) Commercial practice controlling; limitation on fees

The Secretary, in administering this subchapter, may exercise his powers, perform his duties and functions, and make his expenditures, in accordance with commercial practice in the marine insurance business. Except as authorized in subsection (d) of this section, no insurance broker or other person acting in a similar intermediary capacity shall be paid any fee or other consideration by the Secretary by virtue of his participation in arranging any insurance wherein the Secretary directly insures any of the risk thereof.

(d) Underwriting agents

The Secretary may, and whenever he finds it practical to do so shall, employ domestic companies or groups of domestic companies authorized to do a marine insurance business in any State of the United States, to act as his underwriting agent. The Secretary may allow such companies or groups of companies fair and reasonable compensation for servicing insurance written by such companies or groups of companies as underwriting agent for the Secretary. The services of such underwriting agents may be utilized in the adjustment of claims under insurance provided by this subchapter, but no claim shall be paid unless and until it has been approved by the Secretary. Such compensation may include an allowance for expenses reasonably incurred by such agent, but such allowance shall not include any payment by such agent on account of solicitation for or stimulation of insurance business.

(e) Employment of marine insurance experts

The Secretary without regard to the laws, rules, or regulations relating to the employment of employees of the United States may appoint and prescribe the duties of such number of experts in marine insurance as he deems necessary under this subchapter.

(f) Utilization of services of other Government agencies

The Secretary with the consent of any executive department, independent establishment, or other agency of the Government, including any field service thereof, may avail himself of the use of information, services, facilities, officers, and employees thereof in carrying out the provisions of this subchapter.

All persons having or claiming or who might have an interest in such insurance, may be made parties either initially or upon the motion of either party. In any case where the Secretary acknowledges the indebtedness of the United States on account of such insurance, and there is a dispute as to the persons entitled to receive payment, the United States may bring an action in the nature of a bill of interpleader against such parties, in the District Court for the District of Columbia, or in the district court of the district in which any such person resides. In such actions any party, if not a resident of or found within the district, may be brought in by order of court served in such reasonable manner as the court directs. If the court is satisfied that persons unknown might assert a claim on account of such insurance, it may direct service upon such persons unknown by publication in the Federal Register. Judgment in any such suit shall discharge the United States from further liability to any parties to such action, and to all persons when service by publication upon persons unknown is directed by the court. The period within which suits may be commenced contained in said Suits in Admiralty Act shall, if claim be filed therefor within such period, be suspended from such time of filing until the claim shall have been administratively denied by the Secretary and for sixty days thereafter: *Provided, however,* That such claim shall be deemed to have been administratively denied if not acted upon within six months after the time of filing, unless the Secretary for good cause shown shall have otherwise agreed with the claimant.

(c) The apparent order and condition of the goods: *Provided*, That no carrier, master, or agent of the carrier, shall be bound to state or show in the bill of lading any marks, number, quantity, or weight which he has reasonable ground for suspecting not accurately to represent the goods actually received, or which he has had no reasonable means of checking.

(4) Bill as prima facie evidence

Such a bill of lading shall be prima facie evidence of the receipt by the carrier of the goods as therein described in accordance with paragraphs (3)(a), (b), and (c), of this section: *Provided*, That nothing in this chapter shall be construed as repealing or limiting the application of any part of the Act of August 29, 1916, commonly known as the "Pomerene Bills of Lading Act" [49 App. U.S.C. 81 et seq.].

(5) Guaranty of statements

The shipper shall be deemed to have guaranteed to the carrier the accuracy at the time of shipment of the marks, number, quantity, and weight, as furnished by him; and the shipper shall indemnify the carrier against all loss, damages, and expenses arising or resulting from inaccuracies in such particulars. The right of the carrier to such indemnity shall in no way limit his responsibility and liability under the contract of carriage to any person other than the shipper.

(6) Notice of loss or damage; limitation of actions

Unless notice of loss or damage and the general nature of such loss or damage be given in writing to the carrier or his agent at the port of discharge before or at the time of the removal of the goods into the custody of the person entitled to delivery thereof under the contract of carriage, such removal shall be prima facie evidence of the delivery by the carrier of the goods as described in the bill of lading. If the loss or damage is not apparent, the notice must be given within three days of the delivery.

Said notice of loss or damage may be endorsed upon the receipt for the goods given by the person taking delivery thereof.

The notice in writing need not be given if the state of the goods has at the time of their receipt been the subject of joint survey or inspection.

In any event the carrier and the ship shall be discharged from all liability in respect of loss or damage unless suit is brought within one year after delivery of the goods or the date when the goods should have been delivered: *Provided*, That if a notice of loss or damage, either apparent or concealed, is not given as provided for in this section, that fact shall not affect or prejudice the right of the shipper to bring suit within one year after the delivery of the goods or the date when the goods should have been delivered.

In the case of any actual or apprehended loss or damage the carrier and the receiver shall give all reasonable facilities to each other for inspecting and tallying the goods.

(7) "Shipped" bill of lading

After the goods are loaded the bill of lading to be issued by the carrier, master, or agent of the carrier to the shipper shall, if the shipper so demands, be a "shipped" bill of lading: *Provided*, That if the shipper shall have previously taken up any document of title to such goods, he shall surrender the same as against the issue of the "shipped" bill of lading, but at the option of the carrier such document of title may be noted at the port of shipment by the carrier, master, or agent with the name or names of the ship or ships upon which the goods have been shipped and the date or dates of shipment, and when so noted the same shall for the purpose of this section be deemed to constitute a "shipped" bill of lading.

(8) Limitation of liability for negligence

Any clause, covenant, or agreement in a contract of carriage relieving the carrier or the ship from liability for loss or damage to or in connection with the goods, arising from negligence, fault, or failure in the duties and obligations provided in this section, or lessening such liability otherwise than as provided in this chapter, shall be null and void and of no effect. A benefit of insurance in favor of the carrier, or similar clause, shall be deemed to be a clause relieving the carrier from liability.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1302, 1304, 1306, 1313 of this Appendix.

§ 1304. Rights and immunities of carrier and ship

(1) Unseaworthiness

Neither the carrier nor the ship shall be liable for loss or damage arising or resulting from unseaworthiness unless caused by want of due diligence on the part of the carrier to make the ship seaworthy, and to secure that the ship is properly manned, equipped, and supplied, and to make the holds, refrigerating and cool chambers, and all other parts of the ship in which goods are carried fit and safe for their reception, carriage, and preservation in accordance with the provisions of paragraph (1) of section 1303 of this Appendix. Whenever loss or damage has resulted from unseaworthiness, the burden of proving the exercise of due diligence shall be on the carrier or other persons claiming exemption under this section.

(2) Uncontrollable causes of loss

Neither the carrier nor the ship shall be responsible for loss or damage arising or resulting from—

(a) Act, neglect, or default of the master, mariner, pilot, or the servants of the carrier in the navigation or in the management of the ship;

(b) Fire, unless caused by the actual fault or privity of the carrier;

(c) Perils, dangers, and accidents of the sea or other navigable waters;

(d) Act of God;

(e) Act of war;

(f) Act of public enemies;

(g) Arrest or restraint of princes, rulers, or people, or seizure under legal process;

(h) Quarantine restrictions;

(i) Act or omission of the shipper or owner of the goods, his agent or representative;

(j) Strikes or lockouts or stoppage or restraint of labor from whatever cause, whether partial or general: *Provided*, That nothing herein contained shall be construed to relieve a carrier from responsibility for the carrier's own acts;

(k) Riots and civil commotions;

(*l*) Saving or attempting to save life or property at sea;

(m) Wastage in bulk or weight or any other loss or damage arising from inherent defect, quality, or vice of the goods;

(n) Insufficiency of packing;

(o) Insufficiency or inadequacy of marks;

(p) Latent defects not discoverable by due diligence; and

(q) Any other cause arising without the actual fault and privity of the carrier and without the fault or neglect of the agents or servants of the carrier, but the burden of proof shall be on the person claiming the benefit of this exception to show that neither the actual fault or privity of the carrier nor the fault or neglect of the agents or servants of the carrier contributed to the loss or damage.

(3) Freedom from negligence

The shipper shall not be responsible for loss or damage sustained by the carrier or the ship arising or resulting from any cause without the act, fault, or neglect of the shipper, his agents, or his servants.

(4) Deviations

Any deviation in saving or attempting to save life or property at sea, or any reasonable deviation shall not be deemed to be an infringement or breach of this chapter or of the contract of carriage, and the carrier shall not be liable for any loss or damage resulting therefrom: *Provided, however*, That if the deviation is for the purpose of loading or unloading cargo or passengers it shall, prima facie, be regarded as unreasonable.

(5) Amount of liability; valuation of cargo

Neither the carrier nor the ship shall in any event be or become liable for any loss or damage to or in connection with the transportation of goods in an amount exceeding $500 per package lawful money of the United States, or in case of goods not shipped in packages, per customary freight unit, or the equivalent of that sum in other currency, unless the nature and value of such goods have been declared by the shipper before shipment and inserted in the bill of lading. This declaration, if embodied in the bill of lading, shall be prima facie evidence, but shall not be conclusive on the carrier.

By agreement between the carrier, master, or agent of the carrier, and the shipper another maximum amount than that mentioned in this paragraph may be fixed: *Provided*, That such maximum shall not be less than the figure above named. In no event shall the carrier be liable for more than the amount of damage actually sustained.

Neither the carrier nor the ship shall be responsible in any event for loss or damage to or in connection with the transportation of the goods if the nature or value thereof has been knowingly and fraudulently misstated by the shipper in the bill of lading.

(6) Inflammable, explosive, or dangerous cargo

Goods of an inflammable, explosive, or dangerous nature to the shipment whereof the carrier, master or agent of the carrier, has not consented with knowledge of their nature and character, may at any time before discharge be landed at any place or destroyed or rendered innocuous by the carrier without compensation, and the shipper of such goods shall be liable for all damages and expenses directly or indirectly arising out of or resulting from such shipment. If any such goods shipped with such knowledge and consent shall become a danger to the ship or cargo, they may in like manner be landed at any place, or destroyed or rendered innocuous by the carrier without liability on the part of the carrier except to general average, if any.

Section Referred to in Other Sections

This section is referred to in sections 1302, 1306, 1313 of this Appendix.

§ 1305. Surrender of rights; increase of liabilities; charter parties; general average

A carrier shall be at liberty to surrender in whole or in part all or any of his rights and immunities or to increase any of his responsibilities and liabilities under this chapter, provided such surrender or increase shall be embodied in the bill of lading issued to the shipper.

The provisions of this chapter shall not be applicable to charter parties; but if bills of lading are issued in the case of a ship under a charter party, they shall comply with the terms of this chapter. Nothing in this chapter shall be held to prevent the insertion in a bill of lading of any lawful provision regarding general average.

Section Referred to in Other Sections

This section is referred to in sections 1306, 1309, 1313 of this Appendix.

§ 1306. Special agreement as to particular goods

Notwithstanding the provisions of sections 1303 to 1305 of this Appendix, a carrier, master or agent of the carrier, and a shipper shall, in regard to any particular goods be at liberty to enter into any agreement in any terms as to the responsibility and liability of the carrier for such goods, and as to the rights and immunities of the carrier in respect of such goods, or his obligation as to seaworthiness (so far as the stipulation regarding seaworthiness is not contrary to public policy), or the care or diligence of his servants or agents in regard to the loading, handling, stowage, carriage, custody, care, and discharge of the goods carried by sea: *Provided*, That in this case no bill of lading has been or shall be issued and that the terms agreed shall be embodied in a receipt which shall be a nonnegotiable document and shall be marked as such.

Any agreement so entered into shall have full legal effect: *Provided*, That this section shall not apply to ordinary commercial shipments made in the ordinary course of trade but only to other shipments where the character or condition of the property to be carried or the circumstances, terms, and conditions under which the carriage is to be performed are such as reasonably to justify a special agreement.

Section Referred to in Other Sections

This section is referred to in sections 1302, 1313 of this Appendix.

§ 1307. Agreement as to liability prior to loading or after discharge

Nothing contained in this chapter shall prevent a carrier or a shipper from entering into any agreement, stipulation, condition, reservation, or exemption as to the responsibility and liability of the carrier or the ship for the loss or damage to or in connection with the custody and care and handling of goods prior to the loading on and subsequent to the discharge from the ship on which the goods are carried by sea.

Section Referred to in Other Sections

§ 1308. Rights and liabilities under other provisions

The provisions of this chapter shall not affect the rights and obligations of the carrier under the provisions of the Shipping Act, 1916 [46 App. U.S.C. 801 et seq.], or under the provisions of sections 4281 to 4289, inclusive, of the Revised Statutes of the United States [46 App. 181-183, 183b-188] or of any amendments thereto; or under the provisions of any other enactment for the time being in force relating to the limitation of the liability of the owners of seagoing vessels.

§ 1310. Weight of bulk cargo

Where under the customs of any trade the weight of any bulk cargo inserted in the bill of lading is a weight ascertained or accepted by a third party other than the carrier or the shipper, and the fact that the weight is so ascertained or accepted is stated in the bill of lading, then, notwithstanding anything in this chapter, the bill of lading shall not be deemed to be prima facie evidence against the carrier of the receipt of goods of the weight so inserted in the bill of lading, and the accuracy thereof at the time of shipment shall not be deemed to have been guaranteed by the shipper.

§ 1313. Suspension of provisions by President

The President may at any time rescind such suspension of said sections, and any provisions thereof which may have been suspended shall thereby be reinstated and again apply to contracts thereafter made for the carriage of goods by sea. Any proclamation of suspension or rescission of any such suspension shall take effect on a date named therein, which date shall be not less than ten days from the issue of the proclamation.

Any contract for the carriage of goods by sea, subject to the provisions of this chapter, effective during any period when sections 1301 to 1308 of this Appendix, or any part thereof, are suspended, shall be subject to all provisions of law now or hereafter applicable to that part of said sections which may have thus been suspended.

EMPLOYMENT OF FOREIGN CITIZENS ON THE STERN TRAWLER "ARCTIC TRAWLER"

Pub. L. 94-150, Dec. 15, 1975, 89 Stat. 807, as amended by Pub. L. 96-260, § 1(b), June 3, 1980, 94 Stat. 435, provided: "That the Congress finds that the purposes and objectives of the United States Fishing Fleet Improvement Act, as amended (46 U.S.C. 1401-1413) [this chapter] are not being fulfilled in the case of the large stern trawler *Arctic Trawler*, formerly the *Seafreeze Atlantic*, Official Number 517242 (hereafter referred to in this Act as the '*Arctic Trawler*') a vessel of advanced design built under the provisions of that Act, because of the unavailability of skilled United States citizens or skilled aliens legally domiciled in the United States who can be employed as fish processors and fishermen aboard such vessel.

"SEC. 2. (a) Notwithstanding any requirement of item (5), section 2, of the United States Fishing Fleet Improvement Act [cl. (5) of section 1402], of any other provision of law, or of any provision of any contract to which the United States is a party, during the six-year period beginning on the date of the enactment of this Act [Dec. 15, 1975], the owner of the *Arctic Trawler* may employ foreign citizens as crew members of such vessel for service as fish processors and fishermen if at all times during such six-year period—

"(1) the master and all of the officers of the vessel are citizens of the United States;

"(2) citizens of the United States and aliens legally domiciled in the United States comprise not less than 40 percent of the crew;

"(3) any foreign citizen so employed is only used as a fisherman or fish processor aboard the vessel; and

"(4) the owner of the vessel undertakes to hire and train United States citizens or aliens legally domiciled in the United States as fish processors or fishermen aboard the vessel in order to assure a future supply of available United States citizens or aliens legally domiciled in the United States who will be qualified as fish processors or fishermen aboard advanced design trawlers.

"(b) If at any time during such six-year period the Secretary of Commerce finds that the owner of the *Arctic Trawler* is not in compliance with one or more of the conditions set forth in paragraphs (1) through (4) of subsection (a), the Secretary may prohibit the owner from employing foreign citizens as crew members of such vessel for such period of time as the Secretary deems appropriate.

"SEC. 3. Section 2(a) of this Act shall cease to apply at the close of the six-year period referred to in such section; except that if the owner of the *Arctic Trawler* provides evidence satisfactory to the Secretary of Commerce that—

"(1) qualified fish processors or fishermen who are citizens of the United States or aliens legally domiciled in the United States will not be available in sufficient number for employment on the vessel after the close of such period;

"(2) he has instituted and will continue a program to train United States citizens or legally domiciled aliens as fish processors or fishermen; and

"(3) he is making satisfactory progress, as determined by the Secretary, in employing only United States citizens or legally domiciled aliens on the vessel;

the Secretary of Commerce may permit the *Arctic Trawler* to be operated with fishermen or fish processors who are foreign citizens for such additional periods and under such conditions as he deems appropriate; except that the conditions set forth in paragraphs (1), (2), and (3) of section 2(a) shall apply during any such additional period.

"Sec. 4. The provisions of this Act shall not be construed as an amendment of the United States Fishing Fleet Improvement Act [this chapter], except to the extent applicable to *Arctic Trawler*, and any contract with the United States entered into before the date of the enactment of this Act with respect to the construction and operation of such vessel shall continue in full force and effect except that the Secretary of Commerce may amend any such contract in such a manner as he deems necessary in order to implement the provisions of this Act. The Secretary may impose such conditions as may be necessary to assure that the provisions of this Act will be complied with by the owner of the *Arctic Trawler* and may undertake to amend appropriately any documents executed in connection with the construction and operation of such vessel, but if the owner does not consent to any such amendment, the Act shall cease to apply."

§ 1503. Duties of Secretary of Transportation

(a) Enforcement

On and after the date the instrument of ratification is deposited by the United States in accordance with the provisions of article VII of the Convention, the Secretary shall enforce and carry out the provisions of the Convention, and, unless an earlier date is specifically provided, the provisions of this chapter, in the United States.

(b) Regulations

The Secretary shall, as soon as practicable after December 13, 1977, promulgate, and from time to time, amend, those regulations he deems necessary for such enforcement. Such regulations, among other things, shall—

(1) establish procedures for the testing, inspection, and initial approval of existing and new containers and of designs for new containers, including procedures relating to the affixing, invalidating, and removal of safety approval plates for containers;

(2) establish procedures to be followed by owners of containers relating to the periodic examination of containers, as provided in the Convention; and

(3) provide a method for developing, collecting, and disseminating data concerning container safety and the international transport of containers.

(c) Affixation of approval plate; delegation of authority; fees

At any time after December 13, 1977, the Secretary may—

(1) authorize the affixation of a safety approval plate to any container which, after examination, is found not to have a safety approval plate attached to it and which the owner has established meets the standards of the Convention;

(2) delegate and withdraw the delegation of authority to initially approve existing and new containers and designs for new containers, and to authorize the affixing of safety approval plates; and

(3) establish a schedule of fees to be charged and collected for services performed by the Secretary, or under authority delegated by the Secretary, relating to the testing, inspection, and initial approval of containers and container designs.

(d) Method of delegating authority

Those delegations made under subsection (c)(2) of this section may be made to any person, including any public or private agency or nonprofit organization. The Secretary[1] before making any delegation under such subsection, shall promulgate regulations relating to—

cluding the records such recipient must keep, and a detailed description of the exact functions such recipient may exercise; and

(3) the review that will be carried out by the Secretary to determine that any recipient of delegated functions is performing properly the functions so delegated.

No recipient of authority delegated under such subsection may assess or collect, or attempt to assess or collect, any penalty for violation of any provision of this chapter, the Convention, or any order of the Secretary issued under this chapter, or issue or attempt to issue any detention or other order. Any records required to be kept by regulations promulgated by the Secretary under this subsection shall be available to the Secretary, for inspection, upon request. The name and address of the recipient, if other than the owner, together with the functions so delegated and the period of designation, shall be published in the Federal Register and otherwise publicized as appropriate.

§ 1504. Areas of enforcement

(a) Examination of containers; detention orders; restriction or removal of containers from service

(1) On and after the date the instrument of ratification is deposited by the United States in accordance with the provisions of article VII of the Convention, to ensure compliance with this chapter, and with the Convention, the Secretary may—

(A) examine, or require to be examined, new containers, and existing containers which are subject to this chapter, in international transport, and test, inspect, and approve designs for new containers and new containers being manufactured;

(B) issue a detention order removing or excluding a container from service until the owner of the container establishes to the Secretary's satisfaction that the container meets the standards of the Convention, if the container is subject to this chapter and does not have a valid safety approval plate attached to it, or if there is significant evidence that such a container bearing a safety approval plate is in a condition which creates an obvious risk to safety; and

(C) take whatever other appropriate action he deems necessary, including issuance of any necessary orders, to remove the container involved from service, or restrict its use, in those instances where he finds that a container is not in compliance with the provisions of this chapter or the Convention but does not present an obvious risk to safety.

The Secretary may permit the movement to another location of a container which he finds to be unsafe or which does not have a valid safety approval plate affixed to it, under whatever restriction he considers necessary and consistent with the intent of the Convention, for repair or other appropriate disposition.

(2) Beginning on January 1, 1985, the Secretary may examine or require to be examined any existing container in international transport.

(b) Costs of examinations

The owner of the container involved in any action taken by the Secretary under this section with respect to an examination of a container, shall pay for or reimburse the Secretary for expenses arising from such actions, except for the costs of routine examinations of containers or safety approval plates. In addition, the owner of containers submitted to the procedure established by the Secretary for testing, inspection, and initial approval, and the manufacturers who submit designs of containers to the procedures established by the Secretary for testing, inspection, and initial approval shall pay for or reimburse the Secretary for the expenses arising from such testing, inspection or approval. Funds received by the Secretary in reimbursement shall be credited to the appropriations bearing the cost thereof.

(c) Presumption of safe condition

A container bearing a safety approval plate authorized by a country which is a party to the Convention shall be presumed to be in a safe condition unless there is significant evidence that the container creates an obvious risk to safety.

(d) Notification of detention or other order; duration of order

Whenever the Secretary issues a detention or other order under this section, he shall promptly notify, in writing, either the owner of the container subject to such order, his agent, or, when the identity of such owner is not apparent from the container of shipping documents, the custodian. The notification shall reasonably identify the container involved, give the location of the container, and reasonably describe the condition or situation which gave rise to the order. An order issued by the Secretary under this section shall remain in effect until the container is declared by the Secretary, or under regulations promulgated by the Secretary, to be in compliance with the standards of the Convention, or until it is permanently removed from service, whichever first occurs.

(e) Notification to foreign country of defect at time of approval

If there is reason to believe that a container to which there is affixed a safety approval plate issued by a foreign country was defective at the time of approval, the Secretary shall notify the country which issued the approval of such defect.

(b) Assessment, collection, remission, mitigation, and compromise of penalties

The Secretary shall assess and collect any penalty incurred under this section, and, in his discretion may remit, mitigate, or compromise any such penalty. No penalty shall be assessed until after the person charged has been given notice and an opportunity for a hearing. In assessing, remitting, mitigating, or compromising a penalty the Secretary shall consider the gravity of the violation, the hazards involved, and the record of the person charged with respect to violations of this chapter or of the Convention. Upon failure of any person to pay any penalty assessed against him by the Secretary, the Secretary shall request the Attorney General to begin an action in any district court of the United States to recover the amount of the penalty unpaid.

§ 1701. Declaration of policy

The purposes of this chapter are—

(1) to establish a nondiscriminatory regulatory process for the common carriage of goods by water in the foreign commerce of the United States with a minimum of government intervention and regulatory costs;

(2) to provide an efficient and economic transportation system in the ocean commerce of the United States that is, insofar as possible, in harmony with, and responsive to, international shipping practices; and

(3) to encourage the development of an economically sound and efficient United States-flag liner fleet capable of meeting national security needs.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 1704 of this Appendix.

§ 1704. Agreements

(a) Filing requirements

A true copy of every agreement entered into with respect to an activity described in section 1703(a) or (b) of this Appendix shall be filed with the Commission, except agreements related to transportation to be performed within or between foreign countries and agreements among common carriers to establish, operate, or maintain a marine terminal in the United States. In the case of an oral agreement, a complete memorandum specifying in detail the substance of the agreement shall be filed. The Commission may by regulation prescribe the form and manner in which an agreement shall be filed and the additional information and documents necessary to evaluate the agreement.

(b) Conference agreements

Each conference agreement must—

(1) state its purpose;

(2) provide reasonable and equal terms and conditions for admission and readmission to conference membership for any ocean common carrier willing to serve the particular trade or route;

(3) permit any member to withdraw from conference membership upon reasonable notice without penalty;

(4) at the request of any member, require an independent neutral body to police fully the obligations of the conference and its members;

(5) prohibit the conference from engaging in conduct prohibited by section 1709(c)(1) or (3) of this Appendix;

(6) provide for a consultation process designed to promote—

(A) commercial resolution of disputes, and

(B) cooperation with shippers in preventing and eliminating malpractices;

(7) establish procedures for promptly and fairly considering shippers' requests and complaints; and

(8) provide that any member of the conference may take independent action on any rate or service item required to be filed in a tariff under section 1707(a) of this Appendix upon not more than 10 calendar days' notice to the conference and that the conference will include the new rate or service item in its tariff for use by that member, effective no later than 10 calendar days after receipt of the notice, and by any other member that notifies the conference that it elects to adopt the independent rate or service item on or after its effective date, in lieu of the existing

conference tariff provision for that rate or service item.

(c) Interconference agreements

Each agreement between carriers not members of the same conference must provide the right of independent action for each carrier. Each agreement between conferences must provide the right of independent action for each conference.

(d) Assessment agreements

Assessment agreements shall be filed with the Commission and become effective on filing. The Commission shall thereafter, upon complaint filed within 2 years of the date of the agreement, disapprove, cancel, or modify any such agreement, or charge or assessment pursuant thereto, that it finds, after notice and hearing, to be unjustly discriminatory or unfair as between carriers, shippers, or ports. The Commission shall issue its final decision in any such proceeding within 1 year of the date of filing of the complaint. To the extent that an assessment or charge is found in the proceeding to be unjustly discriminatory or unfair as between carriers, shippers, or ports, the Commission shall remedy the unjust discrimination or unfairness for the period of time between the filing of the complaint and the final decision by means of assessment adjustments. These adjustments shall be implemented by prospective credits or debits to future assessments or charges, except in the case of a complainant who has ceased activities subject to the assessment or charge, in which case reparation may be awarded. Except for this subsection and section 1706(a) of this Appendix, this chapter, the Shipping Act, 1916 [46 App. U.S.C. 801 et seq.], and the Intercoastal Shipping Act, 1933 [46 App. U.S.C. 843 et seq.], do not apply to assessment agreements.

(e) Maritime labor agreements

This chapter, the Shipping Act, 1916 [46 App. U.S.C. 801 et seq.], and the Intercoastal Shipping Act, 1933 [46 App. U.S.C. 843 et seq.], do not apply to maritime labor agreements. This subsection does not exempt from this chapter, the Shipping Act, 1916, or the Intercoastal Shipping Act, 1933, any rates, charges, regulations, or practices of a common carrier that are required to be set forth in a tariff, whether or not those rates, charges, regulations, or practices arise out of, or are otherwise related to, a maritime labor agreement.

Section Referred to in Other Sections

This section is referred to in sections 1705, 1706, 1709, 1710 of this Appendix.

§ 1705. Action on agreements

(a) Notice

Within 7 days after an agreement is filed, the Commission shall transmit a notice of its filing to the Federal Register for publication.

(b) Review standard

The Commission shall reject any agreement filed under section 1704(a) of this Appendix that, after preliminary review, it finds does not meet the requirements of section 1704 of this Appendix. The Commission shall notify in writing the person filing the agreement of the reason for rejection of the agreement.

(c) Review and effective date

Unless rejected by the Commission under subsection (b) of this section, agreements, other than assessment agreements, shall become effective—

(1) on the 45th day after filing, or on the 30th day after notice of the filing is published in the Federal Register, whichever day is later; or

(2) if additional information or documentary material is requested under subsection (d) of this section, on the 45th day after the Commission receives—

(A) all the additional information and documentary material requested; or

(B) if the request is not fully complied with, the information and documentary material submitted and a statement of the reasons for noncompliance with the request. The period specified in paragraph (2) may be extended only by the United States District Court for the District of Columbia upon an application of the Commission under subsection (i) of this section.

(d) Additional information

Before the expiration of the period specified in subsection (c)(1) of this section, the Commission may request from the person filing the agreement any additional information and documentary material it deems necessary to make the determinations required by this section.

(e) Request for expedited approval

The Commission may, upon request of the filing party, shorten the review period specified in subsection (c) of this section, but in no event to a date less than 14 days after notice of the filing of the agreement is published in the Federal Register.

(f) Term of agreements

The Commission may not limit the effectiveness of an agreement to a fixed term.

(g) Substantially anticompetitive agreements

If, at any time after the filing or effective date of an agreement, the Commission determines that the agreement is likely, by a reduction in competition, to produce an unreasonable reduction in transportation service or an unreasonable increase in transportation cost, it may, after notice to the person filing the agreement, seek appropriate injunctive relief under subsection (h) of this section.

(h) Injunctive relief

The Commission may, upon making the determination specified in subsection (g) of this section, bring suit in the United States District Court for the District of Columbia to enjoin operation of the agreement. The court may issue a temporary restraining order or preliminary injunction and, upon a showing that the agreement is likely, by a reduction in competition, to produce an unreasonable reduction in transportation service or an unreasonable increase in transportation cost, may enter a permanent injunction. In a suit under this subsection, the burden of proof is on the Commission. The court may not allow a third party to intervene with respect to a claim under this subsection.

(i) Compliance with informational needs

If a person filing an agreement, or an officer, director, partner, agent, or employee thereof, fails substantially to comply with a request for the submission of additional information or documentary material within the period specified in subsection (c) of this section, the United States District Court for the District of Columbia, at the request of the Commission—

(1) may order compliance;

(2) shall extend the period specified in subsection (c)(2) of this section until there has been substantial compliance; and

(3) may grant such other equitable relief as the court in its discretion determines necessary or appropriate.

(j) Nondisclosure of submitted material

Except for an agreement filed under section 1704 of this Appendix, information and documentary material filed with the Commission under section 1704 of this Appendix or this section is exempt from disclosure under section 552 of title 5 and may not be made public except as may be relevant to an administrative or judicial action or proceeding. This section does not prevent disclosure to either body of Congress or to a duly authorized committee or subcommittee of Congress.

(k) Representation

Upon notice to the Attorney General, the Commission may represent itself in district court proceedings under subsections (h) and (i) of this section and section 1710(h) of this Appendix. With the approval of the Attorney General, the Commission may represent itself in proceedings in the United States Courts of Appeal under subsections (h) and (i) of this section and section 1710(h) of this Appendix.

§ 1707. Tariffs

(a) In general

(1) Except with regard to bulk cargo, forest products, recycled metal scrap, waste paper, and paper waste, each common carrier and conference shall file with the Commission, and keep open to public inspection, tariffs showing all its rates, charges, classifications, rules, and practices between all points or ports on its own route and on any through transportation route that has been established. However, common carriers shall not be required to state separately or otherwise reveal in tariff filings the inland divisions of a through rate. Tariffs shall—

(B) list each classification of cargo in use;

(C) state the level of ocean freight forwarder compensation, if any, by a carrier or conference;

(D) state separately each terminal or other charge, privilege, or facility under the control of the carrier or conference and any rules or regulations that in any way change, affect, or determine any part or the aggregate of the rates or charges; and

(E) include sample copies of any loyalty contract, bill of lading, contract of affreightment, or other document evidencing the transportation agreement.

(2) Copies of tariffs shall be made available to any person, and a reasonable charge may be assessed for them.

Rates shown in tariffs filed under subsection (a) of this section may vary with the volume of cargo offered over a specified period of time.

(c) Service contracts

An ocean common carrier or conference may enter into a service contract with a shipper or shippers' association subject to the requirements of this chapter. Except for service contracts dealing with bulk cargo, forest products, recycled metal scrap, waste paper, or paper waste, each contract entered into under this subsection shall be filed confidentially with the Commission, and at the same time, a concise statement of its essential terms shall be filed with the Commission and made available to the general public in tariff format, and those essential terms shall be available to all shippers similarly situated. The essential terms shall include—

(1) the origin and destination port ranges in the case of port-to-port movements, and the origin and destination geographic areas in the case of through intermodal movements;

(2) the commodity or commodities involved;

(3) the minimum volume;

(4) the line-haul rate;

(5) the duration;

(6) service commitments; and

(7) the liquidated damages for nonperformance, if any.

The exclusive remedy for a breach of a contract entered into under this subsection shall be an action in an appropriate court, unless the parties otherwise agree.

(d) Rates

No new or initial rate or change in an existing rate that results in an increased cost to the shipper may become effective earlier than 30 days after filing with the Commission. The Commission, for good cause, may allow such a new or initial rate or change to become effective in less than 30 days. A change in an existing rate that results in a decreased cost to the shipper may become effective upon publication and filing with the Commission.

(e) Refunds

The Commission may, upon application of a carrier or shipper, permit a common carrier or conference to refund a portion of freight charges collected from a shipper or to waive the collection of a portion of the charges from a shipper if—

(1) there is an error in a tariff of a clerical or administrative nature or an error due to inadvertence in failing to file a new tariff and the refund will not result in discrimination among shippers, ports, or carriers;

(2) the common carrier or conference has, prior to filing an application for authority to make a refund, filed a new tariff with the Commission that sets forth the rate on which the refund or waiver would be based;

(3) the common carrier or conference agrees that if permission is granted by the Commission, an appropriate notice will be published in the tariff, or such other steps taken as the Commission may require that give notice of the rate on which the refund or waiver would be based, and additional refunds or waivers as appropriate shall be made with respect to other shipments in the manner prescribed by the Commission in its order approving the application; and

(4) the application for refund or waiver is filed with the Commission within 180 days from the date of shipment.

(f) Form

The Commission may by regulation prescribe the form and manner in which the tariffs required by this section shall be published and filed. The Commission may reject a tariff that is not filed in conformity with this section and its regulations. Upon rejection by the Commission, the tariff is void and its use is unlawful.

(Pub. L. 98-237, § 8, Mar. 20, 1984, 98 Stat. 74.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1704, 1708, 1719 of this Appendix.

§ 1708. Controlled carriers

(a) Controlled carrier rates

No controlled carrier subject to this section may maintain rates or charges in its tariffs filed with the Commission that are below a level that is just and reasonable, nor may any such carrier establish or maintain unjust or unreasonable classifications, rules, or regulations in those tariffs. An unjust or unreasonable classification, rule, or regulation means one that results or is likely to result in the carriage or handling of cargo at rates or charges that are below a just and reasonable level. The Commission may, at any time after notice and hearing, disapprove any rates, charges, classifications, rules, or regulations that the controlled carrier has failed to demonstrate to be just and reasonable. In a proceeding under this subsection, the burden of proof is on the controlled carrier to demonstrate that its rates, charges, classifications, rules, or regulations are just and reasonable. Rates, charges, classifications, rules, or regulations filed by a controlled carrier that have been rejected, suspended, or disapproved by the Commission are void and their use is unlawful.

(b) Rate standards

For the purpose of this section, in determining whether rates, charges, classifications, rules, or regulations by a controlled carrier are just and reasonable, the Commission may take into account appropriate factors including, but not limited to, whether—

(1) the rates or charges which have been filed or which would result from the pertinent classifications, rules, or regulations are below a level which is fully compensatory to the controlled carrier based upon that carrier's actual costs or upon its constructive costs, which are hereby defined as the costs of another carrier, other than a controlled carrier, operating similar vessels and equipment in the same or a similar trade;

(2) the rates, charges, classifications, rules, or regulations are the same as or similar to those filed or assessed by other carriers in the same trade;

(3) the rates, charges, classifications, rules, or regulations are required to assure movement of particular cargo in the trade; or

(4) the rates, charges, classifications, rules, or regulations are required to maintain acceptable continuity, level, or quality of common carrier service to or from affected ports.

(c) Effective date of rates

Notwithstanding section 1707(d) of this Appendix, the rates, charges, classifications, rules, or regulations of controlled carriers may not, without special permission of the Commission, become effective sooner than the 30th day after the date of filing with the Commission. Each controlled carrier shall, upon the request of the Commission, file, within 20 days of request (with respect to its existing or proposed rates, charges, classifications, rules, or regulations), a statement of justification that sufficiently details the controlled carrier's need and purpose for such rates, charges, classifications, rules, or regulations upon which the Commission may reasonably base its determination of the lawfulness thereof.

(d) Disapproval of rates

Whenever the Commission is of the opinion that the rates, charges, classifications, rules, or regulations filed by a controlled carrier may be unjust and unreasonable, the Commission may issue an order to the controlled carrier to show cause why those rates, charges, classifications, rules, or regulations should not be disapproved. Pending a determination as to their lawfulness in such a proceeding, the Commission may suspend the rates, charges, classifications, rules, or regulations at any time before their effective date. In the case of rates, charges, classifications, rules, or regulations that have already become effective, the Commission may, upon the issuance of an order to show cause, suspend those rates, charges, classifications, rules, or regulations on not less than 60 days' notice to the controlled carrier. No period of suspension under this subsection may be greater than 180 days. Whenever the Commission has suspended any rates, charges, classifications, rules, or regulations under this subsection, the affected carrier may file new rates, charges, classifications, rules, or regulations to take effect immediately during the suspension period in lieu of the suspended rates, charges, classifications, rules, or regulations—except that the Commission may reject the new rates, charges, classifications, rules, or regulations if it is of the opinion that they are unjust and unreasonable.

(e) Presidential review

Concurrently with the publication thereof, the Commission shall transmit to the President each order of suspension or final order of disapproval of rates, charges, classifications, rules, or regulations of a controlled carrier subject to this section. Within 10 days after the receipt or the effective date of the Commission order, the President may request the Commission in writing to stay the effect of the Commission's order if the President finds that the stay is required for reasons of national defense or foreign policy, which reasons shall be specified in the report. Notwithstanding any other law, the Commission shall immediately grant the request by the issuance of an order in which the President's request shall be described. During any such stay, the President shall, whenever practicable, attempt to resolve the matter in controversy by negotiation with representatives of the applicable foreign governments.

(f) Exceptions

This section does not apply to—

(1) a controlled carrier of a state whose vessels are entitled by a treaty of the United States to receive national or most-favored-nation treatment;

(2) a controlled carrier of a state which, on the effective date of this section, has subscribed to the statement of shipping policy contained in note 1 to annex A of the Code of Liberalization of Current Invisible Operations, adopted by the Council of the Organization for Economic Cooperation and Development;

(3) rates, charges, classifications, rules, or regulations of a controlled carrier in any particular trade that are covered by an agreement effective under section 1705 of this Appendix, other than an agreement in which all of the members are controlled carriers not otherwise excluded from the provisions of this subsection;

(4) rates, charges, classifications, rules, or regulations governing the transportation of cargo by a controlled carrier between the country by whose government it is owned or controlled, as defined herein and the United States; or

(5) a trade served exclusively by controlled carriers.

§ 1709. Prohibited acts

(a) In general

No person may—

(1) knowingly and willfully, directly or indirectly, by means of false billing, false classification, false weighing, false report of weight, false measurement, or by any other unjust or unfair device or means obtain or attempt to obtain ocean transportation for property at less than the rates or charges that would otherwise be applicable;

(2) operate under an agreement required to be filed under section 1704 of this Appendix that has not become effective under section 1705 of this Appendix, or that has been rejected, disapproved, or canceled; or

(3) operate under an agreement required to be filed under section 1704 of this Appendix except in accordance with the terms of the agreement or any modifications made by the Commission to the agreement.

(b) Common carriers

No common carrier, either alone or in conjunction with any other person, directly or indirectly, may—

(1) charge, demand, collect, or receive greater, less, or different compensation for the transportation of property or for any service in connection therewith than the rates and charges that are shown in its tariffs or service contracts;

(6) except for service contracts, engage in any unfair or unjustly discriminatory practice in the matter of—

(A) rates;

(B) cargo classifications;

(C) cargo space accommodations or other facilities, due regard being had for the proper loading of the vessel and the available tonnage;

(D) the loading and landing of freight; or

(E) the adjustment and settlement of claims;

(7) employ any fighting ship;

(8) offer or pay any deferred rebates;

(9) use a loyalty contract, except in conformity with the antitrust laws;

(11) except for service contracts, make or give any undue or unreasonable preference or advantage to any particular person, locality, or description of traffic in any respect whatsoever;

(12) subject any particular person, locality, or description of traffic to an unreasonable refusal to deal or any undue or unreasonable prejudice or disadvantage in any respect whatsoever;

(13) refuse to negotiate with a shippers' association; or

(14) knowingly disclose, offer, solicit, or receive any information concerning the nature, kind, quantity, destination, consignee, or routing of any property tendered or delivered to a common carrier without the consent of the shipper or consignee if that information—

(A) may be used to the detriment or prejudice of the shipper or consignee;

(B) may improperly disclose its business transaction to a competitor; or

(C) may be used to the detriment or prejudice of any common carrier.

Nothing in paragraph (14) shall be construed to prevent providing such information, in response to legal process, to the United States, or to an independent neutral body operating within the scope of its authority to fulfill the policing obligations of the parties to an agreement effective under this chapter. Nor shall it be prohibited for any ocean common carrier that is a party to a conference agreement approved under this chapter, or any receiver, trustee, lessee, agent, or employee of that carrier, or any other person authorized by that carrier to receive information, to give information to the conference or any person, firm, corporation, or agency designated by the conference, or to prevent the conference or its designee from soliciting or receiving information for the purpose of determining whether a shipper or consignee has breached an agreement with the conference or its member lines or for the purpose of determining whether a member of the conference has breached the conference agreement, or for the purpose of compiling statistics of cargo movement, but the use of such information for any other purpose prohibited by this chapter or any other Act is prohibited.

(c) Concerted action

No conference or group of two or more common carriers may—

(1) boycott or take any other concerted action resulting in an unreasonable refusal to deal;

(2) engage in conduct that unreasonably restricts the use of intermodal services or technological innovations;

(3) engage in any predatory practice designed to eliminate the participation, or deny the entry, in a particular trade of a common carrier not a member of the conference, a group of common carriers, an ocean tramp, or a bulk carrier;

(4) negotiate with a nonocean carrier or group of nonocean carriers (for example, truck, rail, or air operators) on any matter relating to rates or services provided to ocean common carriers within the United States by those nonocean carriers: *Provided*, That this paragraph does not prohibit the setting and publishing of a joint through rate by a conference, joint venture, or an association of ocean common carriers;

(5) deny in the export foreign commerce of the United States compensation to an ocean freight forwarder or limit that compensation to less than a reasonable amount; or

(6) allocate shippers among specific carriers that are parties to the agreement or prohibit a carrier that is a party to the agreement from soliciting cargo from a particular shipper, except as otherwise required by the law of the United States or the importing or exporting country, or as agreed to by a shipper in a service contract.

(d) Common carriers, ocean freight forwarders, and marine terminal operators

(1) No common carrier, ocean freight forwarder, or marine terminal operator may fail to establish, observe, and enforce just and reasonable regulations and practices relating to or connected with receiving, handling, storing, or delivering property.

(2) No marine terminal operator may agree with another marine terminal operator or with a common carrier to boycott, or unreasonably discriminate in the provision of terminal services to, any common carrier or ocean tramp.

(3) The prohibitions in subsection (b)(11), (12), and (14) of this section apply to marine terminal operators.

(e) Joint ventures

For purposes of this section, a joint venture or consortium of two or more common carriers but operated as a single entity shall be treated as a single common carrier.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1704, 1710, 1712 of this Appendix.

§ 1710. Complaints, investigations, reports, and reparations

(a) Filing of complaints

Any person may file with the Commission a sworn complaint alleging a violation of this chapter, other than section 1705(g) of this Appendix, and may seek reparation for any injury caused to the complainant by that violation.

(b) Satisfaction or investigation of complaints

The Commission shall furnish a copy of a complaint filed pursuant to subsection (a) of this section to the person named therein who shall, within a reasonable time specified by the Commission, satisfy the complaint or answer it in writing. If the complaint is not satisfied, the Commission shall investigate it in an appropriate manner and make an appropriate order.

(c) Commission investigations

The Commission, upon complaint or upon its own motion, may investigate any conduct or agreement that it believes may be in violation of this chapter. Except in the case of an injunction granted under subsection (h) of this section, each agreement under investigation under this section remains in effect until the Commission issues an order under this subsection. The Commission may by order disapprove, cancel, or modify any agreement filed under section 1704(a) of this Appendix that operates in violation of this chapter. With respect to agreements inconsistent with section 1705(g) of this Appendix, the Commission's sole remedy is under section 6(h) of this Appendix.

(d) Conduct of investigation

Within 10 days after the initiation of a proceeding under this section, the Commission shall set a date on or before which its final decision will be issued. This date may be extended for good cause by order of the Commission.

(e) Undue delays

If, within the time period specified in subsection (d) of this section, the Commission determines that it is unable to issue a final decision because of undue delays caused by a party to the proceedings, the Commission may impose sanctions, including entering a decision adverse to the delaying party.

(f) Reports

The Commission shall make a written report of every investigation made under this chapter in which a hearing was held stating its conclusions, decisions, findings of fact, and order. A copy of this report shall be furnished to all parties. The Commission shall publish each report for public information, and the published report shall be competent evidence in all courts of the United States.

(g) Reparations

For any complaint filed within 3 years after the cause of action accrued, the Commission shall, upon petition of the complainant and after notice and hearing, direct payment of reparations to the complainant for actual injury (which, for purposes of this subsection, also includes the loss of interest at commercial rates compounded from the date of injury) caused by a violation of this chapter plus reasonable attorney's fees. Upon a showing that the injury was caused by activity that is prohibited by section 1709(b)(5) or (7) of this Appendix or section 1709(c)(1) or (3) of this Appendix, or that violates section 1709(a)(2) or (3) of this Appendix, the Commission may direct the payment of additional amounts; but the total recovery of a complainant may not exceed twice the amount of the actual injury. In the case of injury caused by an activity that is prohibited by section 1709(b)(6)(A) or (B) of this Appendix, the amount of the injury shall be the difference between the rate paid by the injured shipper and the most favorable rate paid by another shipper.

(h) Injunction

(1) In connection with any investigation conducted under this section, the Commission may bring suit in a district court of the United States to enjoin conduct in violation of this chapter. Upon a showing that standards for granting injunctive relief by courts of equity are met and after notice to the defendant, the court may grant a temporary restraining order or preliminary injunction for a period not to exceed 10 days after the Commission has issued an order disposing of the issues under investigation. Any such suit shall be brought in a district in which the defendant resides or transacts business.

(2) After filing a complaint with the Commission under subsection (a) of this section, the complainant may file suit in a district court of the United States to enjoin conduct in violation of this chapter. Upon a showing that standards for granting injunctive relief by courts of equity are met and after notice to the defendant, the court may grant a temporary restraining order or preliminary injunction for a period not to exceed 10 days after the Commission has issued an order disposing of the complaint. Any such suit shall be brought in the district in which the defendant has been sued by the Commission under paragraph (1); or, if no suit has been filed, in a district in which the defendant resides or transacts business. A defendant that prevails in a suit under this paragraph shall be allowed reasonable attorney's fees to be assessed and collected as part of the costs of the suit.

(Pub. L. 98-237, § 11, Mar. 20, 1984, 98 Stat. 80; Pub. L. 98-595, § 3(b)(2), Oct. 30, 1984, 98 Stat. 3132.)

AMENDMENTS

1984—Subsec. (g). Pub. L. 98-595 substituted "section 1709(c)(1) or (3) of this Appendix" for "section 1709(c)(1) or (4) of this Appendix".

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 1705 of this Appendix.

§ 1711. Subpenas and discovery

(a) In general

In investigations and adjudicatory proceedings under this chapter—

(1) depositions, written interrogatories, and discovery procedures may be utilized by any party under rules and regulations issued by the Commission that, to the extent practicable, shall be in conformity with the rules applicable in civil proceedings in the district courts of the United States; and

(2) the Commission may by subpena compel the attendance of witnesses and the production of books, papers, documents, and other evidence.

(b) Witness fees

Witnesses shall, unless otherwise prohibited by law, be entitled to the same fees and mileage as in the courts of the United States.

(Pub. L. 98-237, § 12, Mar. 20, 1984, 98 Stat. 81.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 1712 of this Appendix.

§ 1712. Penalties

(a) Assessment of penalty

Whoever violates a provision of this chapter, a regulation issued thereunder, or a Commission order is liable to the United States for a civil penalty. The amount of the civil penalty, unless otherwise provided in this chapter, may not exceed $5,000 for each violation unless the violation was willfully and knowingly committed, in which case the amount of the civil penalty may not exceed $25,000 for each violation. Each day of a continuing violation constitutes a separate offense.

(b) Additional penalties

(1) For a violation of section 1709(b)(1), (2), (3), (4), or (8) of this Appendix, the Commission may suspend any or all tariffs of the common carrier, or that common carrier's right to use any or all tariffs of conferences of which it is a member, for a period not to exceed 12 months.

(2) For failure to supply information ordered to be produced or compelled by subpena under section 1711 of this Appendix, the Commission may, after notice and an opportunity for hearing, suspend any or all tariffs of a common carrier, or that common carrier's right to use any or all tariffs of conferences of which it is a member.

(3) A common carrier that accepts or handles cargo for carriage under a tariff that has been suspended or after its right to utilize that tariff has been suspended is subject to a civil penalty of not more than $50,000 for each shipment.

(4) If, in defense of its failure to comply with a subpena or discovery order, a common carrier alleges that documents or information located in a foreign country cannot be produced because of the laws of that country, the Commis-

sion shall immediately notify the Secretary of State of the failure to comply and of the allegation relating to foreign laws. Upon receiving the notification, the Secretary of State shall promptly consult with the government of the nation within which the documents or information are alleged to be located for the purpose of assisting the Commission in obtaining the documents or information sought.

(5) If, after notice and hearing, the Commission finds that the action of a common carrier, acting alone or in concert with any person, or a foreign government has unduly impaired access of a vessel documented under the laws of the United States to ocean trade between foreign ports, the Commission shall take action that it finds appropriate, including the imposition of any of the penalties authorized under paragraphs (1), (2), and (3) of this subsection.

(6) Before an order under this subsection becomes effective, it shall be immediately submitted to the President who may, within 10 days after receiving it, disapprove the order if the President finds that disapproval is required for reasons of the national defense or the foreign policy of the United States.

(c) Assessment procedures

Until a matter is referred to the Attorney General, the Commission may, after notice and an opportunity for hearing, assess each civil penalty provided for in this chapter. In determining the amount of the penalty, the Commission shall take into account the nature, circumstances, extent, and gravity of the violation committed and, with respect to the violator, the degree of culpability, history of prior offenses, ability to pay, and such other matters as justice may require. The Commission may compromise, modify, or remit, with or without conditions, any civil penalty.

(d) Review of civil penalty

A person against whom a civil penalty is assessed under this section may obtain review thereof under chapter 158 of title 28.

(e) Failure to pay assessment

If a person fails to pay an assessment of a civil penalty after it has become final or after the appropriate court has entered final judgment in favor of the Commission, the Attorney General at the request of the Commission may seek to recover the amount assessed in an appropriate district court of the United States. In such an action, the court shall enforce the Commission's order unless it finds that the order was not regularly made or duly issued.

(f) Limitations

(1) No penalty may be imposed on any person for conspiracy to violate section 1709(a)(1), (b)(1), or (b)(4) of this Appendix, or to defraud the Commission by concealment of such a violation.

(2) Each proceeding to assess a civil penalty under this section shall be commenced within 5 years from the date the violation occurred.

(Pub. L. 98-237, § 13, Mar. 20, 1984, 98 Stat. 82.)

§ 1713. Commission orders

(a) In general

Orders of the Commission relating to a violation of this chapter or a regulation issued thereunder shall be made, upon sworn complaint or on its own motion, only after opportunity for hearing. Each order of the Commission shall continue in force for the period of time specified in the order or until suspended, modified, or set aside by the Commission or a court of competent jurisdiction.

(b) Reversal or suspension of orders

The Commission may reverse, suspend, or modify any order made by it, and upon application of any party to a proceeding may grant a rehearing of the same or any matter determined therein. No rehearing may, except by special order of the Commission, operate as a stay of that order.

(c) Enforcement of nonreparation orders

In case of violation of an order of the Commission, or for failure to comply with a Commission subpena, the Attorney General, at the request of the Commission, or any party injured by the violation, may seek enforcement by a United States district court having jurisdiction over the parties. If, after hearing, the court determines that the order was properly made and duly issued, it shall enforce the order by an appropriate injunction or other process, mandatory or otherwise.

(d) Enforcement of reparation orders

(1) In case of violation of an order of the Commission for the payment of reparation, the person to whom the award was made may seek enforcement of the order in a United States district court having jurisdiction of the parties.

(2) In a United States district court the findings and order of the Commission shall be prima facie evidence of the facts therein stated, and the petitioner shall not be liable for costs, nor for the costs of any subsequent stage of the proceedings, unless they accrue upon his appeal. A petitioner in a United States district court who prevails shall be allowed reasonable attorney's fees to be assessed and collected as part of the costs of the suit.

(3) All parties in whose favor the Commission has made an award of reparation by a single order may be joined as plaintiffs, and all other parties in the order may be joined as defendants, in a single suit in a district in which any one plaintiff could maintain a suit against any one defendant. Service of process against a defendant not found in that district may be made in a district in which is located any office of, or point of call on a regular route operated by, that defendant. Judgment may be entered in favor of any plaintiff against the defendant liable to that plaintiff.

(e) Statute of limitations

An action seeking enforcement of a Commission order must be filed within 3 years after the date of the violation of the order.

(Pub. L. 98-237, § 14, Mar. 20, 1984, 98 Stat. 83.)

§ 1714. Reports and certificates

(a) Reports

The Commission may require any common carrier, or any officer, receiver, trustee, lessee, agent, or employee thereof, to file with it any periodical or special report or any account, record, rate, or charge, or memorandum of any facts and transactions appertaining to the business of that common carrier. The report, account, record, rate, charge, or memorandum shall be made under oath whenever the Commission so requires, and shall be furnished in the form and within the time prescribed by the Commission. Conference minutes required to be filed with the Commission under this section shall not be released to third parties or published by the Commission.

(b) Certification

The Commission shall require the chief executive officer of each common carrier and, to the extent it deems feasible, may require any shipper, shippers' association, marine terminal operator, ocean freight forwarder, or broker to file a periodic written certification made under oath with the Commission attesting to—

(1) a policy prohibiting the payment, solicitation, or receipt of any rebate that is unlawful under the provisions of this chapter;

(2) the fact that this policy has been promulgated recently to each owner, officer, employee, and agent thereof;

(3) the details of the efforts made within the company or otherwise to prevent or correct illegal rebating; and

(4) a policy of full cooperation with the Commission in its efforts to end those illegal practices.

Whoever fails to file a certificate required by the Commission under this subsection is liable to the United States for a civil penalty of not more than $5,000 for each day the violation continues.

(Pub. L. 98-237, § 15, Mar. 20, 1984, 98 Stat. 84; Pub. L. 98-595, § 3(b)(3), Oct. 30, 1984, 98 Stat. 3133.)

AMENDMENTS

1984—Subsec. (b). Pub. L. 98-595 substituted "Whoever fails to file a certificate required by the Commission under this subsection is liable to the United States for" for "Failure to file a certificate shall result in" before "a civil penalty".

§ 1715. Exemptions

The Commission, upon application or on its own motion, may by order or rule exempt for the future any class of agreements between persons subject to this chapter or any specified activity of those persons from any requirement of this chapter if it finds that the exemption will not substantially impair effective regulation by the Commission, be unjustly discriminatory, result in a substantial reduction in competition, or be detrimental to commerce. The Commission may attach conditions to any exemption and may, by order, revoke any exemption. No order or rule of exemption or revocation of exemption may be issued unless opportunity for hearing has been afforded interested persons and departments and agencies of the United States.

(Pub. L. 98-237, § 16, Mar. 20, 1984, 98 Stat. 84.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 1706 of this Appendix.

§ 1716. Regulations

(a) The Commission may prescribe rules and regulations as necessary to carry out this chapter.

(b) The Commission may prescribe interim rules and regulations necessary to carry out this chapter. For this purpose, the Commission is excepted from compliance with the notice and comment requirements of section 553 of title 5. All rules and regulations prescribed under the authority of this subsection that are not earlier superseded by final rules shall expire no later than 270 days after March 20, 1984.

(Pub. L. 98-237, § 17, Mar. 20, 1984, 98 Stat. 84.)

§ 1717. Agency reports and Advisory Commission

(1) increases or decreases in the level of tariffs;

(2) changes in the frequency or type of common carrier services available to specific ports or geographic regions;

(3) the number and strength of independent carriers in various trades; and

(4) the length of time, frequency, and cost of major types of regulatory proceedings before the Commission.

(b) Consultation with other departments and agencies

The Commission shall consult with the Department of Transportation, the Department of Justice, and the Federal Trade Commission annually concerning data collection. The Department of Transportation, the Department of Justice, and the Federal Trade Commission shall at all times have access to the data collected under this section to enable them to provide comments concerning data collection.

(c) Agency reports

(1) Within 6 months after expiration of the 5-year period specified in subsection (a) of this section, the Commission shall report the information, with an analysis of the impact of this chapter, to Congress, to the Advisory Commission on Conferences in Ocean Shipping established in subsection (d) of this section, and to the Department of Transportation, the Department of Justice, and the Federal Trade Commission.

(2) Within 60 days after the Commission submits its report, the Department of Transportation, the Department of Justice, and the Federal Trade Commission shall furnish an analysis of the impact of this chapter to Congress and

to the Advisory Commission on Conferences in Ocean Shipping.

(3) The reports required by this subsection shall specifically address the following topics:

(A) the advisability of adopting a system of tariffs based on volume and mass of shipment;

(B) the need for antitrust immunity for ports and marine terminals; and

(C) the continuing need for the statutory requirement that tariffs be filed with and enforced by the Commission.

(d) Establishment and composition of Advisory Commission

(1) Effective 5½ years after March 20, 1984, there is established the Advisory Commission on Conferences in Ocean Shipping (hereinafter referred to as the "Advisory Commission").

Such station licenses as the Commission may grant shall be in such general form as it may prescribe, but each license shall contain, in addition to other provisions, a statement of the following conditions to which such license shall be subject: (1) The station license shall not vest in the licensee any right to operate the station nor any right in the use of the frequencies designated in the license beyond the term thereof nor in any other manner than authorized therein; (2) neither the license nor the right granted thereunder shall be assigned or otherwise transferred in violation of this chapter; (3) every license issued under this chapter shall be subject in terms to the right of use or control conferred by section 606 of this title.

[See main edition for text of (i)*]*

(As amended Oct. 30, 1984, Pub. L. 98-549, § 6(b)(1), 98 Stat. 2804.)

Amendments

1984—Subsec. (h). Pub. L. 98-549 substituted "section 706" for "section 606" in the original to accommodate renumbering of sections in subchapter VI (section 601 et seq.) of this chapter by section 6(a) of Pub. L. 98-549. Because both sections translate as "section 606 of this title", the amendment by section 6(b)(1) of Pub. L. 98-549 resulted in no change in text.

Effective Date of 1984 Amendment

Amendment by Pub. L. 98-549 to take effect 60 days after Oct. 30, 1984, except where otherwise expressly provided, see section 9(a) of Pub. L. 98-549, set out as a note under section 521 of this title.

§ 310. License ownership restrictions

[See main edition for text of (a) *to* (d)*]*

(e) Administration of regional concentration rules for broadcast stations

(1) In the case of any broadcast station, and any ownership interest therein, which is excluded from the regional concentration rules by reason of the savings provision for existing facilities provided by the First Report and Order adopted March 9, 1977 (docket No. 20548; 42 Fed. Reg. 16145), the exclusion shall not terminate solely by reason of changes made in the technical facilities of the station to improve its service.

(2) For purposes of this subsection, the term "regional concentration rules" means the provisions of sections 73.35, 73.240, and 73.636 of title 47, Code of Federal Regulations (as in effect June 1, 1983), which prohibit any party from directly or indirectly owning, operating, or controlling three broadcast stations in one or several services where any two of such stations are within 100 miles of the third (measured city-to-city), and where there is a primary service contour overlap of any of the stations.

(As amended Dec. 8, 1983, Pub. L. 98-214, § 7, 97 Stat. 1469.)

§ 316. Modification by Commission of station licenses or construction permits; burden of proof

(a)(1) Any station license or construction permit may be modified by the Commission either for a limited time or for the duration of the term thereof, if in the judgment of the Commission such action will promote the public interest, convenience, and necessity, or the provisions of this chapter or of any treaty ratified by the United States will be more fully complied with. No such order of modification shall become final until the holder of the license or permit shall have been notified in writing of the proposed action and the grounds and reasons therefor, and shall be given reasonable opportunity, of at least thirty days, to protest such proposed order of modification; except that, where safety of life or property is involved, the Commission may by order provide, for a shorter period of notice.

(2) Any other licensee or permittee who believes its license or permit would be modified by the proposed action may also protest the proposed action before its effective date.

(3) A protest filed pursuant to this subsection shall be subject to the requirements of section 309 of this title for petitions to deny.

(b) In any case where a hearing is conducted pursuant to the provisions of this section, both the burden of proceeding with the introduction of evidence and the burden of proof shall be upon the Commission; except that, with respect to any issue that addresses the question of whether the proposed action would modify the license or permit of a person described in subsection (a)(2) of this section, such burdens shall be as determined by the Commission.

(As amended Dec. 8, 1983, Pub. L. 98-214, § 4(a), 97 Stat. 1467.)

AMENDMENTS

1983—Subsec. (a)(1). Pub. L. 98-214, § 4(a)(1), designated existing provisions as par. (1) and in par. (1) as so designated substituted "and shall be given reasonable opportunity, of at least thirty days, to protest such proposed order of modification; except that, where safety of life or property is involved, the Commission may by order provide, for a shorter period of notice" for "and shall have been given reasonable opportunity, in no event less than thirty days, to show cause by public hearing, if requested, why such order of modification should not issue: *Provided*, That where safety of life or property is involved, the Commission may by order provide for a shorter period of notice".

[*See main edition for text of* (*D*), (*2*)]

(3)(A)(i) The Corporation shall establish an annual budget for use in allocating amounts from the Fund. Of the amounts appropriated into the Fund available for allocation for any fiscal year—

(I) not more than 5 percent of such amounts shall be available for the administrative expenses of the Corporation;

(II) not less than 5 percent of such amounts shall be available for other expenses incurred by the Corporation, including research, training, technical assistance, engineering, instructional support, payment of interest on indebtedness, capital costs relating to telecommunications satellites, the payment of programming royalties and other fees, and the costs of interconnection facilities and operations (as provided in clause (iv)(I)), except that the total amount available for obligation for any fiscal year under this subclause and subclause (I) shall not exceed 10 percent of the amounts appropriated into the Fund available for allocation for such fiscal year;

(III) 75 percent of the remainder (after allocations are made under subclause (I) and subclause (II)) shall be allocated in accordance with clause (ii)(I); and

(iv)(I) Subject to the provisions of clause (v), the Corporation shall defray an amount equal to 50 percent of the total costs of interconnection facilities and operations to facilitate the availability of public television and radio programs among public broadcast stations.

(II) Of the amounts received as the result of any contract, lease agreement, or any other arrangement under which the Corporation directly or indirectly makes available interconnection facilities, 50 percent of such amounts shall be distributed to the licensees and permittees of public television stations and public radio stations. The balance of the portion reserved for television stations and the total portion reserved for radio stations under paragraph (3)(A)(iii)(I) shall be distributed to licensees and permittees of such stations in accordance with eligibility criteria that promote the public interest in public broadcasting, and on the basis of a formula designed to—

[See main edition for text of (7) to (9)]

(10) Funds may not be distributed pursuant to this subsection to the Public Broadcasting Service or National Public Radio (or any successor organization) unless assurances are provided to the Corporation that no officer or employee of the Public Broadcasting Service or National Public Radio (or any successor organization), as the case may be, will be compensated at an annual rate of pay which exceeds the rate of basic pay in effect from time to time for level I of the Executive Schedule under section 5312 of title 5, and unless further assurances are provided to the Corporation that no officer or employee of such an entity will be loaned money by that entity on an interest-free basis.

(B) Not later than fifteen days after December 8, 1983, the Corporation shall report to the appropriate committees of the Congress on actions taken by National Public Radio to meet the conditions described in subparagraph (A) and on actions taken by the Corporation with respect to the indebtedness of National Public Radio related to deficits accumulated before October 1, 1983. § 532. Cable channels for commercial use

(a) Purpose

The purpose of this section is to assure that the widest possible diversity of information sources are made available to the public from cable systems in a manner consistent with growth and development of cable systems.

(b) Designation of channel capacity for commercial use

(1) A cable operator shall designate channel capacity for commercial use by persons unaffiliated with the operator in accordance with the following requirements:

(A) An operator of any cable system with 36 or more (but not more than 54) activated channels shall designate 10 percent of such channels which are not otherwise required for use (or the use of which is not prohibited) by Federal law or regulation.

(B) An operator of any cable system with 55 or more (but not more than 100) activated channels shall designate 15 percent of such channels which are not otherwise required for use (or the use of which is not prohibited) by Federal law or regulation.

(C) An operator of any cable system with more than 100 activated channels shall designate 15 percent of all such channels.

(D) An operator of any cable system with fewer than 36 activated channels shall not be required to designate channel capacity for commercial use by persons unaffiliated with the operator, unless the cable system is required to provide such channel capacity under the terms of a franchise in effect on October 30, 1984.

(E) An operator of any cable system in operation on October 30, 1984, shall not be required to remove any service actually being provided on July 1, 1984, in order to comply with this section, but shall make channel capacity available for commercial use as such capacity becomes available until such time as the cable operator is in full compliance with this section.

(2) Any Federal agency, State, or franchising authority may not require any cable system to designate channel capacity for commercial use by unaffiliated persons in excess of the capacity specified in paragraph (1), except as otherwise provided in this section.

(3) A cable operator may not be required, as part of a request for proposals or as part of a proposal for renewal, subject to section 546 of this title, to designate channel capacity for any use (other than commercial use by unaffiliated persons under this section) except as provided in sections 531 and 557 of this title, but a cable operator may offer in a franchise, or proposal for renewal thereof, to provide, consistent with applicable law, such capacity for other than commercial use by such persons.

(4) A cable operator may use any unused channel capacity designated pursuant to this section until the use of such channel capacity is obtained, pursuant to a written agreement, by a person unaffiliated with the operator.

(5) For the purposes of this section—

(A) the term "activated channels" means those channels engineered at the headend of the cable system for the provision of services generally available to residential subscribers of the cable system, regardless of whether such services actually are provided, including any channel designated for public, educational, or governmental use; and

(B) the term "commercial use" means the provision of video programming, whether or not for profit.

(6) Any channel capacity which has been designated for public, educational, or governmental use may not be considered as designated under this section for commercial use for purpose of this section.

(c) Use of channel capacity by unaffiliated persons; editorial control; restriction on service

(1) If a person unaffiliated with the cable operator seeks to use channel capacity designated pursuant to subsection (b) of this section for commercial use, the cable operator shall establish, consistent with the purpose of this section, the price, terms, and conditions of such use which are at least sufficient to assure that such use will not adversely affect the operation, financial condition, or market development of the cable system.

(2) A cable operator shall not exercise any editorial control over any video programming provided pursuant to this section, or in any other way consider the content of such programming, except that an operator may consider such content to the minimum extent necessary to establish a reasonable price for the commercial use of designated channel capacity by an unaffiliated person.

(3) Any cable system channel designated in accordance with this section shall not be used to provide a cable service that is being provided over such system on October 30, 1984, if the provision of such programming is intended to avoid the purpose of this section.

(d) Right of action in district court; relief; factors not to be considered by court

Any person aggrieved by the failure or refusal of a cable operator to make channel capacity available for use pursuant to this section may bring an action in the district court of the United States for the judicial district in which the cable system is located to compel that such capacity be made available. If the court finds that the channel capacity sought by such person has not been made available in accordance with this section, or finds that the price, terms, or conditions established by the cable operator are unreasonable, the court may order such system to make available to such person the channel capacity sought, and further determine the appropriate price, terms, or conditions for such use consistent with subsection (c) of this section, and may award actual damages if it deems such relief appropriate. In any such action, the court shall not consider any price, term, or condition established between an operator and an affiliate for comparable services.

(e) Petition to Commission; relief

(1) Any person aggrieved by the failure or refusal of a cable operator to make channel capacity available pursuant to this section may petition the Commission for relief under this subsection upon a showing of prior adjudicated violations of this section. Records of previous adjudications resulting in a court determination that the operator has violated this section shall be considered as sufficient for the showing necessary under this subsection. If the Commission finds that the channel capacity sought by such person has not been made available in accordance with this section, or that the price, terms, or conditions established by such system are unreasonable under subsection (c) of this section, the Commission shall, by rule or order, require such operator to make available such channel capacity under price, terms, and conditions consistent with subsection (c) of this section.

(2) In any case in which the Commission finds that the prior adjudicated violations of this section constitute a pattern or practice of violations by an operator, the Commission may also establish any further rule or order necessary to assure that the operator provides the diversity of information sources required by this section.

(3) In any case in which the Commission finds that the prior adjudicated violations of this section constitute a pattern or practice of violations by any person who is an operator of more than one cable system, the Commission may also establish any further rule or order necessary to assure that such person provides the diversity of information sources required by this section.

(f) Presumption of reasonableness and good faith

In any action brought under this section in any Federal district court or before the Commission, there shall be a presumption that the price, terms, and conditions for use of channel capacity designated pursuant to subsection (b) of this section are reasonable and in good faith unless shown by clear and convincing evidence to the contrary.

(g) Promulgation of rules

Notwithstanding sections 541(c) and 543(a) of this title, at such time as cable systems with 36 or more activated channels are available to 70 percent of households within the United States and are subscribed to by 70 percent of the households to which such systems are available, the Commission may promulgate any additional rules necessary to provide diversity of information sources. Any rules promulgated by the Commission pursuant to this subsection shall not preempt authority expressly granted to franchising authorities under this subchapter.

(h) Cable service unprotected by Constitution

Any cable service offered pursuant to this section shall not be provided, or shall be provided subject to conditions, if such cable service in the judgment of the franchising authority is obscene, or is in conflict with community standards in that it is lewd, lascivious, filthy, or indecent or is otherwise unprotected by the Constitution of the United States.

(June 19, 1934, ch. 652, title VI, § 612, as added Oct. 30, 1984, Pub. L. 98-549, § 2, 98 Stat. 2782.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 558 of this title.

§ 533. Ownership restrictions

(a) Persons owning or controlling television station licensee

It shall be unlawful for any person to be a cable operator if such person, directly or through 1 or more affiliates, owns or controls, the licensee of a television broadcast station and the predicted grade B contour of such station covers any portion of the community served by such operator's cable system.

(b) Common carriers; direct video programming; exception; waiver

(1) It shall be unlawful for any common carrier, subject in whole or in part to subchapter II of this chapter, to provide video programming directly to subscribers in its telephone service area, either directly or indirectly through an affiliate owned by, operated by, controlled by, or under common control with the common carrier.

(2) It shall be unlawful for any common carrier, subject in whole or in part to subchapter II of this chapter, to provide channels of communications or pole line conduit space, or other rental arrangements, to any entity which is directly or indirectly owned by, operated by, controlled by, or under common control with such common carrier, if such facilities or arrangements are to be used for, or in connection with, the provision of video programming directly to subscribers in the telephone service area of the common carrier.

(3) This subsection shall not apply to any common carrier to the extent such carrier provides telephone exchange service in any rural area (as defined by the Commission).

(4) In those areas where the provision of video programming directly to subscribers through a cable system demonstrably could not exist except through a cable system owned by, operated by, controlled by, or affiliated with the common carrier involved, or upon other showing of good cause, the Commission may, on petition for waiver, waive the applicability of paragraphs (1) and (2) of this subsection. Any such waiver shall be made in accordance with section 63.56 of title 47, Code of Federal Regulations (as in effect September 20, 1984) and shall be granted by the Commission upon a finding that the issuance of such waiver is justified by the particular circumstances demonstrated by the petitioner, taking into account the policy of this subsection.

(c) Promulgation of rules

The Commission may prescribe rules with respect to the ownership or control of cable systems by persons who own or control other media of mass communications which serve the same community served by a cable system.

(d) Regulation of ownership by States or franchising authorities

Any State or franchising authority may not prohibit the ownership or control of a cable system by any person because of such person's ownership or control of any media of mass communications or other media interests.

(e) Holding of ownership interests or exercise of editorial control by States or franchising authorities

(1) Subject to paragraph (2), a State or franchising authority may hold any ownership interest in any cable system.

(2) Any State or franchising authority shall not exercise any editorial control regarding the content of any cable service on a cable system in which such governmental entity holds ownership interest (other than programming on any channel designated for educational or governmental use), unless such control is exercised through an entity separate from the franchising authority.

(f) Combination of interests under prior law

This section shall not apply to prohibit any combination of any interests held by any person on July 1, 1984, to the extent of the interests so held as of such date, if the holding of such interests was not inconsistent with any applicable Federal or State law or regulations in effect on that date.

(g) "Media of mass communications" defined

For purposes of this section, the term "media of mass communications" shall have the meaning given such term under section 309(i)(3)(C)(i) of this title.

PART III—FRANCHISING AND REGULATION

§ 541. General franchise requirements

(a) Authority to award franchises; public rights-of-way and easements; equal access to service

(1) A franchising authority may award, in accordance with the provisions of this subchapter, 1 or more franchises within its jurisdiction.

(2) Any franchise shall be construed to authorize the construction of a cable system over public rights-of-way, and through easements, which is within the area to be served by the cable system and which have been dedicated for compatible uses, except that in using such easements the cable operator shall ensure—

(A) that the safety, functioning, and appearance of the property and the convenience and safety of other persons not be adversely affected by the installation or construction of facilities necessary for a cable system;

(B) that the cost of the installation, construction, operation, or removal of such facilities be borne by the cable operator or subscriber, or a combination of both; and

(C) that the owner of the property be justly compensated by the cable operator for any damages caused by the installation, construction, operation, or removal of such facilities by the cable operator.

(3) In awarding a franchise or franchises, a franchising authority shall assure that access to cable service is not denied to any group of potential residential cable subscribers because of the income of the residents of the local area in which such group resides.

(b) No cable service without franchise; exception under prior law

(1) Except to the extent provided in paragraph (2), a cable operator may not provide cable service without a franchise.

(2) Paragraph (1) shall not require any person lawfully providing cable service without a franchise on July 1, 1984, to obtain a franchise unless the franchising authority so requires.

(c) Status of cable system as common carrier or utility

Any cable system shall not be subject to regulation as a common carrier or utility by reason of providing any cable service.

(d) Informational tariffs; regulation by States; "State" defined

(1) A State or the Commission may require the filing of informational tariffs for any intrastate communications service provided by a cable system, other than cable service, that would be subject to regulation by the Commission or any State if offered by a common carrier subject, in whole or in part, to subchapter II of this chapter. Such informational tariffs shall specify the rates, terms, and conditions for the provision of such service, including whether it is made available to all subscribers generally, and shall take effect on the date specified therein.

(2) Nothing in this subchapter shall be construed to affect the authority of any State to regulate any cable operator to the extent that such operator provides any communication service other than cable service, whether offered on a common carrier or private contract basis.

(3) For purposes of this subsection, the term "State" has the meaning given it in section 153(v) of this title.

(e) State regulation of facilities serving subscribers in multiple dwelling units

Nothing in this subchapter shall be construed to affect the authority of any State to license or otherwise regulate any facility or combination of facilities which serves only subscribers in one or more multiple unit dwellings under common ownership, control, or management and which does not use any public right-of-way.

(June 19, 1934, ch. 652, title VI, § 621, as added Oct. 30, 1984, Pub. L. 98-549, § 2, 98 Stat. 2786.)

EFFECTIVE DATE

Section to take effect 60 days after Oct. 30, 1984, except where otherwise expressly provided, see section 9(a) of Pub. L. 98-549, set out as a note under section 521 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 522, 532 of this title.

§ 542. Franchise fees

(a) Payment under terms of franchise

Subject to the limitation of subsection (b) of this section, any cable operator may be required under the terms of any franchise to pay a franchise fee.

(b) Amount of fees per annum

For any twelve-month period, the franchise fees paid by a cable operator with respect to any cable system shall not exceed 5 percent of such cable operator's gross revenues derived in such period from the operation of the cable system. For purposes of this section, the 12-month period shall be the 12-month period applicable under the franchise for accounting purposes. Nothing in this subsection shall prohibit a franchising authority and a cable operator from agreeing that franchise fees which lawfully could be collected for any such 12-month period shall be paid on a prepaid or deferred basis; except that the sum of the fees paid during the term of the franchise may not exceed the amount, including the time value of money, which would have lawfully been collected if such fees had been paid per annum.

(c) Increases passed through to subscribers

A cable operator may pass through to subscribers the amount of any increase in a franchise fee, unless the franchising authority demonstrates that the rate structure specified in the franchise reflects all costs of franchise fees and so notifies the cable operator in writing.

(d) Court actions; reflection of costs in rate structures

In any court action under subsection (c) of this section, the franchising authority shall demonstrate that the rate structure reflects all costs of the franchise fees.

(e) Decreases passed through to subscribers

Any cable operator shall pass through to subscribers the amount of any decrease in a franchise fee.

(f) Itemization of franchise fee in bill

A cable operator may designate that portion of a subscriber's bill attributable to the franchise fee as a separate item on the bill.

(g) "Franchise fee" defined

For the purposes of this section—

(1) the term "franchise fee" includes any tax, fee, or assessment of any kind imposed by a franchising authority or other governmental entity on a cable operator or cable subscriber, or both, solely because of their status as such;

(2) the term "franchise fee" does not include—

(A) any tax, fee, or assessment of general applicability (including any such tax, fee, or assessment imposed on both utilities and cable operators or their services but not including a tax, fee, or assessment which is unduly discriminatory against cable operators or cable subscribers);

(B) in the case of any franchise in effect on October 30, 1984, payments which are required by the franchise to be made by the cable operator during the term of such franchise for, or in support of the use of, public, educational, or governmental access facilities;

(C) in the case of any franchise granted after October 30, 1984, capital costs which are required by the franchise to be incurred by the cable operator for public, educational, or governmental access facilities;

(D) requirements or charges incidental to the awarding or enforcing of the franchise, including payments for bonds, security funds, letters of credit, insurance, indemnification, penalties, or liquidated damages; or

(E) any fee imposed under title 17.

(h) Uncompensated services; taxes, fees and other assessments; limitation on fees

(1) Nothing in this chapter shall be construed to limit any authority of a franchising authority to impose a tax, fee, or other assessment of any kind on any person (other than a cable operator) with respect to cable service or other communications service provided by such person over a cable system for which charges are assessed to subscribers but not received by the cable operator.

(2) For any 12-month period, the fees paid by such person with respect to any such cable service or other communications service shall not exceed 5 percent of such person's gross revenues derived in such period from the provision of such service over the cable system.

(i) Regulatory authority of Federal agencies

Any Federal agency may not regulate the amount of the franchise fees paid by a cable operator, or regulate the use of funds derived from such fees, except as provided in this section.

(June 19, 1934, ch. 652, title VI, § 622, as added Oct. 30, 1984, Pub. L. 98-549, § 2, 98 Stat. 2787.)

EFFECTIVE DATE

Section to take effect 60 days after Oct. 30, 1984, except where otherwise expressly provided, see section 9(a) of Pub. L. 98-549, set out as a note under section 521 of this title.

§ 543. Regulation of rates

(a) Limitation on regulatory power of Federal agencies, States, or franchising authorities

Any Federal agency or State may not regulate the rates for the provision of cable service except to the extent provided under this section. Any franchising authority may regulate the rates for the provision of cable service, or any other communications service provided over a cable system to cable subscribers, but only to the extent provided under this section.

(b) Promulgation of regulations; scope; contents; periodic review and amendment

(1) Within 180 days after October 30, 1984, the Commission shall prescribe and make effective regulations which authorize a franchising authority to regulate rates for the provision of basic cable service in circumstances in which a cable system is not subject to effective competition. Such regulations may apply to any franchise granted after the effective date of such regulations. Such regulations shall not apply to any rate while such rate is subject to the provisions of subsection (c) of this section.

(2) For purposes of rate regulation under this subsection, such regulations shall—

(A) define the circumstances in which a cable system is not subject to effective competition; and

(B) establish standards for such rate regulation.

(3) The Commission shall periodically review such regulations, taking into account developments in technology, and may amend such regulations, consistent with paragraphs (1) and (2),

to the extent the Commission determines necessary.

(c) Regulation by franchising authority during initial 2-year period

In the case of any cable system for which a franchise has been granted on or before the effective date of this subchapter, until the end of the 2-year period beginning on such effective date, the franchising authority may, to the extent provided in a franchise—

(1) regulate the rates for the provision of basic cable service, including multiple tiers of basic cable service;

(2) require the provision of any service tier provided without charge (disregarding any installation or rental charge for equipment necessary for receipt of such tier); or

(3) regulate rates for the initial installation or the rental of 1 set of the minimum equipment which is necessary for the subscriber's receipt of basic cable service.

(d) Automatic granting of rate increase requests upon agency inaction within 180-day period; extension

Any request for an increase in any rate regulated pursuant to subsection (b) or (c) of this section for which final action is not taken within 180 days after receipt of such request by the franchising authority shall be deemed to be granted, unless the 180-day period is extended by mutual agreement of the cable operator and the franchising authority.

(e) Additional increases; reduction by amount of increase under franchise provisions

(1) In addition to any other rate increase which is subject to the approval of a franchising authority, any rate subject to regulation pursuant to this section may be increased after the effective date of this subchapter at the discretion of the cable operator by an amount not to exceed 5 percent per year if the franchise (as in effect on the effective date of this subchapter) does not specify a fixed rate or rates for basic cable service for a specified period or periods which would be exceeded if such increase took effect.

(2) Nothing in this section shall be construed to limit provisions of a franchise which permits a cable operator to increase any rate at the operator's discretion; however, the aggregate increases per year allowed under paragraph (1) shall be reduced by the amount of any increase taken such year under such franchise provisions.

(f) Nondiscrimination; facilitation of reception by hearing-impaired individuals

Nothing in this subchapter shall be construed as prohibiting any Federal agency, State, or a franchising authority, from—

(1) prohibiting discrimination among customers of basic cable service, or

(2) requiring and regulating the installation or rental of equipment which facilitates the reception of basic cable service by hearing impaired individuals.

(g) Continued effectiveness of limitation or preemption of regulation under prior State law

Any State law in existence on the effective date of this subchapter which provides for any limitation or preemption of regulation by any franchising authority (or the State or any political subdivision or agency thereof) of rates for cable service shall remain in effect during the 2-year period beginning on such effective date, to the extent such law provides for such limitation or preemption. As used in this section, the term "State" has the meaning given it in section 153(v) of this title.

(h) Report to Congress; recommendations

Not later than 6 years after October 30, 1984, the Commission shall prepare and submit to the Congress a report regarding rate regulation of cable services, including such legislative recommendations as the Commission considers appropriate. Such report and recommendations shall be based on a study of such regulation which the Commission shall conduct regarding the effect of competition in the marketplace.

L. 98-549 provided that: "Nothing in section 623 or 624 of the Communications Act of 1934 [sections 543 and 544 of this title], as added by this Act, shall be construed to allow a franchising authority, or a State or any political subdivision of a State, to require a cable operator to restore, retier, or reprice any cable service which was lawfully eliminated, retiered, or repriced as of September 26, 1984."

Any franchising authority may not regulate the services, facilities, and equipment provided by a cable operator except to the extent consistent with this subchapter.

(b) Requests for proposals; establishment and enforcement of requirements

In the case of any franchise granted after the effective date of this subchapter, the franchising authority, to the extent related to the establishment or operation of a cable system—

(1) in its request for proposals for a franchise (including requests for renewal proposals, subject to section 546 of this title), may establish requirements for facilities and equipment, but may not establish requirements for video programming or other information services; and

(2) subject to section 545 of this title, may enforce any requirements contained within the franchise—

(A) for facilities and equipment; and

(B) for broad categories of video programming or other services.

(c) Enforcement authority respecting franchises effective under prior law

In the case of any franchise in effect on the effective date of this subchapter, the franchising authority may, subject to section 545 of this title, enforce requirements contained within the franchise for the provision of services, facilities, and equipment, whether or not related to the establishment or operation of a cable system.

(d) Cable service unprotected by Constitution

(1) Nothing in this subchapter shall be construed as prohibiting a franchising authority and a cable operator from specifying, in a franchise or renewal thereof, that certain cable services shall not be provided or shall be provided subject to conditions, if such cable services are obscene or are otherwise unprotected by the Constitution of the United States.

(2)(A) In order to restrict the viewing of programming which is obscene or indecent, upon the request of a subscriber, a cable operator shall provide (by sale or lease) a device by which the subscriber can prohibit viewing of a particular cable service during periods selected by that subscriber.

(B) Subparagraph (A) shall take effect 180 days after the effective date of this subchapter.

(e) Technical standards

The Commission may establish technical standards relating to the facilities and equipment of cable systems which a franchising authority may require in the franchise.

(f) Limitation on regulatory powers of Federal agencies, States, or franchising authorities; exceptions

(1) Any Federal agency, State, or franchising authority may not impose requirements regarding the provision or content of cable services, except as expressly provided in this subchapter.

(2) Paragraph (1) shall not apply to—

(A) any rule, regulation, or order issued under any Federal law, as such rule, regulation, or order (i) was in effect on September 21, 1983, or (ii) may be amended after such date if the rule, regulation, or order as amended is not inconsistent with the express provisions of this subchapter; and

(B) any rule, regulation, or order under title 17.

(June 19, 1934, ch. 652, title VI, § 624, as added Oct. 30, 1984, Pub. L. 98-549, § 2, 98 Stat. 2789.)

RESTORATION, RETIREMENT AND REPRICING OF SERVICE PREVIOUSLY ELIMINATED, RETIERED, OR REPRICED

This section not to be construed to allow a franchising authority, or a State or political subdivision thereof, to require a cable operator to restore, retier or reprice cable service previously eliminated, retiered, or repriced as of Sept. 26, 1984, see section 9(b) of Pub. L. 98-549, set out as a note under section 543 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 531, 546 of this title.

§ 545. Modification of franchise obligations

(a) Grounds for modification by franchising authority; public proceeding; time of decision

(1) During the period a franchise is in effect, the cable operator may obtain from the franchising authority modifications of the requirements in such franchise—

(A) in the case of any such requirement for facilities or equipment, including public, educational, or governmental access facilities or equipment, if the cable operator demonstrates that (i) it is commercially impracticable for the operator to comply with such requirement, and (ii) the proposal by the cable operator for modification of such requirement is appropriate because of commercial impracticability; or

(B) in the case of any such requirement for services, if the cable operator demonstrates that the mix, quality, and level of services required by the franchise at the time it was granted will be maintained after such modification.

(2) Any final decision by a franchising authority under this subsection shall be made in a public proceeding. Such decision shall be made within 120 days after receipt of such request by the franchising authority, unless such 120 day period is extended by mutual agreement of the cable operator and the franchising authority.

(b) Judicial proceedings; grounds for modification by court

(1) Any cable operator whose request for modification under subsection (a) of this section has been denied by a final decision of a franchising authority may obtain modification of such franchise requirements pursuant to the provisions of section 555 of this title.

(2) In the case of any proposed modification of a requirement for facilities or equipment, the court shall grant such modification only if the cable operator demonstrates to the court that—

(A) it is commercially impracticable for the operator to comply with such requirement; and

(B) the terms of the modification requested are appropriate because of commercial impracticability.

(3) In the case of any proposed modification of a requirement for services, the court shall grant such modification only if the cable operator demonstrates to the court that the mix, quality, and level of services required by the franchise at the time it was granted will be maintained after such modification.

(c) Rearrangement, replacement, or removal of service

Notwithstanding subsections (a) and (b) of this section, a cable operator may, upon 30 days' advance notice to the franchising authority, rearrange, replace, or remove a particular cable service required by the franchise if—

(1) such service is no longer available to the operator; or

(2) such service is available to the operator only upon the payment of a royalty required under section 801(b)(2) of title 17, which the cable operator can document—

(A) is substantially in excess of the amount of such payment required on the date of the operator's offer to provide such service, and

(B) has not been specifically compensated for through a rate increase or other adjustment.

(d) Rearrangement of particular services from one service tier to another or other offering of service

Notwithstanding subsections (a) and (b) of this section, a cable operator may take such actions to rearrange a particular service from one service tier to another, or otherwise offer the service, if the rates for all of the service tiers involved in such actions are not subject to regulation under section 543 of this title.

(e) Requirements for services relating to public, educational, or governmental access

A cable operator may not obtain modification under this section of any requirement for services relating to public, educational, or governmental access.

(f) "Commercially impracticable" defined

For purposes of this section, the term "commercially impracticable" means, with respect to any requirement applicable to a cable operator, that it is commercially impracticable for the operator to comply with such requirement as a result of a change in conditions which is beyond the control of the operator and the nonoccurrence of which was a basic assumption on which the requirement was based.

(June 19, 1934, ch. 652, title VI, § 625, as added Oct. 30, 1984, Pub. L. 98-549, § 2, 98 Stat. 2790.)

EFFECTIVE DATE

Section to take effect 60 days after Oct. 30, 1984, except where otherwise expressly provided, see section 9(a) of Pub. L. 98-549, set out as a note under section 521 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 544, 555 of this title.

§ 546. Renewal

(a) Commencement of proceedings; public notice and participation

During the 6-month period which begins with the 36th month before the franchise expiration, the franchising authority may on its own initiative, and shall at the request of the cable operator, commence proceedings which afford the public in the franchise area appropriate notice and participation for the purpose of—

(1) identifying the future cable-related community needs and interests; and

(2) reviewing the performance of the cable operator under the franchise during the then current franchise term.

(b) Submission of renewal proposals; contents; time

(1) Upon completion of a proceeding under subsection (a) of this section, a cable operator seeking renewal of a franchise may, on its own initiative or at the request of a franchising authority, submit a proposal for renewal.

(2) Subject to section 544 of this title, any such proposal shall contain such material as the franchising authority may require, including proposals for an upgrade of the cable system.

(3) The franchising authority may establish a date by which such proposal shall be submitted.

(c) Notice of proposal; renewal; preliminary assessment of nonrenewal; administrative review; issues; notice and opportunity for hearing; transcipt; written decision

(1) Upon submittal by a cable operator of a proposal to the franchising authority for the renewal of a franchise, the franchising authority shall provide prompt public notice of such proposal and, during the 4-month period which begins on the completion of any proceedings under subsection (a) of this section, renew the franchise or, issue a preliminary assessment that the franchise should not be renewed and, at the request of the operator or on its own initiative, commence an administrative proceeding, after providing prompt public notice of such proceeding, in accordance with paragraph (2) to consider whether—

(A) the cable operator has substantially complied with the material terms of the existing franchise and with applicable law;

(B) the quality of the operator's service, including signal quality, response to consumer complaints, and billing practices, but without regard to the mix, quality, or level of cable services or other services provided over the system, has been reasonable in light of community needs;

(C) the operator has the financial, legal, and technical ability to provide the services, facilities, and equipment as set forth in the operator's proposal; and

(D) the operator's proposal is reasonable to meet the future cable-related community needs and interests, taking into account the cost of meeting such needs and interests.

(2) In any proceeding under paragraph (1), the cable operator shall be afforded adequate notice and the cable operator and the franchise authority, or its designee, shall be afforded fair opportunity for full participation, including the right to introduce evidence (including evidence related to issues raised in the proceeding under subsection (a) of this section), to require the production of evidence, and to question witnesses. A transcript shall be made of any such proceeding.

(3) At the completion of a proceeding under this subsection, the franchising authority shall issue a written decision granting or denying the

proposal for renewal based upon the record of such proceeding, and transmit a copy of such decision to the cable operator. Such decision shall state the reasons therefor.

(d) Basis for denial

Any denial of a proposal for renewal shall be based on one or more adverse findings made with respect to the factors described in subparagraphs (A) through (D) of subsection (c)(1) of this section, pursuant to the record of the proceeding under subsection (c) of this section. A franchising authority may not base a denial of renewal on a failure to substantially comply with the material terms of the franchise under subsection (c)(1)(A) of this section or on events considered under subsection (c)(1)(B) of this section in any case in which a violation of the franchise or the events considered under subsection (c)(1)(B) of this section occur after the effective date of this subchapter unless the franchising authority has provided the operator with notice and the opportunity to cure, or in any case in which it is documented that the franchising authority has waived its right to object, or has effectively acquiesced.

(e) Judicial review; grounds for relief

(1) Any cable operator whose proposal for renewal has been denied by a final decision of a franchising authority made pursuant to this section, or has been adversely affected by a failure of the franchising authority to act in accordance with the procedural requirements of this section, may appeal such final decision or failure pursuant to the provisions of section 555 of this title.

(2) The court shall grant appropriate relief if the court finds that—

(A) any action of the franchising authority is not in compliance with the procedural requirements of this section; or

(B) in the event of a final decision of the franchising authority denying the renewal proposal, the operator has demonstrated that the adverse finding of the franchising authority with respect to each of the factors described in subparagraphs (A) through (D) of subsection (c)(1) of this section on which the denial is based is not supported by a preponderance of the evidence, based on the record of the proceeding conducted under subsection (c) of this section.

(f) Finality of administrative decision

Any decision of a franchising authority on a proposal for renewal shall not be considered final unless all administrative review by the State has occurred or the opportunity therefor has lapsed.

(g) "Franchise expiration" defined

For purposes of this section, the term "franchise expiration" means the date of the expiration of the term of the franchise, as provided under the franchise, as it was in effect on October 30, 1984.

(h) Alternative renewal procedures

Notwithstanding the provisions of subsections (a) through (g) of this section, a cable operator may submit a proposal for the renewal of a franchise pursuant to this subsection at any time, and a franchising authority may, after affording the public adequate notice and opportunity for comment, grant or deny such proposal at any time (including after proceedings pursuant to this section have commenced). The provisions of subsections (a) through (g) of this section shall not apply to a decision to grant or deny a proposal under this subsection. The denial of a renewal pursuant to this subsection shall not affect action on a renewal proposal that is submitted in accordance with subsections (a) through (g) of this section.

(a) If a renewal of a franchise held by a cable operator is denied and the franchising authority acquires ownership of the cable system or effects a transfer of ownership of the system to another person, any such acquisition or transfer shall be—

(1) at fair market value, determined on the basis of the cable system valued as a going concern but with no value allocated to the franchise itself, or

(2) in the case of any franchise existing on the effective date of this subchapter, at a price determined in accordance with the franchise if such franchise contains provisions applicable to such an acquisition or transfer.

(a) Notice to subscriber regarding personally identifiable information; "personally identifiable information" defined

(1) At the time of entering into an agreement to provide any cable service or other service to a subscriber and at least once a year thereafter, a cable operator shall provide notice in the form of a separate, written statement to such subscriber which clearly and conspicuously informs the subscriber of—

(A) the nature of personally identifiable information collected or to be collected with respect to the subscriber and the nature of the use of such information;

(B) the nature, frequency, and purpose of any disclosure which may be made of such information, including an identification of the types of persons to whom the disclosure may be made;

In the case of subscribers who have entered into such an agreement before the effective date of this section, such notice shall be provided within 180 days of such date and at least once a year thereafter.

(2) For the purpose of this section, the term "assist in intercepting or receiving" shall include the manufacture or distribution of equipment intended by the manufacturer or distributor (as the case may be) for unauthorized reception of any communications service offered over a cable system in violation of subparagraph (1).

§ 554. Equal employment opportunity

(a) Entities within scope of coverage

This section shall apply to any corporation, partnership, association, joint-stock company, or trust engaged primarily in the management or operation of any cable system.

(b) Discrimination prohibited

Equal opportunity in employment shall be afforded by each entity specified in subsection (a) of this section, and no person shall be discriminated against in employment by such entity because of race, color, religion, national origin, age, or sex.

(c) Equal opportunity programs; establishment; maintenance; execution; terms

Any entity specified in subsection (a) of this section shall establish, maintain, and execute a positive continuing program of specific practices designed to ensure equal opportunity in every aspect of its employment policies and practices. Under the terms of its program, each such entity shall—

(1) define the responsibility of each level of management to ensure a positive application and vigorous enforcement of its policy of equal opportunity, and establish a procedure to review and control managerial and supervisory performance;

(2) inform its employees and recognized employee organizations of the equal employment opportunity policy and program and enlist their cooperation;

(3) communicate its equal employment opportunity policy and program and its employment needs to sources of qualified applicants without regard to race, color, religion, national origin, age, or sex, and solicit their recruitment assistance on a continuing basis;

(4) conduct a continuing program to exclude every form of prejudice or discrimination based on race, color, religion, national origin, age, or sex, from its personnel policies and practices and working conditions; and

(5) conduct a continuing review of job structure and employment practices and adopt positive recruitment, training, job design, and other measures needed to ensure genuine equality of opportunity to participate fully in all its organizational units, occupations, and levels of responsibility.

(d) Promulgation and amendment of rules; required provisions; annual statistical report; notice and comment on amendments

(1) Not later than 270 days after the effective date of this section, and after notice and opportunity for hearing, the Commission shall prescribe rules to carry out this section.

(2) Such rules shall specify the terms under which an entity specified in subsection (a) of this section shall, to the extent possible—

(A) disseminate its equal opportunity program to job applicants, employees, and those with whom it regularly does business;

(B) use minority organizations, organizations for women, media, educational institutions, and other potential sources of minority and female applicants, to supply referrals whenever jobs are available in its operation;

(C) evaluate its employment profile and job turnover against the availability of minorities and women in its franchise area;

(D) undertake to offer promotions of minorities and women to positions of greater responsibility;

(E) encourage minority and female entrepreneurs to conduct business with all parts of its operation; and

(F) analyze the results of its efforts to recruit, hire, promote, and use the services of minorities and women and explain any difficulties encountered in implementing its equal employment opportunity program.

(3) Such rules also shall require an entity specified in subsection (a) of this section with more than 5 full-time employees to file with the Commission an annual statistical report identifying by race and sex the number of employees in each of the following full-time and part-time job categories:

(A) officials and managers;
(B) professionals;
(C) technicians;
(D) sales persons;
(E) office and clerical personnel;
(F) skilled craft persons;
(G) semiskilled operatives;
(H) unskilled laborers; and
(I) service workers.

The report shall include the number of minorities and women in the relevant labor market for each of the above categories. The statistical report shall be available to the public at the central office and at every location where more than 5 full-time employees are regularly assigned to work.

(4) The Commission may amend such rules from time to time to the extent necessary to carry out the provisions of this section. Any such amendment shall be made after notice and opportunity for comment.

(e) Annual certification of compliance; periodic investigation of employment practices

(1) On an annual basis, the Commission shall certify each entity described in subsection (a)

of this section as in compliance with this section if, on the basis of information in the possession of the Commission, including the report filed pursuant to subsection (d)(3) of this section, such entity was in compliance, during the annual period involved, with the requirements of subsections (b), (c), and (d) of this section.

(2) The Commission shall, periodically but not less frequently than every five years, investigate the employment practices of each entity described in subsection (a) of this section, in the aggregate, as well as in individual job categories, and determine whether such entity is in compliance with the requirements of subsections (b), (c), and (d) of this section, including whether such entity's employment practices deny or abridge women and minorities equal employment opportunities. As part of such investigation, the Commission shall review whether the entity's reports filed pursuant to subsection (d)(3) of this section accurately reflect employee responsibilities in the reported job classifications.

(f) Substantial failure to comply; penalties; notice to public and franchising authorities

(1) If the Commission finds after notice and hearing that the entity involved has willfully or repeatedly without good cause failed to comply with the requirements of this section, such failure shall constitute a substantial failure to comply with this subchapter. The failure to obtain certification under subsection (e) of this section shall not itself constitute the basis for a determination of substantial failure to comply with this title. For purposes of this paragraph, the term "repeatedly", when used with respect to failures to comply, refers to 3 or more failures during any 7-year period.

(2) Any person who is determined by the Commission, through an investigation pursuant to subsection (e) of this section or otherwise, to have failed to meet or failed to make best efforts to meet the requirements of this section, or rules under this section, shall be liable to the United States for a forfeiture penalty of $200 for each violation. Each day of a continuing violation shall constitute a separate offense. Any entity defined in subsection (a) of this section shall not be liable for more than 180 days of forfeitures which accrued prior to notification by the Commission of a potential violation. Nothing in this paragraph shall limit the forfeiture imposed on any person as a result of any violation that continues subsequent to such notification. In addition, any person liable for such penalty may also have any license under this chapter for cable auxiliary relay service suspended until the Commission determines that the failure involved has been corrected. Whoever knowingly makes any false statement or submits documentation which he knows to be false, pursuant to an application for certification under this section shall be in violation of this section.

(3) The provisions of paragraphs (3) and (4), and the last 2 sentences of paragraph (2), of section 503(b) of this title shall apply to forfeitures under this subsection.

(4) The Commission shall provide for notice to the public and appropriate franchising authorities of any penalty imposed under this section.

(g) Discrimination complaints; investigation; enforcement

Employees or applicants for employment who believe they have been discriminated against in violation of the requirements of this section, or rules under this section, or any other interested person, may file a complaint with the Commission. A complaint by any such person shall be in writing, and shall be signed and sworn to by that person. The regulations under subsection (d)(1) of this section shall specify a program, under authorities otherwise available to the Commission, for the investigation of complaints and violations, and for the enforcement of this section.

(h) "Cable operator" defined; owners of multiple unit dwellings

(1) For purposes of this section, the term "cable operator" includes any operator of any satellite master antenna television system, including a system described in section 522(6)(A) of this title.

(2) Such term does not include any operator of a system which, in the aggregate, serves fewer than 50 subscribers.

(3) In any case in which a cable operator is the owner of a multiple unit dwelling, the requirements of this section shall only apply to such cable operator with respect to its employees who are primarily engaged in cable telecommunications.

(i) Regulatory powers of States and franchising authorities; nonexclusive nature of remedies and enforcement provisions; covered franchises

(1) Nothing in this section shall affect the authority of any State or any franchising authority—

(A) to establish or enforce any requirement which is consistent with the requirements of this section, including any requirement which affords equal employment opportunity protection for employees;

(B) to establish or enforce any provision requiring or encouraging any cable operator to conduct business with enterprises which are owned or controlled by members of minority groups (as defined in section 309(i)(3)(C)(ii) of this title) or which have their principal operations located within the community served by the cable operator; or

(C) to enforce any requirement of a franchise in effect on the effective date of this subchapter.

(2) The remedies and enforcement provisions of this section are in addition to, and not in lieu of, those available under this or any other law.

(3) The provisions of this section shall apply to any cable operator, whether operating pursuant to a franchise granted before, on, or after October 30, 1984.

INTERNATIONAL TELECOMMUNICATIONS SATELLITE ORGANIZATION

Pub. L. 99-93, title I, § 146, Aug. 16, 1985, 99 Stat. 425, provided that:

"(a) POLICY.—The Congress declares that it is the policy of the United States—

"(1) as a party to the International Telecommunications Satellite Organization (hereafter in this section referred to as 'Intelsat'), to foster and support the global commercial communications satellite system owned and operated by Intelsat;

"(2) to make available to consumers a variety of communications satellite services utilizing the space segment facilities of Intelsat and any additional such facilities which are found to be in the national interest and which—

"(A) are technically compatible with the use of the radio frequency spectrum and orbital space by the existing or planned Intelsat space segment, and

"(B) avoid significant economic harm to the global system of Intelsat; and

"(3) to authorize use and operation of any additional space segment facilities only if the obligations of the United States under article XIV(d) of the Intelsat Agreement have been met.

"(b) PRECONDITIONS FOR INTELSAT CONSULTATION.—Before consulting with Intelsat for purposes of coordination of any separate international telecommunications satellite system under article XIV(d) of the Intelsat Agreement, the Secretary of State shall—

"(1) in coordination with the Secretary of Commerce, ensure that any proposed separate international satellite telecommunications system comply with the Executive Branch conditions established pursuant to the Presidential Determination No. 85-2 [49 F.R. 46987]; and

"(2) ensure that one or more foreign authorities have authorized the use of such system consistent with such conditions.

"(c) AMENDMENT OF INTELSAT AGREEMENT.—(1) The Secretary of State shall consult with the United States signatory to Intelsat and the Secretary of Commerce regarding the appropriate scope and character of a modification to article V(d) of the Intelsat Agreement which would permit Intelsat to establish cost-based rates for individual traffic routes, as exceptional circumstances warrant, paying particular attention to the need for avoiding significant economic harm to the global system of Intelsat as well as United States national and foreign policy interests.

"(2)(A) To ensure that rates established by Intelsat for such routes are cost-based, the Secretary of State, in consultation with the Secretary of Commerce and the Chairman of the Federal Communications Commission, shall instruct the United States signatory to Intelsat to ensure that sufficient documentation, including documentation regarding revenues and costs, is provided by Intelsat so as to verify that such rates are in fact cost-based.

"(B) To the maximum extent possible, such documenation [documentation] will be made available to interested parties on a timely basis.

"(3) Pursuant to the consultation under paragraph (1) and taking the steps prescribed in paragraph (2) to provide documentation, the United States shall support an appropriate modification to article V(d) of the Intelsat Agreement to accomplish the purpose described in paragraph (1).

"(d) CONGRESSIONAL CONSULTATION.—In the event that, after United States consultation with Intelsat for the purposes of coordination under article XIV(d) of the Intelsat Agreement for the establishment of a separate international telecommunications satellite system, the Assembly of Parties of Intelsat fails to recommend such a separate system, and the President determines to pursue the establishment of a separate system notwithstanding the Assembly's failure to approve such system, the Secretary of State, after consultation with the Secretary of Commerce, shall submit to the Congress a detailed report which shall set forth—

"(1) the foreign policy reasons for the President's determination, and

"(2) a plan for minimizing any negative effects of the President's action on Intelsat and on United States foreign policy interests.

"(e) NOTIFICATION TO FEDERAL COMMUNICATIONS COMMISSION.—In the event the Secretary of State submits a report under subsection (d), the Secretary, 60 calendar days after the receipt by the Congress of such report, shall notify the Federal Communications Commission as to whether the United States obligations under article XIV(d) of the Intelsat Agreement have been met.

"(f) IMPLEMENTATION.—In implementing the provisions of this section, the Secretary of State shall act in accordance with Executive order 12046 [set out under section 305 of this title].

"(g) DEFINITION.—For the purposes of this section, the term 'separate international telecommunications satellite system' or 'separate system' means a system of one or more telecommunications satellites separate from the Intelsat space segment which is established to provide international telecommunications services between points within the United States and points outside the United States, except that such term shall not include any satellite or system of satellites established—

"(1) primarily for domestic telecommunications purposes and which incidentally provides services on an ancillary basis to points outside the jurisdiction of the United States but within the western hemisphere, or

"(2) solely for unique governmental purposes."

§ 1423a. Power of legislature; limitation on indebtedness of Guam; bond issues; guarantees for purchase by Federal Financing Bank of Guam Power Authority bonds or other obligations; interest rates; default

The legislative power of Guam shall extend to all subjects of legislation of local application not inconsistent with the provisions of this chapter and the laws of the United States applicable to Guam. Taxes and assessments on property, internal revenues, sales, license fees, and royalties for franchises, privileges, and concessions may be imposed for purposes of the government of Guam as may be uniformly provided by the Legislature of Guam, and when necessary to anticipate taxes and revenues, bonds and other obligations may be issued by the government of Guam: *Provided, however*, That no public indebtedness of Guam shall be authorized or allowed in excess of 10 per centum of the aggregate tax valuation of the property in Guam. Bonds or other obligations of the government of Guam payable solely from revenues derived from any public improvement or undertaking shall not be considered public indebtedness of Guam within the meaning of this section. All bonds issued by the government of Guam or by its authority shall be exempt, as to principal and interest, from taxation by the Government of the United States or by the government of Guam, or by any State or Territory or any political subdivision thereof, or by the District of Columbia. The Secretary of the Interior (hereafter in this section referred to as "Secretary") is authorized to guarantee for purchase by the Federal Financing Bank bonds or other obligations of the Guam Power Authority maturing on or before December 31, 1978, which shall be issued in order to refinance short-term notes due or existing on June 1, 1976 and other indebtedness not evidenced by bonds or notes in an aggregate amount of not more than $36 million, and such bank, in addition to its other powers, is authorized to purchase, receive or otherwise acquire these same. The interest rate on obligations purchased by the Federal Financing Bank shall be not less than a rate determined by the Secretary of the Treasury taking into consideration the current average market yield on outstanding marketable obligations of the United States of comparable maturities, adjusted to the nearest one-eighth of 1 per centum, plus 1 per centum per annum. The Secretary, with the concurrence of the Secretary of the Treasury, may extend the guarantee provision of the previous sentence until December 31, 1980. The Secretary, upon determining that the Guam Power Authority is unable to refinance on reasonable terms the obligations purchased by the Federal Financing Bank under the fifth sentence of this section by December 31, 1980, may, with the concurrence of the Secretary of the Treasury, guarantee for purchase by the Federal Financing Bank; and such bank is authorized to purchase, obligations of the Guam Power Authority issued to refinance the principal amount of the obligations guaranteed under the fifth sentence of this section. The obligations that refinance such principal amount shall mature not later than December 31, 1990, and shall bear interest at a rate determined in accordance with section 2285 of title 12. At the request of the Board of Directors of the Guam Power Authority for a second refinancing agreement and conditioned on the approval of the Government of Guam pursuant to the law of Guam, and conditioned on the establishment of an independent rate-making authority by the Government of Guam, the Secretary may guarantee for purchase by the Federal Financing Bank, on or before December 31, 1984, according to an agreement that shall provide for—

(a) substantially equal semiannual installments of principal and interest;

(b) maturity of obligations no later than December 31, 2004;

(c) authority for the Secretary, should there be a violation of a provision of this legislation, or covenants or stipulations contained in the refinancing document and after giving sixty days notice of such violation to the Guam Power Authority and the Governor of Guam, to dismiss members of the Board of Directors or the general manager of the Guam Power Authority, and (1) appoint in their place members or a general manager who shall serve at the pleasure of the Secretary, or (2) contract for the management of the Guam Power Authority; and

(d) an annual simple interest rate of seven per centum; and

the Federal Financing Bank shall purchase such Guam Power Authority obligations if such Guam Power Authority obligations are issued to refinance the principal amount scheduled to mature on December 31, 1990. Should such second refinancing occur, (1) the independent rate-making authority to be established by the Government of Guam, or in its absence, the Board of Directors of the Guam Power Authority, shall establish rates sufficient to satisfy all financial obligations and future capital investment needs of the Guam Power Authority that shall be consistent with generally accepted rate-making practices of public utilities, and (2) the Government of Guam shall not modify the requirements of such refinancing agreement without agreement of the Secretary. There are authorized to be appropriated to the Secretary of the Interior for payment to the Federal Financing Bank such sums as are necessary to pay (1) the repurchase payment required under the fifth paragraph of the December 31, 1980, note from the Guam Power Authority to the Federal Financing Bank and any subsequent repurchase payments required under the second refinancing agreement, and (2) the interest rate differential between the seven per centum to be paid by the Guam Power Authority and the second refinancing agreement and the interest rate that would otherwise be determined in accordance with the above cited section 2285 of title 12. Should the Guam Power Authority fail to pay in full any installment of interest or principal when due on the bonds or other obligations guaranteed under this section, the Secretary of the Treasury, upon notice from the Secretary shall deduct and pay to the Federal Financing Bank or the Secretary, according to their respective interests, such unpaid amounts from sums collected and payable pursuant to section 1421h of this title. Notwithstanding any other provision of law, Acts making appropriations may provide for the withholding of any payments from the United States to the government of Guam which may be or may become due pursuant to any law and offset the amount of such withheld payments against any claim the United States may have against the government of Guam or the Guam Power Authority pursuant to this guarantee. For the purpose of this chapter, under section 3713(a) of title 31 the term "person" includes the government of Guam and the Guam Power Authority. The Secretary may place such stipulations as he deems appropriate on the bonds or other obligations he guarantees.

(As amended Oct. 5, 1984, Pub. L. 98-454, title II, § 203, 98 Stat. 1733.)

(a) Appellate jurisdiction of District Court

Prior to the establishment of the appellate court authorized by section 1424-1(a) of this title, the District Court of Guam shall have such appellate jurisdiction over the local courts of Guam as the legislature may determine: *Provided*, That the legislature may not preclude the review of any judgment or order which involves the Constitution, treaties, or laws of the United States, including this chapter, or any authority exercised thereunder by an officer or agency of the Government of the United States, or the conformity of any law enacted by the legislature of Guam or of any orders or regulations issued or actions taken by the executive branch of the government of Guam with the Constitution, treaties, or laws of the United States, including this chapter, or any authority exercised thereunder by an officer or agency of the United States.

The other judges who are to sit in the appellate division of any session shall be designated by the presiding judge from among the judges who are serving on, or are assigned to, the district court from time to time pursuant to section 1424b of this title: *Provided*, That no more than one of them may be a judge of a court of record of Guam. The concurrence of two judges shall be necessary to any decision of the appellate division of the district court on the merits of an appeal, but the presiding judge alone may make any appropriate orders with respect to an appeal prior to the hearing and determination thereof on the merits and may dismiss an appeal for want of jurisdiction or failure to take or prosecute it in accordance with the applicable law or rules of procedure.

The establishment of that appellate court shall not result in the loss of jurisdiction of the appellate division of the district court over any appeal then pending in it. The rulings of the appellate division of the district court on such appeals may be reviewed in the United States Court of Appeals for the Ninth Circuit and in the Supreme Court notwithstanding the establishment of the appellate court.

Upon the establishment of the appellate court provided for in section 1611(a) of this title all appeals from the decisions of the courts of the Virgin Islands established by local law not previously taken must be taken to that appellate court. The establishment of the appellate court shall not result in the loss of jurisdiction of the district court over any appeal then pending in it. The rulings of the district court on such appeals may be reviewed in the United States Court of Appeals for the Third Circuit and in the Supreme Court notwithstanding the establishment of the appellate court.

Such authority shall include authority for the Comptroller General to conduct or cause to be conducted any of the audits provided for in section 233 of the Compact. The authority provided in this paragraph shall continue for at least three years after the last such grant has been made or assistance has been provided.

"(B) The Comptroller General (and his duly authorized representatives) shall also have authority to review any audit conducted by or on behalf of the Government of the United States. In this connection, the Comptroller General shall have access to such personnel and to such records, documents, working papers, automated data and files, and other information relevant to such review.

The Comptroller General may duplicate any such records, documents, working papers, automated data and files, or other information relevant to such audits.

"(B) Such records, documents, working papers, automated data and files, and other information regarding each such grant or other assistance shall be maintained for at least three years after the date such grant or assistance was provided and in a manner that permits such grants, assistance, and payments to be accounted for distinct from any other funds of the Government of the Federated States of Micronesia.

"(3) Representative status for GAO representatives.—The Comptroller General and his duly authorized representatives shall be accorded the status set forth in Article V of Title One of the Compact.

"(4) Annual financial statements.—As part of the annual report submitted by the Government of the Federated States of Micronesia under section 211 of the Compact, the Government shall include annual financial statements which account for the use of all of the funds provided by the Government of the United States to the Government under the Compact or otherwise. Such financial statements shall be prepared in accordance with generally accepted accounting procedures, except as may otherwise be mutually agreed. Not later than 180 days after the end of the United States fiscal year with respect to which such funds were provided, each such statement shall be submitted to the President for audit and transmission to the Congress.

"(5) Definition of audits.—As used in this subsection, the term 'audits' includes financial, program, and management audits, including determining—

"(4) Report.—The President shall report annually to Congress on the implementation of this subsection. Such report shall provide statistical and other information about the incidence of crimes in the Marshall Islands which have an impact upon United States jurisdictions, and propose measures which the United States and the Marshall Islands should take in order better to prevent and prosecute violations of the laws of the United States and the Marshall Islands. The reports required under section 481(e) of the Foreign Assistance Act of 1961 [22 U.S.C. 2291(e)] shall include relevant information concerning the Marshall Islands.

"(b) Economic Development Plans Review Process.—

"(1) Submission.—Notwithstanding section 211(b) of the Compact, the President may agree to an effective date for the Compact pursuant to section 101(b) of this title if the Government of the Marshall Islands agrees to submit economic development plans consistent with section 211(b) of the Compact to the Government of the United States for concurrence at intervals no greater than every 5 years for the duration of the Compact. Any capital construction project and any planned independent purchase of aircraft which is to be financed (directly or indirectly) through the use of funds provided under section 211 of the Compact shall be identified in the economic development plans.

"(2) United States government review.—The United States shall not concur in those development plans described in paragraph (1) of this subsection until—

"(A) after the President of the United States has conducted a review and reported the findings of the President to the Congress; and

"(B) the Congress has had 30 days (excluding days on which both Houses of Congress are not in session) to review the findings of the President.

"(3) Report.—The President shall complete the review under paragraph (2) and shall report the findings no later than 60 days after the President's receipt of such plans.

"(4) Views and comments.—The report shall include the views of the Secretary of the Interior, the Administrator of the Agency for International Development, and the heads of such other Executive departments as the President may decide to include in the report, as well as any comments which the Marshall Islands may wish to have included.

"(c) Ejit.—(1) The President of the United States shall negotiate with the Government of the Marshall Islands an agreement whereby, without prejudice as to any claims which have been or may be asserted by any party as to rightful title and ownership of any lands on Ejit, the Government of the Marshall Islands shall assure that lands on Ejit used as of January 1, 1985, by the people of Bikini, will continue to be available without charge for their use, until such time as Bikini is restored and inhabitable and the continued use of Ejit is no longer necessary, unless a Marshall Islands court of competent jurisdiction finally determines that there are legal impediments to continued use of Ejit by the people of Bikini.

"(2) If the impediments described in paragraph (1) do arise, the United States will cooperate with the Government of the Marshall Islands in assisting any person adversely affected by such judicial determination to remain on Ejit, or in locating suitable and acceptable alternative lands for such person's use.

"(3) Paragraph (1) shall not be applied in a manner which would prevent the Government of the Marshall Islands from acting in accordance with its constitutional processes to resolve title and ownership claims with respect to such lands or from taking substitute or additional measures to meet the needs of the people of Bikini with their democratically expressed consent and approval.

"(d) Kwajalein Payments.—

"(1) Statement of policy.—The Congress of the United States hereby declares that it is the policy of the United States that payment of funds by the Government of the Marshall Islands to the landowners of Kwajalein Atoll in accordance with the land use agreement dated October 19, 1982, and the related allocation agreements, is required in order to ensure that the Government of the United States will be able to fulfill its obligations and responsibilities under Title Three of the Compact and the subsidiary agreements concluded pursuant thereto.

"(2) Failure to pay.—In the event that the Government of the Marshall Islands fails to make payments in accordance with paragraph (1) of this subsection, the Government of the United States shall initiate procedures under Section 313 of the Compact and consult with the Government of the Marshall Islands with respect to the basis for such nonpayment of funds. The United States shall expeditiously resolve the matter of any non-payment of funds as described in paragraph (1) of this subsection pursuant to Section 313 of the Compact and the authority and responsibility of the Government of the United States for security and defense matters in or relating to the Marshall Islands. This paragraph shall be enforced, as may be necessary, in accordance with section 105(g)(2) of this joint resolution.

"(3) Assistance.—The President is hereby authorized to make loans and grants to the Government of the Marshall Islands for the sole use of the Kwajalein Atoll Development Authority for the benefit of the Kwajalein landowners of amounts sought by such authority for development purposes, pursuant to a development plan for Kwajalein Atoll which such authority has adopted in accordance with applicable laws of the Marshall Islands. Such loans and grants shall be subject to such other terms and conditions as the President, in his discretion, may determine appropriate and necessary.

"(e) Section 177 Agreement.—(1) In furtherance of the purposes of Article I of the Subsidiary Agreement for Implementation of Section 177 of the Compact, the payment of the amount specified therein shall be made by the United States under Article I of the Agreement between the Government of the United States and the Government of the Marshall Islands for the Implementation of Section 177 of the Compact (hereafter in this subsection referred to as the 'Section 177 Agreement') only after the Government of the Marshall Islands has notified the President of the United States as to which investment management firm has been selected by such Government to act as Fund Manager under Article I of the Section 177 Agreement.

"(2) In the event that the President determines that an investment management firm selected by the Government of the Marshall Islands does not meet the requirements specified in Article I of the Section 177 Agreement, the United States shall invoke the conference and dispute resolution procedures of Article II of Title Four of the Compact. Pending the resolution of such a dispute and until a qualified Fund Manager has been designated, the Government of the Marshall Islands shall place the funds paid by the United States pursuant to Article I of the Section 177 Agreement into an interest-bearing escrow account. Upon designation of a qualified Fund Manager, all funds in the escrow account shall be transferred to the control of such Fund Manager for management pursuant to the Section 177 Agreement.

"(3) If the Government of the Marshall Islands determines that some other investment firm should act as Fund Manager in place of the firm first (or subsequently) selected by such Government, the Government of the Marshall Islands shall so notify the President of the United States, identifying the firm selected by such Government to become Fund Manager, and the President shall proceed to evaluate the qualifications of such identified firm.

"(4) At the end of 15 years after the effective date of the Compact, the firm then acting as Fund Manager shall transfer to the Government of the Marshall Islands, or to such account as such Government shall so notify the Fund Manager, all remaining funds and assets being managed by the Fund Manager under the Section 177 Agreement.

"(5) An annual report concerning all actions of the Fund Manager pursuant to the Section 177 Agreement and this joint resolution, including information prepared by the Fund Manager, shall be transmitted by the Government of the Marshall Islands to the Congress. Such report shall include such information (whether received from the Fund Manager or any other source) as relates to the disbursements provided for in Article II of the Section 177 Agreement. Such report shall be made public.

"(f) Nuclear Test Effects.—In approving the Compact, the Congress understands and intends that the peoples of Bikini, Enewetak, Rongelap, and Utrik, who were affected by the United States nuclear weapons testing program in the Marshall Islands, will receive the amounts of $75,000,000 (Bikini); $48,750,000 (Enewetak),[;] $37,500,000 (Rongelap); and $22,500,000 (Utrik), respectively, which amounts shall be paid out of proceeds from the fund established under Article I, section 1 of the subsidiary agreement for the implementation of section 177 of the Compact. The amounts specified in this subsection shall be in addition to any amounts which may be awarded to claimants pursuant to Article IV of the subsidiary agreement for the implementation of Section 177 of the Compact.

"(g) Espousal Provisions.—(1) It is the intention of the Congress of the United States that the provisions of section 177 of the Compact of Free Association and the Agreement between the Government of the United States and the Government of the Marshall Islands for the Implementation of Section 177 of the Compact (hereafter in this subsection referred to as the 'Section 177 Agreement') constitute a full and final settlement of all claims described in Articles X and XI of the Section 177 Agreement, and that any such claims be terminated and barred except insofar as provided for in the Section 177 Agreement.

"(2) In furtherance of the intention of Congress as stated in paragraph (1) of this subsection, the Section 177 Agreement is hereby ratified and approved. It is the explicit understanding and intent of Congress that the jurisdictional limitations set forth in Article XII of such Agreement are enacted solely and exclusively to accomplish the objective of Article X of such Agreement and only as a clarification of the effect of Article X, and are not to be construed or implemented separately from Article X.

"(h) DOE Radiological Health Care Program; USDA Agricultural and Food Programs.—

"(1) Marshall islands program.—Notwithstanding any other provision of law, upon the request of the Government of the Marshall Islands, the President (either through an appropriate department or agency of the United States or by contract with a United States firm) shall continue to provide special medical care and logistical support thereto for the remaining 174 members of the population of Rongelap and Utrik who were exposed to radiation resulting from the 1954 United States thermonuclear 'Bravo' test, pursuant to Public Laws 95-134 and 96-205. Such medical care and its accompanying logistical support shall total $22,500,000 over the first 11 years of the Compact.

"(2) Agricultural and food programs.—Notwithstanding any other provision of law, upon the request of the Government of the Marshall Islands, for the first five years after the effective date of the Compact, the President (either through an appropriate department or agency of the United States or by contract with a United States firm) shall provide technical and other assistance—

"(A) without reimbursement, to continue the planting and agricultural maintenance program on Enewetak;

"(B) without reimbursement, to continue the food programs of the Bikini and Enewetak people described in section 1(d) of Article II of the Subsidiary Agreement for the Implementation of Section 177 of the Compact and for continued waterborne transportation of agricultural products to Enewetak including operations and maintenance of the vessel used for such purposes.

"(3) Payments.—Payments under this subsection shall be provided to such extent or in such amounts as are necessary for services and other assistance provided pursuant to this subsection. It is the sense of Congress that after the periods of time specified in paragraphs (1) and (2) of this subsection, consideration will be given to such additional funding for these programs as may be necessary.

"(i) Rongelap.—(1) Because Rongelap was directly affected by fallout from a 1954 United States thermonuclear test and because the Rongelap people remain unconvinced that it is safe to continue to live on Rongelap Island, it is the intent of Congress to take such steps (if any) as may be necessary to overcome the effects of such fallout on the habitability of Rongelap Island, and to restore Rongelap Island, if necessary, so that it can be safely inhabited. Accordingly, it is the expectation of the Congress that the Government of the Marshall Islands shall use such portion of the funds specified in Article II, section 1(e) of the subsidiary agreement for the implementation of section 177 of the Compact as are necessary for the purpose of contracting with a qualified scientist or group of scientists to review the data collected by the Department of Energy relating to radiation levels and other conditions on Rongelap Island resulting from the thermonuclear test. It is the expectation of the Congress that the Government of the Marshall Islands, after consultation with the people of Rongelap, shall select the party to review such data, and shall contract for such review and for submission of a report to the President of the United States and the Congress as to the results thereof.

"(2) The purpose of the review referred to in paragraph (1) of this subsection shall be to establish whether the data cited in support of the conclusions as to the habitability of Rongelap Island, as set forth in the Department of Energy report entitled: 'The Meaning of Radiation for Those Atolls in the Northern Part of the Marshall Islands That Were Surveyed in 1978', dated November 1982, are adequate and whether such conclusions are fully supported by the data. If the party reviewing the data concludes that such conclusions as to habitability are fully supported by adequate data, the report to the President of the United States and the Congress shall so state. If the party reviewing the data concludes that the data are inadequate to support such conclusions as to habitability or that such conclusions as to habitability are not fully supported by the data, the Government of the Marshall Islands shall contract with an appropriate scientist or group of scientists to undertake a complete survey of radiation and other effects of the nuclear testing program relating to the habitability of Rongelap Island. Such sums as are necessary for such survey and report concerning the results thereof and as to steps needed to restore the habitability of Rongelap Island are authorized to be made available to the Government of the Marshall Islands.

"(3) It is the intent of Congress that such steps (if any) as are necessary to restore the habitability of Rongelap Island and return the Rongelap people to their homeland will be taken by the United States in consultation with the Government of the Marshall Islands and, in accordance with its authority under the Constitution of the Marshall Islands, the Rongelap local government council.

"(j) **Four Atoll Health Care Program.**—(1) Services provided by the United States Public Health Service or any other United States agency pursuant to section 1(a) of Article II of the Agreement for the Implementation of Section 177 of the Compact (hereafter in this subsection referred to as the 'Section 177 Agreement') shall be only for services to the people of the Atolls of Bikini, Enewetak, Rongelap, and Utrik who were affected by the consequences of the United States nuclear testing program, pursuant to the program described in Public Law 95-134 and Public Law 96-205 [see note set out above] and their descendants (and any other persons identified as having been so affected if such identification occurs in the manner described in such public laws). Nothing in this subsection shall be construed as prejudicial to the views or policies of the Government of the Marshall Islands as to the persons affected by the consequences of the United States nuclear testing program.

"(2) At the end of the first year after the effective date of the Compact and at the end of each year thereafter, the providing agency or agencies shall return to the Government of the Marshall Islands any unexpended funds to be returned to the Fund Manager (as described in Article I of the Section 177 Agreement) to be covered into the Fund to be available for future use.

"(3) The Fund Manager shall retain the funds returned by the Government of the Marshall Islands pursuant to paragraph (2) of this subsection, shall invest and manage such funds, and at the end of 15 years after the effective date of the Compact, shall make from the total amount so retained and the proceeds thereof annual disbursements sufficient to continue to make payments for the provision of health services as specified in paragraph (1) of this subsection to such extent as may be provided in contracts between the Government of the Marshall Islands and appropriate United States providers of such health services.

"(k) **Enjebi Community Trust Fund.**—Notwithstanding any other provision of law, the Secretary of the Treasury shall establish on the books of the Treasury of the United States a fund having the status specified in Article V of the subsidiary agreement for the implementation of Section 177 of the Compact, to be known as the 'Enjebi Community Trust Fund' (hereafter in this subsection referred to as the 'Fund'), and shall credit to the Fund the amount of $7,500,000. Such amount, which shall be ex gratia, shall be in addition to and not charged against any other funds provided for in the Compact and its subsidiary agreements, this joint resolution, or any other Act. Upon receipt by the President of the United States of the agreement described in this subsection, the Secretary of the Treasury, upon request of the Government of the Marshall Islands, shall transfer the Fund to the Government of the Marshall Islands, provided that the Government of the Marshall Islands agrees as follows:

"(1) **Enjebi Trust Agreement.**—The Government of the Marshall Islands and the Enewetak Local Government Council, in consultation with the people of Enjebi, shall provide for the creation of the Enjebi Community Trust Fund and the employment of the manager of the Enewetak Fund established pursuant to the Section 177 Agreement as trustee and manager of the Enjebi Community Trust Fund, or, should the manager of the Enewetak Fund not be acceptable to the people of Enjebi, another United States investment manager with substantial experience in the administration of trusts and with funds under management in excess of 250 million dollars.

"(2) **Monitor conditions.**—Upon the request of the Government of the Marshall Islands, the United States shall monitor the radiation and other conditions on Enjebi and within one year of receiving such a request shall report to the Government of the Marshall Islands when the people of Enjebi may resettle Enjebi under circumstances where the radioactive contamination at Enjebi, including contamination derived from consumption of locally grown food products, can be reduced or otherwise controlled to meet whole body Federal radiation protection standards for the general population, including mean annual dose and mean 30-year cumulative dose standards.

"(3) **Resettlement of Enjebi.**—In the event that the United States determines that the people of Enjebi can within 25 years of the date of the enactment of this joint resolution resettle Enjebi under the conditions set forth in paragraph (2) of this subsection, then upon such determination there shall be available to the people of Enjebi from the Fund such amounts as are necessary for the people of Enjebi to do the following, in accordance with a plan developed by the Enewetak Local Government Council and the people of Enjebi, and concurred with by the Government of the Marshall Islands to assure consistency with the government's overall economic development plan:

"(A) Establish a community on Enjebi Island for the use of the people of Enjebi.

"(B) Replant Enjebi with appropriate food-bearing and other vegetation.

"(4) **Resettlement of other location.**—In the event that the United States determines that within 25 years of the date of the enactment of this joint resolution [Jan. 14, 1986] the people of Enjebi cannot resettle Enjebi without exceeding the radiation standards set forth in paragraph (2) of this subsection, then the fund manager shall be directed by the trust instrument to distribute the Fund to the people of Enjebi for their resettlement at some other location in accordance with a plan, developed by the Enewetak Local Government Council and the people of Enjebi and concurred with by the Government of the Marshall Islands, to assure consistency with the government's overall economic development plan.

"(5) **Interest from fund.**—Prior to and during the distribution of the corpus of the Fund pursuant to paragraphs (3) and (4) of this subsection, the people of Enjebi may, if they so request, receive the interest earned by the Fund on no less frequent a basis than quarterly.

"(6) **Disclaimer of liability.**—Neither under the laws of the Marshall Islands nor under the laws of the United States, shall the Government of the United States be liable for any loss or damage to person or property in respect to the resettlement of

Enjebi by the people of Enjebi, pursuant to the provision of this subsection or otherwise.

"(*l*) Bikini Atoll Cleanup.—

"(1) Declaration of policy.—The Congress hereby determines and declares that it is the policy of the United States, to be supported by the full faith and credit of the United States, that because the United States, through its nuclear testing and other activities, rendered Bikini Atoll unsafe for habitation by the people of Bikini, the United States will fulfill its responsibility for restoring Bikini Atoll to habitability, as set forth in paragraphs (2) and (3) of this subsection.

"(2) Cleanup funds.—There are hereby authorized to be appropriated such sums as are necessary to implement the settlement agreement of March 15, 1985, in The People of Bikini, et al. against United States of America, et al., Civ. No. 84-0425 (D. Ha.).

"(3) Conditions of funding.—The funds referred to in paragraph (2) shall be made available pursuant to Article VI, Section 1 of the Compact Section 177 Agreement upon completion of the events set forth in the settlement agreement referred to in paragraph (2) of this subsection.

"(m) Agreement on Audits.—In accordance with section 233 of the Compact, the President of the United States, in consultation with the Comptroller General of the United States, shall negotiate with the Government of the Marshall Islands an agreement which shall provide as follows:

"(1) General authority of the GAO to audit.—

"(A) The Comptroller General of the United States (and his duly authorized representatives) shall have the authority to audit—

"(i) all grants, program assistance, and other assistance provided to the Government of the Marshall Islands under Articles I and II of Title Two of the Compact; and

"(ii) any other assistance provided by the Government of the United States to the Government of the Marshall Islands.

Such authority shall include authority for the Comptroller General to conduct or cause to be conducted any of the audits provided for in section 233 of the Compact. The authority provided in this paragraph shall continue for at least three years after the last such grant has been made or assistance has been provided.

"(B) The Comptroller General (and his duly authorized representatives) shall also have authority to review any audit conducted by or on behalf of the Government of the United States. In this connection, the Comptroller General shall have access to such personnel and to such records, documents, working papers, automated data and files, and other information relevant to such review.

"(2) GAO access to records.—

"(A) In carrying out paragraph (1), the Comptroller General (and his duly authorized representatives) shall have such access to the personnel and (without cost) to records, documents, working papers, automated data and files, and other information relevant to such audits. The Comptroller General may duplicate any such records, documents, working papers, automated data and files, or other information relevant to such audits.

"(B) Such records, documents, working papers, automated data and files, and other information regarding each such grant or other assistance shall be maintained for at least three years after the date such grant or assistance was provided and in a manner that permits such grants, assistance, and payments to be accounted for distinct from any other funds of the Government of the Marshall Islands.

"(3) Representative status for GAO representatives.—The Comptroller General and his duly authorized representatives shall be accorded the status set forth in Article V of Title One of the Compact.

"(4) Annual financial statements.—As part of the annual report submitted by the Government of the Marshall Islands under section 211 of the Compact, the Government shall include annual financial statements which account for the use of all of the funds provided by the Government of the United States to the Government under the Compact or otherwise. Such financial statements shall be prepared in accordance with generally accepted accounting procedures, except as may otherwise be mutually agreed. Not later than 180 days after the end of the United States fiscal year with respect to which such funds were provided, each such statement shall be submitted to the President for audit and transmission to the Congress.

"(5) Definition of audits.—As used in this subsection, the term 'audits' includes financial, program, and management audits, including determining—

"(A) whether the Government of the Marshall Islands has met the requirements set forth in the Compact, or any related agreement entered into under the Compact, regarding the purposes for which such grants and other assistance are to be used; and

"(B) the propriety of the financial transactions of the Government of the Marshall Islands pursuant to such grants or assistance.

"(6) Cooperation by Marshall Islands.—The Government of the Marshall Islands will cooperate fully with the Comptroller General of the United States in the conduct of such audits as the Comptroller General determines necessary to enable the Comptroller General to fully discharge his responsibilities under this joint resolution.

"SEC. 104. INTERPRETATION OF AND UNITED STATES POLICY REGARDING COMPACT OF FREE ASSOCIATION.

"(a) Human Rights.—In approving the Compact, the Congress notes the conclusion in the Statement of Intent of the Report of The Future Political Status Commission of the Congress of Micronesia in July, 1969, that 'our recommendation of a free associated state is indissolubly linked to our desire for such a democratic, representative, constitutional government' and notes that such desire and intention are reaffirmed and embodied in the Constitutions of the Federated States of Micronesia and the Marshall Islands. The Congress also notes and specifically endorses the preamble to the Compact, which affirms that the governments of the parties to the Compact are founded upon respect for human rights and fundamental freedoms for all. The Secretary of State shall include in the annual reports on the status of internationally recognized human rights in foreign countries, which are submitted to the Congress pursuant to sections 116 and 502B of the Foreign Assistance Act of 1961 [22 U.S.C. 2151n, 2304], a full and complete report regarding the status of internationally recognized human rights in the Federated States of Micronesia and the Marshall Islands.

"(b) Immigration.—The rights of a bona fide naturalized citizen of the Marshall Islands or the Federated States of Micronesia to enter the United States, to lawfully engage therein in occupations, and to establish residence therein as a non-immigrant, pursuant to the provisions of section 141(a)(3) of the Compact, shall not extend to any such naturalized citizen with respect to whom circumstances associated with the acquisition of the status of a naturalized citizen are such as to allow a reasonable inference, on the part of appropriate officials of the United States and subject to United States procedural requirements, that such naturalized status was acquired primarily in order to obtain such rights.

"(c) Nonalienation of Lands.—The Congress endorses and encourages the maintenance of the policies of the Government of the Federated States of Micronesia and the Government of the Marshall Islands to regulate, in accordance with their Constitutions and laws, the alienation of permanent and long-term interests in real property so as to restrict the acquisition of such interests to persons of Federated States of Micronesia citizenship and Marshall Islands citizenship, respectively.

"(d) Nuclear Waste Disposal.—In approving the Compact, the Congress understands that the Government of the Federated States of Micronesia and the Government of the Marshall Islands will not permit any other government or any nongovernmental party to conduct, in the Marshall Islands or in the Federated States of Micronesia, any of the activities specified in subsection (a) of section 314 of the Compact.

"(e) Impact of Compact on U.S. Areas.—

"(1) Statement of congressional intent.—In approving the Compact, it is not the intent of the Congress to cause any adverse consequences for the United States territories and commonwealths or the State of Hawaii.

"(2) Annual reports and recommendations.—One year after the date of enactment of this joint resolution [Jan. 14, 1986] and at one year intervals thereafter, the President shall report to the Congress with respect to the impact of the Compact on the United States territories and commonwealths and on the State of Hawaii. Reports submitted pursuant to this paragraph (hereafter in this subsection referred to as 'reports') shall identify any adverse consequences resulting from the Compact and shall make recommendations for corrective action to eliminate those consequences. The reports shall pay particular attention to matters relating to trade, taxation, immigration, labor laws, minimum wages, social systems and infrastructure, and environmental regulation. With regard to immigration, the reports shall include statistics concerning the number of persons availing themselves of the rights described in section 141(a) of the Compact during the year covered by each report. With regard to trade, the reports shall include an analysis of the impact on the economy of American Samoa resulting from imports of canned tuna into the United States from the Federated States of Micronesia and the Marshall Islands.

"(3) Other views.—In preparing the reports, the President shall request the views of the Government of the State of Hawaii, and the governments of each of the United States territories and commonwealths, the Federated States of Micronesia, the Marshall Islands, and Palau, and shall transmit the full text of any such views to the Congress as part of such reports.

"(4) Commitment of congress to redress adverse consequences.—The Congress hereby declares that, if any adverse consequences to United States territories and commonwealths or the State of Hawaii result from implementation of the Compact of Free Association, the Congress will act sympathetically and expeditiously to redress those adverse consequences.

"(5) Definition of u.s. territories and commonwealths.—As used in this subsection, the term 'United States territories and commonwealths' means the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

"(6) Impact costs.—There are hereby authorized to be appropriated for fiscal years beginning after September 30, 1985, such sums as may be necessary to cover the costs, if any, incurred by the State of Hawaii, the territories of Guam and American Samoa, and the Commonwealth of the Northern Mariana Islands resulting from any increased demands placed on educational and social services by immigrants from the Marshall Islands and the Federated States of Micronesia.

"(f) Fisheries Management.—In clarification of Title One, Article II, section 121(b)(1) of the Compact:

"(1) Nothing in the Compact or this joint resolution shall be interpreted as recognition by the United States of any claim by the Federated States of Micronesia or by the Marshall Islands to jurisdiction or authority over highly migratory species of fish during the time such species of fish are found outside the territorial sea of the Federated States of Micronesia or the Marshall Islands.

"(2) It is the understanding of Congress that none of the monies made available pursuant to the Compact or this joint resolution will be used by either the Federated States of Micronesia or the Marshall Islands for enforcement actions against any vessel of the United States on the basis of fishing by any such vessel for highly migratory species of fish outside the territorial sea of the Federated States of Micronesia or the Marshall Islands, respectively, in the absence of a licensing agreement.

"(3) Appropriate United States officials shall apply the policies and provisions of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.) and the Fishermen's Protective Act of 1967 (22 U.S.C. 1971 et seq.) with regard to any action taken by the Federated States of Micronesia or the Marshall Islands affecting any vessel of the United States engaged in fishing for highly migratory species of fish in waters outside the territorial seas of the Federated States of Micronesia or the Marshall Islands, respectively. For the purpose of applying the provisions of section 5 of the Fishermen's Protective Act of 1967 (22 U.S.C. 1975), monies made available to either the Federated States of Micronesia or the Marshall Islands pursuant to the provisions of the Compact or this joint resolution shall be treated as 'assistance to the government of such country under the Foreign Assistance Act of 1961' [22 U.S.C. 2151 et seq.]. For purposes of this Act only, certification by the President in accordance with such section 5 shall be accompanied by a report to Congress on the basis for such certification, and such certification shall have no effect if by law Congress so directs prior to the expiration of 60 days during which Congress is in continuous session following the date of such certification.

"(4) For the purpose of paragraphs (1) and (3) of this subsection—

"(A) The term 'vessel of the United States' has the same meaning as provided in the first section of the Fishermen's Protective Act of 1967 (22 U.S.C. 1971).

"(B) The terms 'fishing' and 'highly migratory species' have the same meanings as provided in paragraphs (10) and (14), respectively, of section 3 of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1802(10) and (14)).

"(5)(A) It is the policy of the United States of America—

"(i) to negotiate and conclude with the governments of the Central, Western, and South Pacific Ocean, including the Federated States of Micronesia and the Marshall Islands, a regional licensing agreement setting forth agreed terms of access for United States tuna vessels fishing in the region; and

"(ii) that such an agreement should overcome existing jurisdictional differences and provide for a mutually beneficial relationship between the United States and the Pacific Island States that will promote the development of the tuna and other latent fisheries resources of the Central, Western, and South Pacific Ocean and the economic development of the region.

"(B) At such time as an agreement referred to in subparagraph (A) is submitted to the Senate for advice and consent to ratification, the Secretary of State, after consultation with the Secretary of Commerce and other interested agencies and concerned governments, shall submit to the Congress a proposed long term regional fisheries development program which may include, but not be limited to—

"(i) exploration for, and stock assessment of, tuna and other fish;

"(ii) improvement of harvesting techniques;

"SEC. 105. SUPPLEMENTAL PROVISIONS.

"(a) Domestic Program Requirements.—Except as may otherwise be provided in this joint resolution, all United States Federal programs and services extended to or operated in the Federated States of Micronesia or the Marshall Islands are and shall remain subject to all applicable criteria, standards, reporting requirements, auditing procedures, and other rules and regulations applicable to such programs when operating in the United States (including its territories and commonwealths).

"(b) Relations With the Federated States of Micronesia and the Marshall Islands.—

"(1) The United States representatives to the Federated States of Micronesia and the Republic of the Marshall Islands pursuant to Article V of title I of the Compact shall be appointed by the President with the advice and consent of the Senate, and shall be under the supervision of the Secretary of State, who shall have responsibility for government to government relations between the United States and the Government with respect to whom they are appointed, consistent with the authority of the Secretary of the Interior as set forth in this section.

Funds appropriated to the Secretary of the Interior pursuant to this paragraph shall not be allocated to other Departments or agencies.

"(3) All programs and services provided to the Federated States of Micronesia and the Republic of the Marshall Islands by Federal agencies may be provided only after consultation with and under the supervision of the Secretary of the Interior, and the head of each Federal agency is directed to cooperate with the Secretary of the Interior and to make such personnel and services available as the Secretary of the Interior may request.

"(4) Any United States Government personnel assigned, on a temporary or permanent basis, to either the Federated States of Micronesia or the Marshall Islands shall, during the period of such assignment, be subject to the supervision of the United States representative to that area.

"(5) The President is hereby authorized to appoint an Interagency Group on Freely Associated States' Affairs to provide policy guidance to federal departments and agencies. Such interagency group shall include the Secretary of the Interior and the Secretary of State.

"(c) Continuing Trust Territory Authorization.—The authorization provided by the Act of June 30, 1954, as amended (68 Stat. 330) [48 U.S.C. 1681, 1681 note, 1681b] shall remain available after the effective date of the Compact with respect to the Federated States of Micronesia and the Marshall Islands for the following purposes:

"(1) Prior to October 1, 1986, for any purpose authorized by the Compact or this joint resolution.

"(2) Transition purposes, including but not limited to, completion of projects and fulfillment of commitments or obligations; termination of the Trust Territory Government and termination of the High Court; health and education as a result of exceptional circumstances; ex gratia contributions for the populations of Bikini, Enewetak, Rongelap, and Utrik; and technical assistance and training in financial management, program administration, and maintenance of infrastructure.

"(d) Medical Referral Debts.—

"(1) Federated states of micronesia.—In addition to the funds provided in Title Two, Article II, section 221(b) of the Compact, following approval of the Compact with respect to the Federated States of Micronesia, the United States shall make available to the Government of the Federated States of Micronesia such sums as may be necessary for the payment of the obligations incurred for the use of medical facilities in the United States, including any territories and commonwealths, by citizens of the Federated States of Micronesia before September 1, 1985.

"(2) Marshall islands.—In addition to the funds provided in Title Two, Article II, section 221(b) of the Compact, following approval of the Compact with respect to the Marshall Islands, the United States shall make available to the Government of the Marshall Islands such sums as may be necessary for the payment of the obligations incurred for the use of medical facilities in the United States, its territories and commonwealths by citizens of the Marshall Islands before September 1, 1985.

"(4) Authorization of Appropriations.—There are hereby authorized to be appropriated such sums as may be necessary for the purposes of this subsection.

"(e) Survivability.—In furtherance of the provisions of Title Four, Article V, sections 452 and 453 of the Compact, any provisions of the Compact which remain effective after the termination of the Compact by the act of any party thereto and which are affected in any manner by provisions of this title shall remain subject to such provisions.

"(f) Registration for Agents of Micronesian Governments.—

"(1) In general.—Notwithstanding the provisions of Title One, Article V, section 153 of the Compact, after approval of the Compact any citizen of the United States who, without authority of the United States, acts as the agent of the Government of the Marshall Islands or the Federated States of Micronesia with regard to matters specified in the provisions of the Foreign Agents Registration Act of 1938, as amended (22 U.S.C. 611 et seq.) that apply with respect to an agent of a foreign principal shall be subject to the requirements of such Act. Failure to comply with such requirements shall subject such citizen to the same penalties and provisions of law as apply in the case of the failure of such an agent of a foreign principal to comply with such requirements. For purposes of the Foreign Agents Registration Act of 1938, the Federated States of Micronesia and the Marshall Islands shall be considered to be foreign countries.

"(2) Exception.—Paragraph (1) of this subsection shall not apply to a citizen of the United States employed by either the Government of the Marshall Islands or the Government of the Federated States of Micronesia with respect to whom the employing Government from time to time certifies to the Government of the United States that such citizen is an employee of the Government of the Marshall Islands or the Government of the Federated States of Micronesia (as the case may be) whose principal duties are other than those matters specified in the Foreign Agents Registration Act of 1938, as amended, that apply with respect to an agent of a foreign principal. "(b) Contents.—The reports required in subsection (a) of this section shall set forth clearly defined policies regarding United States, and United States associated, noncontiguous Pacific areas, including—

"(1) the role of and impacts on the noncontiguous Pacific areas in the formulation and conduct of foreign policy;

"(2) the applicability of standards contained in Federal laws, regulations, and programs to the noncontiguous Pacific areas and any modifications which may be necessary to achieve the intent of such laws, regulations, and programs consistent with the unique character of the noncontiguous Pacific areas;

"(3) the effectiveness of the Federal executive organizational arrangements for—

"(A) providing liaison between the Federal Government and the governments of the noncontiguous Pacific areas;

"(B) coordinating Federal actions in a manner which recognizes the unique circumstances and needs of the noncontiguous Pacific areas; and

SUBCHAPTER II—PENALTIES

§ 521. Civil penalties

[*See main edition for text of* (a)]

(b)(1) If the Secretary finds that a violation of section 3102 of this title or the Motor Carrier Safety Act of 1984, or a violation of a regulation issued under such section or Act, has occurred, the Secretary shall issue a written notice to the violator. Such notice shall describe with reasonable particularity the nature of the violation found and the provision which has been violated. The notice shall fix a reasonable time for abatement of the violation, specify the proposed civil penalty, if any, and suggest actions which might be taken in order to abate the violation. The notice shall indicate that the violator may, within 15 days of service, notify the Secretary of the violator's intention to contest the matter. In the event of a contested notice, the Secretary shall afford such violator an opportunity for a hearing, pursuant to section 554 of title 5, following which the Secretary shall issue an order affirming, modifying, or vacating the notice of violation.

(2) Except as otherwise provided in this subsection, any person who is determined by the Secretary, after notice and opportunity for a hearing, to have committed an act which is a violation of a recordkeeping requirement issued by the Secretary pursuant to section 3102 of this title or the Motor Carrier Safety Act of 1984 shall be liable to the United States for a civil penalty not to exceed $500 for each offense. Each day of a violation shall constitute a separate offense, except that the total of all civil penalties assessed against any violator for all offenses relating to any single violation shall not exceed $2,500. If the Secretary determines that a serious pattern of safety violations, other than recordkeeping requirements, exists or has occurred, the Secretary may assess a civil penalty not to exceed $1,000 for each offense; except that the maximum fine for each such pattern of safety violations shall not exceed $10,000. If the Secretary determines that a substantial health or safety violation exists or has occurred which could reasonably lead to, or has resulted in, serious personal injury or death, the Secretary may assess a civil penalty not to exceed $10,000 for each offense. Notwithstanding any other provision of this section, except for recordkeeping violations, no civil penalty shall be assessed under this section against an employee for a violation unless the Secretary determines that such employee's actions constituted gross negligence or reckless disregard for safety, in which case such employee shall be liable for a civil penalty not to exceed $1,000. The amount of any civil penalty, and a reasonable time for abatement of the violation, shall by written order be determined by the Secretary, taking into account the nature, circumstances, extent, and gravity of the violation committed and, with respect to the violator, the degree of culpability, history of prior offenses, ability to pay, effect on ability to continue to do business, and such other matters as justice and public safety may require. In each case, the assessment shall be calculated to induce further compliance.

(3) The Secretary may require any violator served with a notice of violation to post a copy of such notice or statement of such notice in such place or places and for such duration as the Secretary may determine appropriate to aid in the enforcement of section 3102 of this title or the Motor Carrier Safety Act of 1984, as the case may be.

(4) Such civil penalty may be recovered in an action brought by the Attorney General on behalf of the United States in the appropriate district court of the United States or, before referral to the Attorney General, such civil penalty may be compromised by the Secretary.

(5)(A) If, upon inspection or investigation, the Secretary determines that a violation of section 3102 of this title or the Motor Carrier Safety Act of 1984 or a regulation issued under such section or Act, or combination of such violations, poses an imminent hazard to safety, the Secretary shall order a vehicle or employee operating such vehicle out of service, or order an employer to cease all or part of the employer's commercial motor vehicle operations. In making any such order, the Secretary shall impose no restriction on any employee or employer beyond that required to abate the hazard. Subsequent to the issuance of the order, opportunity for review shall be provided in accordance with section 554 of title 5, except that such review shall occur not later than 10 days after issuance of such order.

(B) In this paragraph, "imminent hazard" means any condition of vehicle, employee, or commercial motor vehicle operations which is likely to result in serious injury or death if not discontinued immediately.

(6) Any person who knowingly and willfully violates any provision of section 3102 of this title, the Motor Carrier Safety Act of 1984, or a regulation issued under such section or Act shall, upon conviction, be subject for each offense for a fine not to exceed $25,000 or imprisonment for a term not to exceed one year, or both, except that, if such violator is an employee, the violator shall only be subject to penalty if, while operating a commercial motor vehicle, the violator's activities have led or could have led to death or serious injury, in which case the violator shall be liable, upon conviction, for a fine not to exceed $2,500.

(7) The Secretary shall issue regulations establishing penalty schedules designed to induce timely compliance for persons failing to comply promptly with the requirements set forth in any notices and orders under this subsection.

(8) Any aggrieved person who, after a hearing, is adversely affected by a final order issued under this section may, within 30 days, petition for review of the order in the United States Court of Appeals in the circuit wherein the violation is alleged to have occurred or where the violator has his principal place of business or residence, or in the United States Court of Appeals for the District of Columbia Circuit. Review of the order shall be based on a determination of whether the Secretary's findings and conclusions were supported by substantial evidence, or were otherwise not in accordance with law. No objection that has not been urged before the Secretary shall be considered by the court, unless reasonable grounds existed for failure or neglect to do so. The commencement of proceedings under this subsection shall not, unless ordered by the court, operate as a stay of the order of the Secretary.

(9) All penalties and fines collected under this section shall be deposited into the Highway Trust Fund (other than the Mass Transit Account).

(10) In any action brought under this section, process may be served without regard to the territorial limits of the district of the State in which the action is brought.

(11) In any proceeding for criminal contempt for violation of an injunction or restraining order issued under this section, trial shall be by the court, or, upon demand of the accused, by a jury, conducted in accordance with the provisions of rule 42(b) of the Federal Rules of Criminal Procedure.

(12) The provisions of this subsection shall not affect any provision of the Hazardous Materials Transportation Act (49 U.S.C. App. 1801-1812) or any regulation promulgated by the Secretary under such Act.

(13) As used in this subsection, the terms "commercial motor vehicle", "employee", "employer", and "State" have the meaning such terms have under section 4 [1] of the Motor Carrier Safety Act of 1984.

(2) The President of the United States may waive the requirements of this section with respect to any contiguous foreign country if the President determines that such waiver is in the national interest and notifies, in writing, the Congress of such waiver before the date on which such waiver is to take effect. In any case in which the requirements of this section apply with respect to a contiguous foreign country which substantially prohibits grants of authority to persons from the United States to provide transportation by motor vehicle for compensation in such foreign country, such waiver shall not take effect before the 60th day following the date on which the Congress is notifed of such waiver.

SUBCHAPTER II—SPECIAL CIRCUMSTANCES

§ 10734. Car utilization

In order to encourage more efficient use of freight cars, notwithstanding any other provision of this subtitle, rail carriers shall be permitted to establish tariffs containing premium charges for special services or special levels of services not provided in any tariff otherwise applicable to the movement. The Commission shall facilitate development of such tariffs so as to increase the utilization of equipment.

(Added Pub. L. 96-448, title II, § 225(a), Oct. 14, 1980, 94 Stat. 1930.)

EFFECTIVE DATE

Section effective Oct. 1, 1980, see section 710(a) of Pub. L. 96-448, set out as an Effective Date of 1980 Amendment note under section 10101 of this title.

(a)(1) Subject to the provisions of paragraph (2) of this subsection, a motor common carrier providing transportation of household goods subject to the jurisdiction of the Commission under subchapter II of chapter 105 of this title may, subject to the provisions of this chapter (including the general tariff requirements of section 10762 of this title), establish a rate for the transportation of household goods which is based on the carrier's written, binding estimate of charges for providing such transportation.

(2) Any rate established under this subsection must be available on a nonpreferential basis to shippers and must not result in charges to shippers which are predatory.

(b)(1) Subject to the provisions of paragraph (2) of this subsection, a motor common carrier providing transportation of household goods subject to the jurisdiction of the Commission under subchapter II of chapter 105 of this title may, subject to the provisions of this chapter (including the general tariff requirements of section 10762 of this title), establish rates for the transportation of household goods which guarantee that the carrier will pick up and deliver such household goods at the times specified in the contract for such services and provide a penalty or per diem payment in the event the carrier fails to pick up or deliver such household goods at the specified time. The charges, if any, for such guarantee and penalty provision may vary to reflect one or more options available to meet a particular shipper's needs but must be contained in the tariff the carrier publishes for such service under this title.[2]

(2) Before a carrier may establish a rate for any service under paragraph (1) of this subsection, the Commission may require such carrier to have in effect and keep in effect, during any period such rate is in effect under such paragraph, a rate for such service which does not guarantee the pick up and delivery of household goods at the times specified in the contract for such services and which does not provide a penalty or per diem payment in the event the carrier fails to pick up or deliver household goods at the specified time.

(Added Pub. L. 96-454, § 4(a), Oct. 15, 1980, 94 Stat. 2012, § 10734, and renumbered § 10735, Pub. L. 98-554, title II, § 227(b)(1), Oct. 30, 1984, 98 Stat. 2852.)

§ 10922. Certificates of motor and water common carriers

[*See main edition for text of (a) to (k)*]

(*l*)(1) Except as provided in paragraph (2) of this subsection, the Commission, notwithstanding any other provision of law (other than such paragraph (2)), shall not issue any certificate to any motor common carrier, any permit to any motor contract carrier, or any certificate of registration under section 10530 of this title to any motor carrier of property or motor private carrier, domiciled in any contiguous foreign country or owned or controlled by persons of any contiguous foreign country in the four-year period beginning on the effective date of this subsection. The President of the United States may extend, beyond such four-year period, such moratorium or impose such a moratorium with respect to any contiguous foreign country or political subdivision thereof which substantially prohibits grants of authority to persons from the United States to provide transportation by motor vehicle for compensation in such foreign country or political subdivision.

(2)(A) The President of the United States may remove or modify, in whole or in part, any moratorium imposed under paragraph (1) of this subsection on the issuance of certificates or permits if the President determines that such removal or modification is in the national interest and notifies, in writing, the Congress of such removal or modification before the date on which such removal or modification is to take effect. In any case in which such moratorium applies to a contiguous foreign country or political subdivision thereof which substantially prohibits grants of authority to persons from the United States to provide transportation by motor vehicle for compensation in such foreign country or political subdivision, such removal or modification shall not take effect before the 60th day following the date on which the Congress is notified of such removal or modification.

(B)(i) Subject to the provisions of this subparagraph, during a moratorium imposed under paragraph (1) of this subsection with respect to any contiguous foreign country or political subdivision thereof, the Commission may issue certificates of registration under section 10530 of this subtitle to motor carriers of property and motor private carriers domiciled in such country or political subdivision and to motor carriers of property and motor private carriers owned or controlled by persons of such country or political subdivision.

(ii) Subject to clause (iv) of this subparagraph, if the person to be issued the certificate of registration during the moratorium is a motor carrier of property domiciled in the foreign country or political subdivision or is a motor carrier of property owned or controlled by persons of the foreign country or political subdivision, such certificate may only authorize such carrier to provide transportation of exempt items in a municipality in the United States which is adjacent to the foreign country or political subdivision, in contiguous municipalities in the United States any one of which is adjacent to the foreign country or political subdivision, or in a zone in the United States that is adjacent to, and commercially a part of, the municipality or municipalities.

(iii) Subject to clause (v) of this subsection, if the person to be issued the certificate of registration during the moratorium is a motor private carrier domiciled in the foreign country or political subdivision or is a motor private carrier owned or controlled by persons of the foreign country or political subdivision, such certificate may only authorize such carrier to provide transportation of property (including exempt items) in a municipality in the United States which is adjacent to the foreign country or political subdivision, in contiguous municipalities in the United States any one of which is adjacent to the foreign country or political subdivision, or in a zone in the United States that is adjacent to, and commercially a part of, the municipality or municipalities.

(iv) If the person to be issued the certificate of registration during the moratorium is a motor carrier of property domiciled in the foreign country or political subdivision and owned or controlled by persons of the United States, such certificate may only authorize such carrier to provide interstate transportation of exempt items.

(v) If the person to be issued the certificate of registration during the moratorium is a motor private carrier domiciled in the foreign country or political subdivision and owned or controlled by persons of the United States, such certificate may only authorize such carrier to provide interstate transportation of property (including exempt items).

(vi) In this subparagraph, the terms "exempt items" and "interstate transportation" have the meanings such terms have under section 10530(a) of this title.

(As amended Pub. L. 98-554, title II, §§ 225(a), (b), 226(b), Oct. 30, 1984, 98 Stat. 2847, 2848, 2850.)

CHAPTER 119—CIVIL AND CRIMINAL PENALTIES

§ 11901. General civil penalties

[*See main edition for text of* (*a*) *to* (*f*)]

(g) A person required to make a report to the Commission, answer a question, or make, prepare, or preserve a record under this subtitle concerning transportation subject to the jurisdiction of the Commission under subchapter II of chapter 105 of this title or transportation provided under a certificate of registration issued under section 10530 of this title, or an officer, agent, or employee of that person that (1) does not make the report, (2) does not specifically, completely, and truthfully answer the question, (3) does not make, prepare, or preserve the record in the form and manner prescribed by the Commission, (4) does not comply with section 10921 of this title, or (5) does not comply with section 10530 of this title, is liable to the United States Government for a civil penalty of not more than $500 for each violation and for not more than $250 for each additional day the violation continues; except that, in the case of a person who does not have authority under this subtitle to provide transportation of passengers, or an officer, agent, or employee of such person, that does not comply with section 10921 of this title with respect to providing transportation of passengers, the amount of the civil penalty shall not be more than $1,000 for each violation and $500 for each additional day the violation continues. After the date of enactment of this sentence, no penalties shall be imposed under this subsection for a violation relating to the transportation of household goods. Any such penalties that were imposed prior to such date of enactment shall be collected only in accordance with the provisions of subsection (l) of this section.

(h) A person subject to the jurisdiction of the Commission under subchapter II of chapter 105 of this title, or an officer, agent, or employee of that person, and who is required to comply with section 10921 of this title but does not so comply with respect to the transportation of hazardous wastes as defined by the Environmental Protection Agency pursuant to section 3001 of the Solid Waste Disposal Act (but not including any waste the regulation of which under the Solid Waste Disposal Act has been suspended by Congress) shall, in any action brought by the Commission, be liable to the United States for a civil penalty not to exceed $20,000 for each violation.

(l)(1) Any person required to make a report to the Commission, answer a question, or make, prepare, or preserve a record under this subtitle concerning transportation of household goods subject to jurisdiction of the Commission under subchapter II of chapter 105 of this title, or an officer, agent, or employee of such person, that (A) does not make the report, (B) does not specifically, completely, and truthfully answer the question, (C) does not make, prepare, or preserve the record in the form and manner prescribed by the Commission, or (D) does not comply with section 10921 of this title, is liable to the United States for a civil penalty of not more than $500 for each violation and of not more than $250 for each additional day during which the violation continues. No penalty shall be imposed under this paragraph for any failure to make, prepare, or preserve the record in the form and manner prescribed by the Commission unless the shipper or shippers have suffered harm as a result of such failure.

(2) In determining and negotiating the amount of a civil penalty under this subsection, the degree of culpability, any history of prior such conduct, the degree of harm to shipper or shippers, ability to pay, the effect on ability to do business, whether the shipper has been adequately compensated before institution of the

proceeding, and such other matters as fairness may require shall be taken into account.

(j)(1) Subject to the provisions of paragraph (3) of this subsection, if a common carrier providing transportation of household goods subject to the jurisdiction of the Commission under subchapter II of chapter 105 of this title or a receiver or trustee of such carrier fails or refuses to comply with any regulation issued by the Commission relating to protection of individual shippers, such carrier, receiver, or trustee is liable to the United States for a civil penalty of not more than $1,000 for each violation and of not more than $500 for each additional day during which the violation continues.

(2)(A) If the Commission determines—

(i) that a common carrier providing transportation of household goods subject to the jurisdiction of the Commission under subchapter II of chapter 105 of this title or a receiver or trustee of such carrier has failed or refused to comply with a regulation issued by the Commission relating to protection of individual shippers in excess of any performance standard established in such regulation; and

(ii) with respect to each such failure or refusal, that the shipper or shippers have suffered harm as a result of such failure or refusal;

the Commission may, in writing, notify the carrier, receiver, or trustee of its determinations and may elect to assess civil penalties under this paragraph for such failures and refusals in lieu of proceeding under paragraph (1) of this subsection with respect to such failures and refusals. If the Commission elects to assess civil penalties under this paragraph, such civil penalties may only be assessed after notice and opportunity for a hearing.

(B) Subject to the provisions of paragraph (3) of this subsection, the amount of a civil penalty which may be assessed under this paragraph for a failure or refusal shall not be more than $1,000 for such failure or refusal and $500 for each additional day during which such failure or refusal continues.

(C) Notwithstanding the provisions of section 1336 of title 28, United States Code, a proceeding to enjoin or suspend, in whole or part, an order issued by the Commission assessing one or more civil penalties under this paragraph may only be brought in the United States court of appeals as provided by and in the manner prescribed in chapter 158 of such title.

(3) The amount of a civil penalty which may be assessed under paragraph (1) or (2) of this subsection for a failure or refusal shall not be more than $500 for such failure or refusal and $250 for each additional day during which such failure or refusal continues if, between the time the carrier, receiver, or trustee receives notice from the Commission of such failure or refusal and the commencement of the assessment hearing or trial, as the case may be, the carrier, receiver, or trustee adequately compensates the shipper or shippers, or offers adequate compensation to the shipper or shippers, for the harm they have suffered as a result of such failure or refusal.

(4)(A) No civil penalty may be imposed under this subsection for a failure or refusal to comply with a regulation issued by the Commission relating to protection of individual shippers unless the shipper or shippers have suffered harm as a result of such failure or refusal.

(B) In addition, no civil penalty may be imposed under this subsection for a failure or refusal to comply with a regulation issued by the Commission relating to protection of individual shippers—

(i) if, before receiving notice from the Commission of such failure or refusal, the carrier, receiver, or trustee adequately compensates the shipper or shippers, or offers adequate compensation to the shipper or shippers, for the harm they have suffered as a result of such failure or refusal; or

(ii) in the case of a carrier, receiver, or trustee that does not know or have reason to know that the shipper or shippers have suffered harm as a result of such failure or refusal before receiving notice from the Commission of such failure or refusal, if such carrier, receiver, or trustee adequately compensates the shipper or shippers, or offers adequate compensation to the shipper or shippers, for such harm before commencement under this subsection of the assessment hearing or trial, as the case may be.

(5) In determining and negotiating the amount of a civil penalty under this subsection, the degree of culpability, any history of prior such conduct, the degree of harm to shipper or shippers, ability to pay, the effect on ability to do business, and such other matters as fairness may require shall be taken into account.

(k) Any person that knowingly engages in or knowingly authorizes an agent or other person (1) to falsify documents used in the transportation of household goods subject to the jurisdiction of the Commission under subchapter II of chapter 105 of this title which evidence the weight of a shipment, or (2) to charge for accessorial services which are not performed or for which the carrier is not entitled to be compensated in any case in which such services are not reasonably necessary in the safe and adequate movement of the shipment, is liable to the United States for a civil penalty of not more than $2,000 for each violation and of not more than $5,000 for each subsequent violation. Any State may bring a civil action in the United States district courts to compel a person to pay a civil penalty assessed under this subsection.

(l)(1) Trial in a civil action under subsections (a)-(f) of this section is in the judicial district in which the carrier has its principal operating office or in a district through which the railroad of the carrier runs.

(2) Trial in a civil action under subsection (g), (h), (i), (j)(1), or (k) of this section is in the judicial district in which (A) the motor carrier or broker has its principal office, (B) the motor carrier or broker was authorized to provide transportation under this subtitle when the violation occurred, (C) the violation occurred, or (D) the offender is found. Process in the action may be served in the judicial district of which the offender is an inhabitant or in which the offender may be found.

§ 1159a. International user charges; survey and report of discriminatory practices; negotiations by relevant Federal departments and agencies for reduction or elimination; payment of compensatory charges; procedure for imposition and accrual

The Secretary of Transportation shall survey the charges made to air carriers by foreign governments or other foreign entities for the use of airport property or airway property in foreign air transportation. If the Secretary of Transportation determines at any time that such charges unreasonably exceed comparable charges for furnishing such airport property or airway property in the United States or are otherwise discriminatory, he shall submit a report on such cases promptly to the Secretary of State, and the Secretary of State, in collaboration with the Secretary of Transportation, shall promptly undertake negotiations with the foreign country involved to reduce such charges or eliminate such discriminations. If within a reasonable period such charges are not reduced or such discriminations eliminated through negotiations, the Secretary of State shall promptly report such instances to the Secretary of Transportation who shall determine compensating charges equal to such excessive or discriminatory charges. Such compensating charges shall, with the approval of the Secretary of State, be imposed on the foreign air carrier or carriers of the country concerned by the Secretary of the Treasury as a condition to acceptance of the general declaration at the time of landing or takeoff of aircraft of such foreign air carrier or carriers. The amounts so collected shall accrue to an account established for that purpose by the Secretary of the Treasury. Payments shall be made from that account to air carriers in such amounts as shall be certified by the Secretary of Transportation in accordance with such regulations as he shall adopt to compensate such air carriers for excessive or discriminatory charges paid by them to the foreign countries involved.

§ 1159b. Discriminatory and unfair competitive practices

(a) Review and remedial activities by relevant Federal departments and agencies

United States air carriers operating in foreign air transportation perform services of vital importance to the foreign commerce of the United States including its balance of payments, to the Postal Service, and to the national defense. Such carriers have become subject to a variety of discriminatory and unfair competitive practices in their competition with foreign air carriers. The Department of State, the Department of the Treasury, the Department of Transportation, and other departments or agencies, therefore, each shall keep under review, to the extent of their respective functions, all forms of discrimination or unfair competitive practices to which United States air carriers are subject in providing foreign air transportation services and each shall take all appropriate actions within its jurisdiction to eliminate such forms of discrimination or unfair competitive practices found to exist.

(b) Actions by Secretary of Transportation to eliminate unjustifiable or unreasonable discriminatory, predatory, or anticompetitive practices of foreign governments or instrumentalities; complaints to Secretary; remedial action; proposed actions submitted to President

(1) Whenever the Secretary of Transportation, upon complaint or upon its own initiative, determines that a foreign government or instrumentality, including a foreign air carrier (A) engages in unjustifiable or unreasonable discriminatory, predatory, or anticompetitive practices against a United States air carrier or (B) imposes unjustifiable or unreasonable restrictions on access of a United States air carrier to foreign markets, the Secretary may take such action as it deems to be in the public interest to eliminate such practices or restrictions. Such actions may include, but are not limited to, the denial, transfer, alteration, modification, amendment, cancellation, suspension, limitation, or revocation of any foreign air carrier permit or tariff pursuant to the powers of the Secretary under the Federal Aviation Act of 1958 [49 App. U.S.C. 1301 et seq.].

(2) Any United States air carrier or any agency of the Government of the United States may file a complaint under this section with the Secretary of Transportation. The Secretary shall approve, deny, dismiss, set such complaint for hearing or investigation, or institute other proceedings proposing remedial action within 60 days after receipt of the complaint. The Secretary may extend the period for taking such action for an additional period or periods of up to 30 days each if the Secretary concludes that it is likely that the complaint can be satisfactorily resolved through negotiations with the foreign government or instrumentality during such additional period, but in no event may the aggregate period for taking action under this subsection exceed 180 days from receipt of the complaint. In considering any complaint, or in any proceedings under its own initiative, under this subsection the Secretary shall (A) solicit the views of the Department of State and (B) provide any affected air carrier or foreign air carrier with reasonable notice and such opportunity to file written evidence and argument as is consistent with acting on the complaint within the time limits set forth in this subsection.

(3) Any action proposed by the Secretary pursuant to this section shall be transmitted to the President pursuant to section 801 of the Federal Aviation Act of 1958 [49 App. U.S.C. 1461].

[*See main edition for text of* (c)]

(d) Annual report to Congress by Secretary of Transportation of remedial activities; information for preparation of report

The Secretary of Transportation shall report annually to Congress on the actions that have been taken under subsection (a) of this section and on the continuing program to eliminate discriminations and unfair competitive practices faced by United States carriers in foreign air transportation. The Secretaries of State and Treasury shall furnish to the Secretary of Transportation such information as may be necessary to prepare the report required by this subsection.

(As amended Pub. L. 98-443, § 9(d), Oct. 4, 1984, 98 Stat. 1706.)

"Section 1. (a) The Secretary of Transportation shall, in the interest of health and safety, and in the interest of promoting and maintaining a superior United States aviation industry, commission an independent study by the National Academy of Sciences. The study shall determine whether civil commercial aviation industry practices and standards and Federal Aviation Administration rules, regulations, and minimum standards are nondiscriminatory and at least in conformance and parity with nonaviation standards, practices, and regulations for the appropriate maintenance of public and occupational health and safety (including de facto circumstances) in relation to airline cabin air quality for all passengers and crew aboard civil commercial aircraft.

"(b) In conducting the study, special and objective considerations shall be given to the uniqueness of the environment onboard civil commercial aircraft. The study shall focus on all health and safety aspects of airline cabin air quality, including but not limited to—

"(1) the quantity of fresh air per occupant and overall quality of air onboard;

"(2) the quantity and quality of humidification;

"(3) onboard environmental conditions and contamination limits, including exposure to radiation;

"(4) emergency breathing equipment, including toxic fume-protective breathing equipment;

"(5) measures, procedures, and capabilities for detecting and extinguishing fires and the removal of smoke and toxic fumes within safe pressurization limits;

"(6) safe pressurization of the aircraft, considering the broad range of cardiopulmonary health of the traveling public, and dissemination of information to the medical profession and the general public of current pressurization limits and practices to assure valid medical advice concerning the health effects of air travel;

"(7) the feasibility of collection and dissemination by the aviation industry, the Federal Aviation Administration, or any other private or governmental organization of a data base of medical statistics and environmental factors relating to air travel, including but not limited to, maintenance and operation records and procedures of aircraft, in an effort to assess the adequacy of aircraft systems, design, regulations, standards and practices relating to airline cabin air quality from the standpoint of health and safety, and for the purpose of issuing Federal Aviation Administration administrative advisory circulars and airworthiness directive regulations to correct any deficiencies disclosed;

"(8) the adequacy of current preflight and inflight health and safety instructions for air travelers that relate to airline cabin air quality, including but not limited to, life safety procedures during inflight fire, smoke, and toxic fume emergencies; and

"(9) a comparison of foreign industry practices, regulations, and standards.

"(c) In conducting the study, special care shall be taken to assure that all existing studies, recommendations, data, and state of the art technology relevant to the health and safety aspects of airline cabin air quality are considered.

"(d) In conducting the study, the National Academy of Sciences shall consult with and solicit the views of academic experts, representatives of airline labor, the aviation industry and independent experts and organizations.

"(e) The study shall include such recommendations for legislative, regulatory, and industry changes as the National Academy of Sciences determines to be advisable for promotion of health and safety in relation to airline cabin air quality.

"SEC. 2. The Secretary of Transportation shall submit a copy of the study, as it was prepared by the National Academy of Sciences, to the Congress within eighteen months after the date of enactment of this Act [Oct. 11, 1984]. At such time the Secretary shall also set forth such comments on the matters covered by the study and such recommendations for legislative, regulatory, and industry changes as the Secretary determines to be necessary.

"SEC. 3. There is authorized to be appropriated not to exceed $500,000 for the fiscal year commencing October 1, 1984, to carry out the study authorized by this Act. Such funds shall remain available for obligation until expended."

SUBCHAPTER V—NATIONALITY AND OWNERSHIP OF AIRCRAFT

§ 1401. Registration of aircraft nationality

[*See main edition for text of* (*a*) *to* (*d*)]

(e) Suspension or revocation

(1) Any such certificate may be suspended or revoked by the Secretary of Transportation for any cause which renders the aircraft ineligible for registration.

(2)(A) The Administrator shall issue an order revoking the certificate of registration issued to an owner under this section for an aircraft and each other certificate of registration held by such owner under this section, if the Administrator determines that—

(i) such aircraft has been used to carry out an activity, or to facilitate an activity, that is punishable by death or imprisonment for a term exceeding one year under a State or Federal law relating to a controlled substance (other than any law relating to simple possession of a controlled substance); and

(ii) the use of the aircraft was permitted by such owner with the knowledge that the aircraft was intended to be used for an activity described in clause (i) of this subparagraph.

For purposes of this paragraph, an owner of an aircraft who is not an individual shall be considered to have permitted the use of an aircraft with knowledge that it was intended to be used for an activity described in clause (i) of this subparagraph only if a majority of the individuals who control such owner or who are involved in forming the major policy of such owner permitted the use of the aircraft with knowledge of such intended use. The Administrator shall not revoke, and the National Transportation Safety Board on appeal under subparagraph (B) shall not affirm the revocation of, a certificate under this paragraph on the basis of any activity if the holder of the certificate is acquitted of all charges contained in an indictment or information which relate to controlled substances and which arise from such activity.

(B) Prior to revoking any certificate of registration under this subsection, the Administrator shall advise the holder thereof of the charges or any reasons relied upon by the Administrator for his proposed action and shall provide the holder of the certificate of registration an opportunity to answer any charges and be heard as to why such certificate should not be revoked. Any person whose certificate of registration is revoked by the Administrator under this subsection may appeal the Administrator's order to the National Transportation Safety Board and the Board shall, after notice and a hearing on the record, affirm or reverse the Administrator's order. In the conduct of its hearings, the National Transportation Safety Board shall not be bound by findings of fact of the Administrator. The filing of an appeal with the National Transportation Safety Board shall stay the effectiveness of the Administrator's order unless the Administrator advises the Board that safety in air commerce or air transportation requires the immediate effectiveness of his order, in which event the order shall remain effective and the Board shall finally dispose of the appeal within 60 days after being so advised by the Administrator. The person substantially affected by the National Transportation Safety Board's order may obtain judicial review of such order under the provisions of section 1486 of this Appendix, and the Administrator shall be made a party to such proceedings.

(C) For purposes of this paragraph, the term "controlled substance" has the meaning given such term by section 802(6) of title 21.

(D) Except as provided in subparagraphs (E) and (F), the Administrator shall not issue a certificate of registration to any person who has had a certificate revoked under subparagraph (A) of this paragraph during the five-year period beginning on the date of such revocation.

(E) The Administrator may issue a certificate of registration for an aircraft to any such person before the end of such five-year period (but not before the end of the one-year period beginning on the date of such revocation) if the Administrator determines that such aircraft is otherwise eligible for registration under this section and (i) that revocation of the certificate for such five-year period would be excessive considering the nature of the offense or the act committed and the burden which revocation places on such person, or (ii) that revocation of the certificate for such five-year period would not be in the public interest. The determinations under clauses (i) and (ii) of the preceding sentence shall be within the discretion of the Administrator and any such determination or failure to make such a determination shall not be subject to administrative or judicial review.

(F) In any case in which the Administrator has revoked the certificate of registration as a result of any activity and such person is subsequently acquitted of all charges contained in an indictment or information which relate to controlled substances and which arise from such activity, the Administrator shall issue a certificate of registration to such person if such person is otherwise qualified for such a certificate under this section.

§ 1422. Airman certificates

[*See main edition for text of* (*a*)]

(b) Application; issuance or denial; petition for review; hearing; determination; issuance of certificates to aliens; revocation; exceptions

(1) Any person may file with the Secretary of Transportation an application for an airman certificate. If the Secretary of Transportation finds, after investigation, that such person possesses proper qualifications for, and is physically able to perform the duties pertaining to, the position for which the airman certificate is sought, he shall issue such certificate, containing such terms, conditions, and limitations as to duration thereof, periodic or special examinations, tests of physical fitness, and other matters as the Secretary of Transportation may determine to be necessary to assure safety in air commerce. Except in the case of persons whose certificates are, at the time of denial, under order of suspension or whose certificates have been revoked within one year of the date of such denial, any person whose application for the issuance or renewal of an airman certificate is denied may file with the National Transportation Safety Board a petition for review of the Secretary of Transportation's action. The National Transportation Safety Board shall thereupon assign such petition for hearing at a place convenient to the applicant's place of residence or employment. In the conduct of such hearing and in determining whether the airman meets the pertinent rules, regulations, or standards, the National Transportation Safety Board shall not be bound by findings of fact of the Secretary of Transportation. At the conclusion of such hearing, the National Transportation Safety Board shall issue its decision as to whether the airman meets the pertinent rules, regulations, and standards and the Secretary of Transportation shall be bound by such decision: *Provided*, That the Secretary of Transportation may, in his discretion, prohibit or restrict the issuance of airman certificates to aliens, or may make such issuance dependent on the terms of reciprocal agreements entered into with foreign governments.

(2)(A) Except as provided in subparagraphs (B) and (C), the Administrator shall not issue an airman certificate to any person whose airman certificate has been revoked under subsection (c) of section 1429 of this Appendix during the five-year period beginning on the date of such revocation.

(B) The Administrator may issue an airman certificate to any such person before the end of such five-year period (but not before the end of the one-year period beginning on the date of such revocation) if, in addition to the findings required by paragraph (1), the Administrator determines (i) that revocation of the certificate for such five-year period would be excessive considering the nature of the offense or the act committed and the burden which revocation places on such person, or (ii) that revocation of the certificate for such five-year period would not be in the public interest. The determinations under clauses (i) and (ii) of the preceding sentence shall be within the discretion of the Administrator and any such determination or failure to make such a determination shall not be subject to administrative or judicial review.

(C) In any case in which the Administrator has revoked an airman certificate of a person under section 1429(c)(1) or (2) of this Appendix as a result of any activity and—

(i) such person is subsequently acquitted of all charges contained in an indictment or information which relate to controlled substances and which arise from such activity; or

(ii) in the case of a revocation under section 1429(c)(1) of this Appendix, the judgment of conviction on which the revocation is based is reversed on appeal;

the Administrator shall issue an airman certificate to such person if such person is otherwise qualified to serve as an airman under this section.

§ 1429. Reinspection or reexamination; amendment, suspension, or revocation of certification; controlled substances

[See main edition for text of (a) and (b)]

(c) Transportation, distribution, and other activities relating to controlled substances

(1) The Administrator shall issue an order revoking the airman certificates of any person upon conviction of such person of a crime punishable by death or imprisonment for a term exceeding one year under a State or Federal law relating to a controlled substance (other than a law relating to simple possession of a controlled substance), if the Administrator determines that (A) an aircraft was used in the commission of the offense or to facilitate the commission of the offense, and (B) such person served as an airman, or was on board such aircraft, in connection with the commission of the offense or the facilitation of the commission of the offense. The Administrator shall have no authority under this paragraph to review the issue of whether an airman violated a State or Federal law relating to a controlled substance.

(2) The Administrator shall issue an order revoking the airman certificates of any person if the Administrator determines that (A) such person knowingly engaged in an activity that is punishable by death or imprisonment for a term exceeding one year under a State or Federal law relating to a controlled substance (other than any law relating to simple possession of a controlled substance), (B) an aircraft was used to carry out such activity or to facilitate such activity, and (C) such person served as an airman, or was on board such aircraft, in connection with such activity or the facilitation of such activity. The Administrator shall not revoke, and the National Transportation Safety Board on appeal under paragraph (3) shall not affirm the revocation of, a certificate under this paragraph on the basis of any activity if the holder of the certificate is acquitted of all charges contained in an indictment or information which relate to controlled substances and which arise from such activity.

Any person whose certificate is revoked by the Administrator under this subsection may appeal the Administrator's order to the National Transportation Safety Board and the Board shall, after notice and a hearing on the record, affirm or reverse the Administrator's order. In the conduct of its hearings, the National Transportation Safety Board shall not be bound by findings of fact of the Administrator. The filing of an appeal with the National Transportation Safety Board shall stay the effectiveness of the Administrator's order unless the Administrator advises the Board that safety in air commerce or air transportation requires the immediate effectiveness of his order, in which event the order shall remain effective and the Board shall finally dispose of the appeal within sixty days after being so advised by the Administrator. The person substantially affected by the National Transportation Safety Board's order may obtain judicial review of such order under the provisions of section 1486 of this Appendix, and the Administrator shall be made a party to such proceedings.

(4) For purposes of this subsection, the term "controlled substance" has the meaning given such term by section 802(6) of title 21.

Federal Aviation Act, as amended, may be made available by the DOT for public inspection and copying following submission to the President.

(b) In the interests of national security, and in order to allow for consideration of appropriate action under Executive Order No. 12356 [set out as a note under 50 U.S.C. 401], decisions of the DOT transmitted to the President under Section 801 shall be withheld from public disclosure for a period not to exceed five days after submission to the President.

(d) The Secretary of State and the Secretary of Defense, or their designees, shall review the decisions of the DOT transmitted pursuant to subsection (c) above, and shall promptly advise the Assistant to the President for National Security Affairs or his designee, whether action pursuant to Executive Order No. 12356 is deemed appropriate. If, after considering these recommendations, the Assistant to the President for National Security Affairs determines that classification under Executive Order No. 12356 is appropriate, he shall take such action and immediately so inform the DOT. Action pursuant to this subsection shall be completed by the persons designated herein within five days of receipt of the decision by the President.

Nothing in this section is intended to affect the ability to withhold material under any Executive Order or statute other than Section 801.

SEC. 2. (a) Departments and agencies outside of the Executive Office of the President shall raise only matters of national defense or foreign relations in the course of the Presidential review established by this Order. All other matters, including those related to regulatory policy, shall be presented to the DOT in accordance with the procedures of the DOT.

(b) Departments and agencies outside of the Executive Office of the President that identify matters of national defense or foreign relations while a decision is pending before the DOT shall, except as confidentiality is required for reasons of defense or foreign policy, make those matters known to the DOT in the course of its proceedings.

SEC. 3. (a) After transmitting a decision under Section 801 [49 App. U.S.C. 1461] to the President for review, the DOT shall obtain the recommendations, addressed to the President, of the departments and agencies referred to in section 1(c) of this Order.

(b) Departments or agencies outside of the Executive Office of the President making recommendations on matters of national defense or foreign relations with respect to any decision submitted by the DOT to the President under Section 801 shall submit their recommendations in writing to the DOT: (1) within four days of the DOT's issuance of a decision subject to a 10-day statutory review period under Section 801(b); and (2) within twenty-one days of the DOT's issuance of a decision subject to a 60-day statutory review period under Section 801(a), or in exceptional cases, within the period specified by the DOT in its letter of transmittal.

(b) If any department or agency which made recommendations to the President pursuant to Section 801 believes that, if the President decides not to disapprove a decision, the letter so advising the DOT should include a statement that the decision not to disapprove was based on national defense or foreign relations reasons, it should so indicate separately and explain why.

SEC. 5. Individuals within the Executive Office of the President shall follow a policy of: (a) refusing to discuss matters relating to the disposition of a case subject to the review of the President under Section 801 [49 App. U.S.C. 1461] with any interested private party, or an attorney or agent for any such party, prior to the President's decision; and (b) referring any written communication from an interested private party, or an attorney or agent for any such party, to the appropriate department or agency outside of the Executive Office of the President. Exceptions to this policy may be made only when the head of an appropriate department or agency outside of the Executive Office of the President personally finds, on a nondelegable basis, that direct written or oral communication between a private party and a person within the Executive Office of the President is needed for reasons of defense or foreign policy.

SEC. 6. SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1471, 1487, 1515 of this Appendix.

§ 1515. Security standards in foreign air transportation

(a) Assessment of security measures

(1) The Secretary of Transportation shall conduct at such intervals as the Secretary shall deem necessary an assessment of the effectiveness of the security measures maintained at those foreign airports being served by air carriers, those foreign airports from which foreign air carriers serve the United States, those foreign airports which pose a high risk of introducing danger to international air travel, and at such other foreign airports as the Secretary may deem appropriate.

(2) Each such assessment shall be made by the Secretary of Transportation in consultation with the appropriate aeronautic authorities of the foreign government concerned and each air carrier serving the foreign airport at which the Secretary is conducting such assessment.

(3) The assessment shall determine the extent to which an airport effectively maintains and administers security measures. In making an assessment of any airport under this subsection, the Secretary shall use a standard which will result in an analysis of the security

measures at such airport based upon, at a minimum, the standards and appropriate recommended practices contained in Annex 17 to the Convention on International Civil Aviation, as those standards and recommended practices are in effect on the date of such assessment.

(b) Consultation with Secretary of State

In carrying out subsection (a) of this section, the Secretary of Transportation shall consult the Secretary of State with respect to the terrorist threat which exists in each country. The Secretary of Transportation shall also consult with the Secretary of State in order to determine which foreign airports are not under the de facto control of the government of the country in which they are located and pose a high risk of introducing danger to international air travel.

(c) Report of assessments

Each report to the Congress required by section 1356 of this Appendix shall contain a summary of the assessments conducted pursuant to subsection (a) of this section.

(d) Notification to foreign country of determination

Whenever, after an assessment in accordance with subsection (a) of this section, the Secretary of Transportation determines that an airport does not maintain and administer effective security measures, the Secretary (after advising the Secretary of State) shall notify the appropriate authorities of such foreign government of such determination, and recommend the steps necessary to bring the security measures in use at that airport up to the standard used by the Secretary in making such assessment.

(e) Notice and sanctions

(1) Paragraph (2) of this subsection shall become effective—

(A) 90 days after notification to the foreign government pursuant to subsection (d) of this section, if the Secretary of Transportation finds that the foreign government has failed to bring the security measures at the identified airport up to the standard used by the Secretary in making an assessment of such airport under subsection (a) of this section; or

(B) immediately upon the Secretary of Transportation's determination under subsection (d) of this section if the Secretary of Transportation determines, after consultation with the Secretary of State, that a condition exists that threatens the safety or security of passengers, aircraft, or crew traveling to or from such airport.

The Secretary of Transportation shall immediately notify the Secretary of State of any determination made pursuant to subparagraph (B) so that the Secretary of State may comply with the requirement of section 1515(a) of this Appendix that a travel advisory be issued.

(2) Subject to paragraph (1), if the Secretary of Transportation determines pursuant to this section that an airport does not maintain and administer effective security measures—

(A) the Secretary of Transportation—

(i) shall publish the identity of such airport in the Federal Register,

(ii) shall cause the identity of such airport to be posted and prominently displayed at all United States airports regularly being served by scheduled air carrier operations, and

(iii) shall notify the news media of the identity of such airport;

(B) each air carrier and foreign air carrier providing service between the United States and such airport shall provide notice of such determination by the Secretary to any passenger purchasing a ticket for transportation between the United States and such airport, with such notice to be made by written material included on or with such ticket;

(C) the Secretary of Transportation, after consultation with the appropriate aeronautical authorities of the foreign government concerned and each air carrier serving such airport, may, notwithstanding section 1502 of this Appendix and with the approval of the Secretary of State, withhold, revoke, or impose conditions on the operating authority of any air carrier or foreign air carrier to engage in foreign air transportation utilizing such airport; and

(D) the President may prohibit air carriers and foreign air carriers from providing service between the United States and any other foreign airport which is directly or indirectly served by aircraft flying to or from the airport with respect to which the determination is made under this section.

(3) The Secretary of Transportation shall promptly submit to the Congress a report (with a classified annex if necessary) on any action taken under this subsection, setting forth information concerning the attempts made to secure the cooperation of the foreign government in meeting the standard used by the Secretary in making the assessment of the airport under subsection (a) of this section.

(f) Lifting of sanctions

(1) The sanctions required to be imposed with respect to an airport pursuant to subsection (e)(2)(A) and (B) of this section may be lifted only if the Secretary of Transportation, in consultation with the Secretary of State, has determined that effective security measures are maintained and administered at that airport.

(2) The Congress shall be notified if any sanction imposed pursuant to subsection (e) of this section is lifted.

(g) Authority for immediate suspension of air service

Notwithstanding sections 1502 and 1514 of this Appendix, whenever the Secretary of Transportation determines that—

(1) a condition exists that threatens the safety or security of passengers, aircraft, or crew traveling to or from a foreign airport, and

(2) the public interest requires an immediate suspension of services between the United States and the identified airport,

the Secretary of Transportation shall, without notice or hearing and with the approval of the Secretary of State, suspend the right of any air carrier or foreign air carrier to engage in foreign air transportation to or from that foreign airport and the right of any person to operate aircraft in foreign air commerce to or from that foreign airport.

(h) Conditions of authority

The provisions of this section shall be deemed to be a condition to any authority granted under subchapter IV or subchapter VI of this chapter to any air carrier or any foreign air carrier, issued under authority vested in the Secretary of Transportation.

The President may waive the requirements of this subsection if the President determines and reports to the Congress that national security interests or a humanitarian emergency require such waiver.

(d) Abatement of actions and proceedings by or against Civil Aeronautics Board or officer thereof

No suit, action, or other proceeding commenced by or against any officer in his official capacity as an officer of the Civil Aeronautics Board shall abate by reason of the transfer of any function under section 1601(b) of the Federal Aviation Act of 1958 [49 App. U.S.C. 1551(b)] or section 1553 of this Appendix. No cause of action by or against the Civil Aeronautics Board, or by or against any officer thereof in his official capacity shall abate by reason of the transfer of any function under section 1601(b) of the Federal Aviation Act of 1958 [49 App. U.S.C. 1551(b)] or section 1553 of this Appendix.

(f) References to Civil Aeronautics Board to be deemed references to transferee agency

With respect to any function transferred to another agency by section 1601(b) of the Federal Aviation Act of 1958 [49 App. U.S.C. 1551(b)] or by section 1553 of this Appendix and exercised after the effective date of such transfer, reference in any Federal law (other than title XVI of the Federal Aviation Act of 1958 [49 App. U.S.C. 1551]) to the Civil Aeronautics Board or the Board (insofar as such term refers to the Civil Aeronautics Board), or to any officer or office of the Civil Aeronautics Board, shall be deemed to refer to that agency, or other official or component of the agency, in which such function vests.

(g) Head of transferee agency; authority; force and effect of administrative action

In the exercise of any function transferred under section 1601(b) of the Federal Aviation

Act of 1958 [49 App. U.S.C. 1551(b)] or section 1553 of this Appendix, the head of the agency to which such function is transferred shall have the same authority as that vested in the Civil Aeronautics Board with respect to such function, immediately preceding its transfer, and actions of the head of such agency in exercising such function shall have the same force and effect as when exercised by the Civil Aeronautics Board.

(h) Operational continuity of transferred functions

In exercising any function transferred by section 1601(b) of the Federal Aviation Act of 1958 [49 App. U.S.C. 1551(b)] or section 1553 of this Appendix, the head of the agency to which such function is transferred shall give full consideration to the need for operational continuity of the function transferred.

[*See main edition for text of* (*d*) *to* (*h*)]

(i) Exemption from length requirements

(1) If the Governor of a State, after making the consultations specified in paragraph (2) of this subsection, determines that any specific segment of the National System of Interstate and Defense Highways is not capable of safely accommodating motor vehicles having the lengths set forth in subsection (a) of this section or motor vehicle combinations described in subsection (c) of this section, the Governor may notify the Secretary of such determination and request that the Secretary exempt such segment from one or both of such subsections.

(2) Before making such notification, the Governor shall consult with units of local government within the State in which the specific segment of such System is located, as well as the Governor of any State adjacent to that State that might be directly affected by such exemption. As part of such consultations, consideration shall be given to any potential alternative route that—

(A) can safely accommodate motor vehicles having the lengths set forth in subsection (a) of this section or motor vehicle combinations described in subsection (c) of this section; and

(B) serves the area in which such segment is located.

(3) The Governor shall transmit with such notification specific evidence of safety problems that supports such determination and the results of consultation regarding any alternative route under paragraph (2) of this subsection.

(4)(A) If the Secretary determines, upon request by a Governor under paragraph (1) of this subsection or on the Secretary's own initiative, that any segment of the National System of Interstate and Defense Highways is not capable of safely accommodating motor vehicles having the lengths set forth in subsection (a) of this section or motor vehicle combinations described in subsection (c) of this section, the Secretary shall exempt such segment from one or both of such subsections. Before making such determination, the Secretary shall consider any possible alternative route that serves the area in which such segment is located.

(B) The Secretary shall make such determination within a period of 120 days after the date of receipt of notification from a Governor under paragraph (1) of this subsection or the date on which the Secretary initiates action under this paragraph, as the case may be, with respect to such segment. If the Secretary determines that such determination will not be made within such time period, the Secretary shall immediately notify the Congress and shall furnish the reasons for the delay, information regarding the resources assigned, and the projected completion date, for any such determination.

(C) The Secretary shall make such determination only after affording interested parties notice and the opportunity for comment. Any exemption granted by the Secretary under this paragraph before the date on which final rules are issued under subsection (a) of this section shall be included as part of such final rules. Any such exemption granted on or after such date shall be published as a revision of such rules.

After October 30, 1984, any Federal-aid highway (other than any Interstate highway) which was not designated under this subsection on June 5, 1984, may be designated under this subsection only with the agreement of the Governor of the State in which the highway is located.

(b) Safety devices not included in calculation of width

Notwithstanding the provisions of this section or any other provision of law, certain safety devices which the Secretary of Transportation determines are necessary for safe and efficient operation of motor vehicles shall not be included in the calculation of width.

(e) Exemption from width requirements

(1) If the Governor of a State, after making the consultations specified in paragraph (2) of this subsection, determines that any specific segment of the National System of Interstate and Defense Highways is not capable of safely accommodating motor vehicles having the width set forth in subsection (a) of this section, the Governor may notify the Secretary of such determination and request that the Secretary exempt such segment from such subsection for the purpose of allowing the State to impose a width limitation of less than 102 inches for vehicles (other than buses) on such segment.

(2) Before making such notification, the Governor shall consult with units of local government within the State in which the specific segment of such System is located, as well as the Governor of any State adjacent to that State that might be directly affected by such exemption. As part of such consultations, consideration shall be given to any potential alternative route that—

(A) can safely accommodate motor vehicles having the width set forth in subsection (a) of this section;

(B) serves the area in which such segment is located.

(3) The Governor shall transmit with such notification specific evidence of safety problems that supports such determination and the results of consultation regarding any alternative route under paragraph (2) of this subsection.

(4)(A) If the Secretary determines, upon request by a Governor under paragraph (1) of this subsection or on the Secretary's own initiative, that any segment of the National System of Interstate and Defense Highways is not capable of safely accommodating motor vehicles having the width set forth in subsection (a) of this section, the Secretary shall exempt such segment from such subsection for the purpose of allowing the State to impose a width limitation of less than 102 inches for vehicles (other than buses) on such segment. Before making such determination, the Secretary shall consider any possible alternative route that serves the area in which such segment is located.

(B) The Secretary shall make such determination within a period of 120 days after the date of receipt of notification from a Governor under paragraph (1) of this subsection or the date on which the Secretary initiates action under this paragraph, as the case may be, with respect to such segment. If the Secretary determines that such determination will not be made within such time period, the Secretary shall immediately notify the Congress and shall furnish the reasons for the delay, information regarding the resources assigned, and the projected completion date, for any such determination.

(C) The Secretary shall make such determination only after affording interested parties notice and the opportunity for comment. Any exemption granted by the Secretary under this paragraph before the date on which final rules are issued under subsection (a) of this section shall be included as part of such final rules. Any such exemption granted on or after such date shall be published as a revision of such rules.

(f) Effective date

The provisions of this section shall take effect on April 6, 1983.

(Pub. L. 97–424, title IV, § 416, as added Pub. L. 98–17, § 1(a), Apr. 5, 1983, 97 Stat. 59, and amended Pub. L. 98–554, title I, §§ 103, 104(d), (e), 105, Oct. 30, 1984, 98 Stat. 2830, 2831.)

Subsec. (d). Pub. L. 98-554, § 104(e), added "(other than a segment exempted under subsection (e) of this section)" after "Highways" and struck out ", with traffic lanes designed to be a width of twelve feet or more" at the end.

§ 2505. Federal regulations

(a) Authority of Secretary

Not later than 18 months after October 30, 1984, the Secretary shall issue regulations pertaining to commercial motor vehicle safety. Such regulation shall establish minimum Federal safety standards for commercial motor vehicles and shall, at a minimum, ensure that—

(3) the physical condition of operators of commercial motor vehicles is adequate to enable them to operate such vehicles safely; and

(4) the operation of commercial motor vehicles does not have deleterious effects on the physical condition of such operators.

(b) Elimination or modification of existing motor carrier safety rules

The Secretary shall not eliminate or modify any existing motor carrier safety rule pertaining exclusively to the maintenance, equipment, loading or operation (including routing regulations) of vehicles carrying materials found to be hazardous for the purposes of the Hazardous Materials Transportation Act (49 U.S.C. Within 18 months after the date the Secretary is notified by the Safety Panel of a determination regarding a State law or regulation under subsection (b) of this section, the Secretary (A) shall conduct a rulemaking proceeding to determine in accordance with the provisions of this subsection whether or not such law or regulation may be in effect and enforced with respect to commercial motor vehicles, and (B) shall issue a final rule in such rulemaking proceeding.

(2) If the Secretary finds that the State law or regulation has the same effect as a regulation issued by the Secretary under section 2505 of this Appendix, the State law or regulation may be in effect and enforced with respect to commercial motor vehicles after the last day of the 60-month period beginning on October 30, 1984.

(3) If the Secretary finds that the State law or regulation is less stringent than a regulation issued by the Secretary under section 2505 of this Appendix, the State law or regulation shall not have effect and be enforced with respect to commercial motor vehicles after the last day of the 60-month period beginning on October 30, 1984.

(B) such State law or regulation is incompatible with the regulation issued by the Secretary under section 2505 [1] of this Appendix; or

(C) enforcement of such State law or regulation would be an undue burden on interstate commerce;

such State law or regulation shall not have effect and be enforced with respect to commercial motor vehicles after the last day of such 60-month period.

(B) In determining under paragraph (4) whether or not a law or regulation of a State will unduly burden interstate commerce, the Secretary may consider the effect upon interstate commerce of implementation of such law or regulation along with implementation of all similar laws and regulations of other States.

(d) Petition; waiver; grant of

(1) Any person (including any State) may petition the Secretary for a waiver from a determination of the Secretary that a State law or regulation may not be in effect and enforced under this section. The Secretary shall grant such waiver, as expeditiously as possible, if such person demonstrates to the satisfaction of the Secretary that such waiver is not contrary to the public interest and is consistent with the safe operation of commercial motor vehicles.

(2) The decision to grant or deny a petition for a waiver submitted under this subsection shall only be made after the Secretary has afforded the petitioner an opportunity for a hearing on the record.

(e) Consolidation of rulemaking proceedings

The Secretary may consolidate rulemaking proceedings under this section if the Secretary determines that such consolidation will not adversely affect any party to any of such proceedings.

(f) Notification of States by Secretary

Not later than 10 days after making a determination under subsection (c) of this section that a State law or regulation may not be in effect and enforced, the Secretary shall notify, in writing, such State of such determination.

(b) Establishment of Federal standards

The Secretary shall, by rule, establish Federal standards for inspections of commercial motor vehicles and retention by employers of records of such inspections. Such standards shall provide for annual or more frequent inspections of commercial motor vehicles unless the Secretary finds that another inspection system is as effective as an annual or more frequent inspection system. For purposes of this chapter, such standards shall be deemed to be regulations issued by the Secretary under section 2505 of this Appendix.

(c) Rulemaking; comments on procedures; amendments to regulations; effective date

Not later than 60 days after October 30, 1984, the Secretary shall initiate a rulemaking to afford interested parties an opportunity to comment on such part 393 and the inspection and retention procedures established pursuant to subsection (b) of this section. Amendments to the regulations shall be issued and published in the Federal Register not later than one year after such rulemaking is initiated. The amended regulations shall become effective on the date on which they are published in the Federal Register.

(d) Effect on State laws and regulations; preemption

(1) Except as provided in paragraph (2), nothing in section 2302 of this Appendix or section 2507 of this Appendix or any other provision of this chapter shall be construed as—

(A) preventing any State or voluntary group of States from imposing more stringent standards for use in their own periodic roadside inspection programs of commercial motor vehicles;

(B) preventing any State from having in effect and enforcing a program for inspection of commercial motor vehicles which the Secretary determines is as effective as the Federal standards established under subsection (b) of this section;

(D) requiring any State which has in effect and is enforcing a program described in subparagraph (B) or (C) to enforce any Federal standard established under subsection (b) of this section or to adopt any provision pertaining to inspection of commercial motor vehicles in addition to such program in order to comply with such Federal standards.

(2) If, after notice and an opportunity for a hearing, the Secretary determines that any State which has in effect and is enforcing a program described in paragraph (1)(C) of this subsection is not enforcing such program in a manner which achieves the objectives of this section, and if, after making such determination, the Secretary provides such State with a six month period in which to improve the enforcement of such program to achieve the objectives of this section, the Federal standards established under subsection (b) of this section shall preempt such program with respect to the inspection of commercial motor vehicles in such State and such program shall not be in effect and enforced with respect to such vehicles.

(e) Periodic inspections; adequacy of; random inspection

A periodic inspection of a commercial motor vehicle in accordance with the Federal standards established under subsection (b) of this section or in accordance with a program described in subparagraph (B) or (C) of subsection (d)(1) of this section which is in effect and being enforced shall be recognized as adequate in every State for the period of such inspection. The provisions of this subsection shall not be deemed to prohibit a State from making random inspections of commercial motor vehicles.

(f) Effect of Federal standards

The Federal standards established under subsection (b) of this section shall have no effect and shall not be enforced with respect to the inspection of commercial motor vehicles in any State which has in effect and is enforcing a program described in subparagraph (B) or (C) of subsection (d)(1) of this section if the Secretary determines that such Federal standards not having effect and being enforced with respect to such inspection is in the public interest and consistent with public safety.

The Congress finds and declares that—

(1) the peaceful uses of outer space continue to be of great value and to offer benefits to all mankind;

(2) private applications of space technology have achieved a significant level of commercial and economic activity, and offer the potential for growth in the future, particularly in the United States;

(3) new and innovative equipment and services are being sought, created, and offered by entrepreneurs in telecommunications, information services, and remote sensing technology;

(4) the private sector in the United States has the capability of developing and providing private satellite launching and associated services that would complement the launching and associated services now available from the United States Government;

(5) the development of commercial launch vehicles and associated services would enable the United States to retain its competitive position internationally, thereby contributing to the national interest and economic well-being of the United States;

(6) provision of launch services by the private sector is consistent with the national security interests and foreign policy interests of the United States and would be facilitated by stable, minimal, and appropriate regulatory guidelines that are fairly and expeditiously applied; and

"Part F—Period of Service for Annuities

"COMPUTATION OF LENGTH OF SERVICE

"Sec. 251. (a) For the purposes of this Act, the period of service of a participant shall be computed from the date he becomes a participant under the provisions of this Act, but all periods of separation from the Agency and so much of any leaves of absence without pay as may exceed six months in the aggregate in any calendar year shall be excluded, except leaves of absence while receiving benefits under chapter 81 of title 5, United States Code, or any earlier statute on which such chapter is based, and leaves of absence granted participants while performing active and honorable military or naval service in the Army, Navy, Air Force, Marine Corps, or Coast Guard of the United States. A participant or former participant who returns to Government duty after a period of separation shall have included in his period of service that part of the period of separation in which he was receiving benefits under chapter 81 of title 5, United States Code, or any earlier statute on which such chapter is based.

"(b) The Director of Central Intelligence may from time to time establish, in consultation with the Secretary of State, a list of places outside the United States which by reason of climatic or other extreme conditions are to be classed as unhealthful posts. Each year of duty at such posts, inclusive of regular leaves of absence, shall be counted as one and a half years in computing the length of service of a participant under this Act for the purpose of retirement, fractional months being considered as full months in computing such service. No extra credit for service at such unhealthful posts shall be credited to any participant who is paid a differential under section 5925 or 5928 of title 5, United States Code, for such service.

[Amended Pub. L. 99-169, title VII, § 702, Dec. 4, 1985, 99 Stat. 1008.]

"PRIOR SERVICE CREDIT

"Sec. 252. [*See main edition for text of* (*a*) *to* (*d*)]

"(e)(1) A participant may obtain prior military or naval service credit in accordance with the provisions of paragraph (a)(2) of this section by applying for it to the Director prior to retirement or separation from the Agency.

"(2) However, in the case of a participant who is eligible for and receives retired pay on account of military or naval service, the period of service upon which such retired pay is based shall not be included, except that in the case of a participant who is eligible for and receives retired pay on account of a service-connected disability incurred in combat with an enemy of the United States or caused by an instrumentality of war and incurred in line of duty during a period of war (as that term is used in section 301 of title 38, United States Code), or is awarded under chapter 67 of title 10 of the United States Code, the period of such military or naval service shall be included.

"(3) Except as provided in paragraphs (1) and (2) of this subsection, the service of an individual who first becomes a Federal employee before October 1, 1982 shall include credit for each period of military service performed before the date of the separation on which the entitlement to an annuity under this subsection is based, subject to section 252(f); and the service of an individual who first becomes a Federal employee on or after October 1, 1982 shall include credit for:

"(i) each period of military service performed before January 1, 1957, and

"(ii) each period of military service performed after December 31, 1956, and before separation on which the entitlement to annuity under this section is based, only if a deposit (with interest, if any) is made with respect to that period as provided in subsection (h) of this section.

"(f)(1) Notwithstanding any other provision of this section or section 253 any military service (other than military service covered by military leave with pay) performed by a participant after December 1956 shall be excluded in determining the aggregate period of service upon which an annuity payable under this Act to such participant or to his widow or child is to be based, if such participant or widow or child is entitled (or would upon proper application be entitled) at the time of such determination, to monthly old-age or survivors' benefits under section 202 of the Social Security Act, as amended (42 U.S.C. 402), based on such participant's wages and self-employment income. If in the case of the participant or widow such military service is not excluded under the preceding sentence, but upon attaining age sixty-two, he or she becomes entitled (or would upon proper application be entitled) to such benefits, the aggregate period of service upon which such annuity is based shall be redetermined, effective as of the first day of the month in which he or she attains such age, so as to exclude such service.

"(2) The provisions of paragraph (1) above relating to credit for military service shall not apply to—

"(A) any period of military service of a participant with respect to which he or she has made a deposit with interest, if any, under section 252(e) of this Act; or

"(B) the military service of any participant who has been awarded retired pay on account of a service-connected disability caused by an instrumentality of war and incurred in the line of duty during a period of war as that term is defined in section 301 of Title 38 of the United States Code.

"(3) The annuity recomputation required by paragraph (1) above shall not apply to any individual who was entitled to an annuity under this section on or before September 8, 1982. Instead of an annuity recomputation, the annuities of such individuals shall be reduced at age 62 by an amount equal to a fraction of their Social Security benefit. This reduction shall be computed by multiplying their monthly Social Security benefit by a fraction, the numerator of which is their total military wages that were subject to Social Security deductions and the denominator of which is their total lifetime wages, including military wages, that were subject to Social Security deductions. The reductions so computed shall not be permitted to be greater than the reductions that will be required by paragraph (1) if that paragraph applied to the individual for that period. The new formula shall be applicable to all annuity payments payable after October 1, 1982, including annuity payments to those individuals who had previously reached age 62 and whose annuities had already been recomputed.

"(g) For the purpose of survivor annuity, special contributions authorized by paragraphs (b), (c)(4), and (h) of this section may also be made by the survivor of a participant.

"(h)(1) Each participant who has performed military service before the date of separation on which the entitlement to any annuity under this section is based may pay, in accordance with rules issued by the Director, to the Agency an amount equal to 7 percent of the amount of basic pay paid under section 204 of Title 37 of the United States Code to the participant for each period of military service after December 1956. The amount of such payments shall be based on such evidence of basic pay for military service as the participant may provide, or if the Director or his designee determines sufficient evidence has not been provided to adequately determine basic pay for military service, such payment shall be based upon estimates of such basic pay provided to the Director under paragraph (4).

"(2) Any deposit made under paragraph (1) of this subsection more than two years after the later of—

"(A) October 1, 1983; or

"(B) the date on which the participant making the deposit first becomes an employee of the Federal government—shall include interest on such amount computed and compounded annually beginning on the date of expiration of the two-year period. The interest rate that is applicable in computing interest in any year under this paragraph shall be equal to the interest rate that is applicable for such year under subsection (b) of this section.

"(3) Any payment received by the Agency under this subsection shall be immediately remitted to the Office of Finance for deposit in the Treasury of the United States to the Credit of the CIARDS Fund.

"(4) The Secretary of Defense, the Secretary of Transportation, the Secretary of Commerce, or the Secretary of Health and Human Services, as appropriate, shall furnish such information to the Director as the Director may determine to be necessary for the administration of this subsection.

"(b)(2) If the annuitant receiving disability retirement annuity is restored to earning capacity, before becoming sixty years of age, payment of the annuity terminates on reemployment by the Government or 180 days after the end of the calendar year in which earning capacity is restored, whichever is earlier. Earning capacity is restored if in any calendar year the income of the annuitant from wages or self-employment or both equals at least 80 per centum of the current rate of pay of the position occupied at the time of retirement.".

SEC. 2. Section 5 of Executive Order No. 12326 of September 30, 1981 [set out above], which previously amended the Central Intelligence Agency Retirement Act of 1964 for Certain Employees, as amended [50 U.S.C. 403 note], shall be deemed to be amended to read as follows:

"Sec. 5. For the purpose of ensuring the accuracy of information used in the administration of the Central Intelligence Agency Retirement and Disability System, the Director of Central Intelligence may request, from the Secretaries of Defense, Health and Human Services, and Labor, and the Administrator of Veterans Affairs, such information as the Director deems necessary. To the extent permitted by law:

"(b) The Administrator of Veterans Affairs shall provide information on pensions or compensation provided under Title 38 of the United States Code;

"(c) The Secretary of Health and Human Services or the Secretary's designee shall provide information contained in the records of the Social Security Administration; and

"(d) The Secretary of Labor or the Secretary's designee shall provide information on benefits paid under subchapter I of Chapter 81 of Title 5 of the United States Code.

"The Director, in consultation with the officials from whom information is requested, shall ensure that information made available under this Section is used only for the purposes authorized.".

SEC. 3. Section 281(a) of the Central Intelligence Retirement Act of 1964 for Certain Employees, as amended [50 U.S.C. 403 note], shall be deemed to be amended by inserting after "at 3 per centum per annum" the following: "through December 31, 1984, and thereafter at the rate computed under Section 8334(e) of Title 5 of the United States Code."

SEC. 4. Section 221(k) of the Central Intelligence Agency Retirement Act of 1964 for Certain Employees, as amended [50 U.S.C. 403 note], shall be deemed to be amended to read as follows:

"(k) For the purpose of an annuity computed under this section, the total service of any participant shall not include any period of civilian service on or after October 1, 1982, for which retirement deductions or deposits have not been made under section 252(b), unless the participant makes a deposit for such period as provided in section 252, or no deposit is required for such service as provided under Section 8334(g) of Title 5 of the United States Code, or under any statute.".

SEC. 5. Section 241(a) of the Central Intelligence Agency Retirement Act of 1964 for Certain Employees, as amended [50 U.S.C. 403 note], shall be deemed to be amended to read as follows:

The return of contributions shall be made only if the participant is not reemployed in a position in which he is subject to this Act at the time he files the application for refund and will not become eligible for an annuity within thirty-one days after filing such application. The receipt of the payment of the lump-sum credit by the participant voids all annuity rights under the Act based on the service on which the lump-sum credit is based, until the participant is reemployed in the service subject to the Act. The payment of the lump-sum credit shall include amounts deposited by a participant covering earlier service as well as any amounts deposited under section 252(h)"."

SEC. 6. Section 291(f) of the Central Intelligence Agency Retirement Act of 1964 for Certain Employees, as amended [50 U.S.C. 403 note], shall be deemed to be amended by striking out "fixed at the nearest" and inserting "rounded to the next lowest" in lieu thereof.

SEC. 7. Section 221(a) of the Central Intelligence Agency Retirement Act of 1964 for Certain Employees, as amended [50 U.S.C. 403 note], shall be deemed to be amended by adding the following at the end thereof:

"Each annuity shall be stated as an annual amount, one twelfth of which, rounded to the next lowest dollar, constitutes the monthly rate payable on the first business day of the month after the month or other period for which it has accrued.".

SEC. 8. Section 221(l) of the Central Intelligence Agency Retirement Act of 1964 for Certain Employees, as amended [50 U.S.C. 403 note], shall be deemed to be amended to read as follows:

"(l) Except as otherwise provided, the annuity of a paticipant shall commence on the first day of the month after separation from the service, or on the first day of the month after pay ceases and the service and age requirements for title to an annuity are met. With respect to those participants who serve three days or less in the month of retirement, the annuity will commence on the day after separation or the day after pay ceases and the service and age requirements for title to an annuity are met. The annuity of a participant involuntarily separated from the service, except for removal for cause on charges of misconduct or delinquency, or of a participant retiring due to a disability shall commence on the day after separation from the service or the day after pay ceases and the service and age or disability requirements for title to an annuity are met. Any other annuity payable from the Fund shall commence on the first day of the month after the occurrence of the event on which payment thereof is based.".

Sec. 9. Section 252(e) of the Central Intelligence Agency Retirement Act of 1964 for Certain Employees, as amended [50 U.S.C. 403 note], shall be deemed to be amended by inserting "(1)" before the first sentence thereof, by inserting "(2)" before the second sentence thereof and by striking out "chapter 11" and inserting "section 301" in lieu thereof, by deleting the last sentence thereof and by adding the following paragraph (3):

"(3) Except as provided in paragraphs (1) and (2) of this subsection, the service of an individual who first becomes a Federal employee before October 1, 1982 shall include credit for each period of military service performed before the date of the separation on which the entitlement to an annuity under this subsection is based, subject to section 252(f); and the service of an individual who first becomes a Federal employee on or after October 1, 1982 shall include credit for:

"(i) each period of military service performed before January 1, 1957, and

"(ii) each period of military service performed after December 31, 1956, and before separation on which the entitlement to annuity under this section is based, only if a deposit (with interest, if any) is made with respect to that period as provided in subsection (h) of this section.".

Sec. 10. Section 252(f) of the Central Intelligence Agency Retirement Act of 1964 for Certain Employees, as amended [50 U.S.C. 403 note], shall be deemed to be amended by inserting "(1)" after "(f)" and adding new paragraphs (2) and (3) as follows:

"(2) The provisions of paragraph (1) above relating to credit for military service shall not apply to—

"(A) any period of military service of a participant with respect to which he or she has made a deposit with interest, if any, under section 252(e) of this Act; or

"(B) the military service of any participant who has been awarded retired pay on account of a service-connected disability caused by an instrumentality of war and incurred in the line of duty during a period of war as that term is defined in section 301 of Title 38 of the United States Code.".

"(3) The annuity recomputation required by paragraph (1) above shall not apply to any individual who was entitled to an annuity under this section on or before September 8, 1982. Instead of an annuity recomputation, the annuities of such individuals shall be reduced at age 62 by an amount equal to a fraction of their Social Security benefit. This reduction shall be computed by multiplying their monthly Social Security benefit by a fraction, the numerator of which is their total military wages that were subject to Social Security deductions and the denominator of which is their total lifetime wages, including military wages, that were subject to Social Security deductions. The reductions so computed shall not be permitted to be greater than the reductions that will be required by paragraph (1) if that paragraph applied to the individual for that period. The new formula shall be applicable to all annuity payments payable after October 1, 1982, including annuity payments to those individuals who had previously reached age 62 and whose annuities had already been recomputed.".

Sec. 11. Section 252 of the Central Intelligence Agency Retirement Act of 1964 for Certain Employees, as amended [50 U.S.C. 403 note], shall be deemed to be amended by adding a new subsection (h) as follows:

"(h)(1) Each participant who has performed military service before the date of separation on which the entitlement to any annuity under this section is based may pay, in accordance with rules issued by the Director, to the Agency an amount equal to 7 percent of the amount of basic pay paid under section 204 of Title 37 of the United States Code to the participant for each period of military service after December 1956. The amount of such payments shall be based on such evidence of basic pay for military service as the participant may provide, or if the Director or his designee determines sufficient evidence has not been provided to adequately determine basic pay for military service, such payment shall be based upon estimates of such basic pay provided to the Director under paragraph (4).".

"(2) Any deposit made under paragraph (1) of this subsection more than two years after the later of—

(A) October 1, 1982; or

(B) the date on which the participant making the deposit first becomes an employee of the Federal government—shall include interest on such amount computed and compounded annually beginning on the date of expiration of the two-year period. The interest rate that is applicable in computing interest in any year under this paragraph shall be equal to the interest rate that is applicable for such year under subsection (b) of this section.".

"(3) Any payment received by the Agency under this subsection shall be immediately remitted to the Office of Finance for deposit in the Treasury of the United States to the Credit of the CIARDS Fund.

"(4) The Secretary of Defense, the Secretary of Transportation, the Secretary of Commerce, or the Secretary of Health and Human Services, as appropriate, shall furnish such information to the Director as the Director may determine to be necessary for the administration of this subsection.".

Sec. 12. Section 261(d)(2) of the Central Intelligence Agency Retirement Act of 1964 for Certain Employees, as amended [50 U.S.C. 403 note], shall be deemed to be amended by adding after the words "allowed for military service" the following: ", less an amount determined by the Director to be appropriate to reflect the value of the deposits made to the credit of the Fund under section 252(e), and".

Sec. 13. Section 235(a) of the Central Intelligence Agency Retirement Act of 1964 for Certain Employees, as amended [50 U.S.C. 403 note], shall be deemed to be amended by deleting the final sentence thereof and substituting the following wording:

"A participant who is separated involuntarily from service, except by removal for cause on charges of misconduct or delinquency, is entitled to an annuity only if the participant has not declined a reasonable offer of another position for which he or she is qualified, which is not lower than two grades below his or her current position and which is in the same commuting area. Voluntary early retirements will be permitted only if a major reorganization, reduction in force, or transfer of function will result in a significant number of participants being separated or immediately reduced in pay. Participants retired under this subsection shall receive retirement benefits in accordance with the provisions of section 221.".

Sec. 14. Section 291 of the Central Intelligence Agency Retirement Act of 1964 for Certain Employees, as amended [50 U.S.C. 403 note], shall be deemed to be amended by adding a new subsection (g) as follows:

"(g)(1) An annuity shall not be increased by reason of an adjustment under this section to an amount which exceeds the greater of—

"(A) the maximum pay payable for GS-15 thirty days before the effective date of the adjustment under this section; or

"(B) the final pay (or average pay, if higher) of the participant with respect to whom the annuity is paid, increased by the overall annual average percentage adjustments (compounded) in rates of pay of the General Schedule under subchapter I of chapter 53 of title 5 of the United States Code during the period—

(i) beginning on the date the annuity commenced (or, in the case of a survivor of the participant, the date of the participant's annuity commenced), and

(ii) ending on the effective date of the adjustment under this section.

Sec. 15. Section 252(g) of the Central Intelligence Agency Retirement Act of 1964 for Certain Employees, as amended [50 U.S.C. 403 note], shall be deemed to be amended by deleting "paragraph (b)" and inserting "paragraphs (b), (c)(4), and (h)" in lieu thereof.

Sec. 16. The amendments made by this Order shall be effective as follows:

(a) Sections 2, 5, 9, 19 [10], 12 and 13 shall be effective October 1, 1982.

(b) Section 1 shall be effective October 1, 1982 but shall apply only with respect to income earned after December 31, 1982.

(c) Section 3 shall apply with respect to deposits for service performed on or after October 1, 1982, and with respect to funds for which application is received on or after such date. The provisions of section 252, as in effect on September 7, 1982, shall continue to apply with respect to periods of service and refunds for which application was received on or before September 30, 1982.

(d) Section 4 shall apply with respect to deposits for military service performed on or after October 1, 1982 and military service performed on or after January 1, 1957 and with respect to refunds for which applications are received by the Agency on or after October 1, 1982. The provisions of section 221(k), as in effect on September 7, 1982 shall continue to apply with respect to periods of civilian service occurring before October 1, 1982.

(h) Section 14 shall not cause any annuity to be reduced below the rate that is payable on September 8, 1982 but shall apply to any adjustment occurring on or after this date under section 291, or to any annuity payable from the Central Intelligence Agency Retirement and Disability Fund, whether such annuity has a commencing date before, on, or after September 8, 1982.

Multinational Force in Lebanon Resolution

Pub. L. 98-119, Oct. 12, 1983, 97 Stat. 805, provided that:

"SHORT TITLE

"SECTION 1. This joint resolution may be cited as the 'Multinational Force in Lebanon Resolution'.

"FINDINGS AND PURPOSE

"SEC. 2. (a) The Congress finds that—

"(1) the removal of all foreign forces from Lebanon is an essential United States foreign policy objective in the Middle East;

"(2) in order to restore full control by the Government of Lebanon over its own territory, the United States is currently participating in the multinational peacekeeping force (hereafter in this resolution referred to as the 'Multinational Force in Lebanon') which was established in accordance with the exchange of letters between the Governments of the United States and Lebanon dated September 25, 1982;

"(3) the Multinational Force in Lebanon better enables the Government of Lebanon to establish its unity, independence, and territorial integrity;

"(4) progress toward national political reconciliation in Lebanon is necessary; and

"(5) United States Armed Forces participating in the Multinational Force in Lebanon are now in hostilities requiring authorization of their continued presence under the War Powers Resolution [50 U.S.C. 1541 et seq.].

"(b) The Congress determines that the requirements of section 4(a)(1) of the War Powers Resolution [50 U.S.C. 1543(a)(1)] became operative on August 29, 1983. Consistent with section 5(b) of the War Powers Resolution [50 U.S.C. 1544(b)], the purpose of this joint resolution is to authorize the continued participation of United States Armed Forces in the Multinational Force in Lebanon.

"(c) The Congress intends this joint resolution to constitute the necessary specific statutory authorization under the War Powers Resolution for continued participation by United States Armed Forces in the Multinational Force in Lebanon.

"AUTHORIZATION FOR CONTINUED PARTICIPATION OF UNITED STATES ARMED FORCES IN THE MULTINATIONAL FORCE IN LEBANON

"SEC. 3. The President is authorized, for purposes of section 5(b) of the War Powers Resolution [50 U.S.C. 1544(b)], to continue participation by United States Armed Forces in the Multinational Force in Lebanon, subject to the provisions of section 6 of this joint resolution. Such participation shall be limited to performance of the functions, and shall be subject to the limitations, specified in the agreement establishing the Multinational Force in Lebanon as set forth in the exchange of letters between the Governments of the United States and Lebanon dated September 25, 1982, except that this shall not preclude such protective measures as may be necessary to ensure the safety of the Multinational Force in Lebanon.

"REPORTS TO THE CONGRESS

"SEC. 4. As required by section 4(c) of the War Powers Resolution [50 U.S.C. 1543(c)], the President shall report periodically to the Congress with respect to the situation in Lebanon, but in no event shall he report less often than once every three months. In addition to providing the information required by that section on the status, scope, and duration of hostilities involving United States Armed Forces, such reports shall describe in detail—

"(1) the activities being performed by the Multinational Force in Lebanon;

"(2) the present composition of the Multinational Force in Lebanon, including a description of the responsibilities and deployment of the armed forces of each participating country;

"(3) the results of efforts to reduce and eventually eliminate the Multinational Force in Lebanon;

"(4) how continued United States participation in the Multinational Force in Lebanon is advancing United States foreign policy interests in the Middle East; and

"(5) what progress has occurred toward national political reconciliation among all Lebanese groups.

"STATEMENTS OF POLICY

"SEC. 5. (a) The Congress declares that the participation of the armed forces of other countries in the Multinational Force in Lebanon is essential to maintain the international character of the peacekeeping function in Lebanon.

"(b) The Congress believes that it should continue to be the policy of the United States to promote continuing discussions with Israel, Syria, and Lebanon with the objective of bringing about the withdrawal of all foreign troops from Lebanon and establishing an environment which will permit the Lebanese Armed Forces to carry out their responsibilities in the Beirut area.

"(c) It is the sense of the Congress that, not later than one year after the date of enactment of this joint resolution [Oct. 12, 1983] and at least once a year thereafter, the United States should discuss with the other members of the Security Council of the United Nations the establishment of a United Nations peacekeeping force to assume the responsibilities of the Multinational Force in Lebanon. An analysis of the implications of the response to such discussions for the continuation of the Multinational Force in Lebanon shall be included in the reports required under paragraph (3) of section 4 of this resolution.

"DURATION OF AUTHORIZATION FOR UNITED STATES PARTICIPATION IN THE MULTINATIONAL FORCE IN LEBANON

"SEC. 6. The participation of United States Armed Forces in the Multinational Force in Lebanon shall be authorized for purposes of the War Powers Resolution [50 U.S.C. 1541 et seq.] until the end of the eighteen-month period beginning on the date of enactment of this resolution [Oct. 12, 1983] unless the Congress extends such authorization, except that such authorization shall terminate sooner upon the occurrence of any one of the following:

"(1) the withdrawal of all foreign forces from Lebanon, unless the President determines and certifies to the Congress that continued United States Armed Forces participation in the Multinational Force in Lebanon is required after such withdrawal in order to accomplish the purposes specified in the September 25, 1982, exchange of letters providing for the establishment of the Multinational Force in Lebanon; or

"(2) the assumption by the United Nations or the Government of Lebanon of the responsibilities of the Multinational Force in Lebanon; or

"(3) the implementation of other effective security arrangements in the area; or

"(4) the withdrawal of all other countries from participation in the Multinational Force in Lebanon.

"INTERPRETATION OF THIS RESOLUTION

"SEC. 7. (a) Nothing in this joint resolution shall preclude the President from withdrawing United States Armed Forces participation in the Multinational Force in Lebanon if circumstances warrant, and nothing in this joint resolution shall preclude the Congress by joint resolution from directing such a withdrawal.

"(b) Nothing in this joint resolution modifies, limits, or supersedes any provision of the War Powers Resolution [50 U.S.C. 1541 et seq.] or the requirement of section 4(a) of the Lebanon Emergency Assistance Act of 1983, relating to congressional authorization for any substantial expansion in the number or role of United States Armed Forces in Lebanon.

"CONGRESSIONAL PRIORITY PROCEDURES FOR AMENDMENTS

"SEC. 8. (a) Any joint resolution or bill introduced to amend or repeal this Act shall be referred to the Committee on Foreign Affairs of the House of Representatives or the Committee on Foreign Relations of the Senate, as the case may be. Such joint resolution or bill shall be considered by such committee within fifteen calendar days and may be reported out, together with its recommendations, unless such House shall otherwise determine pursuant to its rules.

"(b) Any joint resolution or bill so reported shall become the pending business of the House in question (in the case of the Senate the time for debate shall be equally divided between the proponents and the opponents) and shall be voted on within three calendar days thereafter, unless such House shall otherwise determine by the yeas and nays.

"(c) Such a joint resolution or bill passed by one House shall be referred to the committee of the other House named in subsection (a) and shall be reported out by such committee together with its recommendations within fifteen calendar days and shall thereupon become the pending business of such House and shall be voted upon within three calendar days, unless such House shall otherwise determine by the yeas and nays.

"(d) In the case of any disagreement between the two Houses of Congress with respect to a joint resolution or bill passed by both Houses, conferees shall be promptly appointed and the committee of conference shall make and file a report with respect to such joint resolution within six calendar days after the legislation is referred to the committee of conference. Notwithstanding any rule in either House concerning the printing of conference reports in the Record or concerning any delay in the consideration of such reports, such report shall be acted on by both Houses not later than six calendar days after the conference report is filed. In the event the conferees are unable to agree within forty-eight hours, they shall report back to their respective Houses in disagreement."

§ 1546a. Expedited procedures for certain joint resolutions and bills

Any joint resolution or bill introduced in either House which requires the removal of United States Armed Forces engaged in hostilities outside the territory of the United States, its possessions and territories, without a declaration of war or specific statutory authorization shall be considered in accordance with the procedures of section 601(b) of the International Security Assistance and Arms Export Control Act of 1976, except that any such resolution or bill shall be amendable. If such a joint resolution or bill should be vetoed by the President, the time for debate in consideration of the veto message on such measure shall be limited to twenty hours in the Senate and in the House shall be determined in accordance with the Rules of the House.

Ex. Ord. No. 12532. Prohibiting Trade and Certain Other Transactions Involving South Africa

Ex. Ord. No. 12532, Sept. 9, 1985, 50 F.R. 36861, provided:

By the authority vested in me as President by the Constitution and laws of the United States of America, including the International Emergency Economic Powers Act (50 U.S.C. 1701 *et seq.*), the National Emergencies Act (50 U.S.C. 1601 *et seq.*), the Foreign Assistance Act (22 U.S.C. 2151 *et seq.*), the United Nations Participation Act (22 U.S.C. 287), the Arms Export Control Act (22 U.S.C. 2751 *et seq.*), the Export Administration Act (50 U.S.C. App. 2401 *et seq.*), the Atomic Energy Act (42 U.S.C. 2011 *et seq.*), the Foreign Service Act (22 U.S.C. 3901 *et seq.*), the Federal Advisory Committee Act (5 U.S.C. I, RONALD REAGAN, President of the United States of America, find that the policies and actions of the Government of South Africa constitute an unusual and extraordinary threat to the foreign policy and economy of the United States and hereby declare a national emergency to deal with that threat.

SECTION 1. Except as otherwise provided in this section, the following transactions are prohibited effective October 11, 1985:

(a) The making or approval of any loans by financial institutions in the United States to the Government of South Africa or to entities owned or controlled by that Government. This prohibition shall enter into force on November 11, 1985. It shall not apply to (i) any loan or extension of credit for any educational, housing, or health facility which is available to all persons on a nondiscriminatory basis and which is located in a geographic area accessible to all population groups without any legal or administrative restriction; or (ii) any loan or extension of credit for which an agreement is entered into before the date of this Order.

The Secretary of the Treasury is hereby authorized to promulgate such rules and regulations as may be necessary to carry out this subsection. The initial rules and regulations shall be issued within sixty days. The Secretary of the Treasury may, in consultation with the Secretary of State, permit exceptions to this prohibition only if the Secretary of the Treasury determines that the loan or extension of credit will improve the welfare or expand the economic opportunities of persons in South Africa disadvantaged by the apartheid system, provided that no exception may be made for any apartheid enforcing entity.

(b) All exports of computers, computer software, or goods or technology intended to service computers to or for use by any of the following entities of the Government of South Africa:

(1) The military;

(2) The police;

(3) The prison system;

(6) The administering authorities for the black passbook and similar controls;

(7) Any apartheid enforcing agency;

(8) Any local or regional government or "homeland" entity which performs any function of any entity described in paragraphs (1) through (7).

The Secretary of Commerce is hereby authorized to promulgate such rules and regulations as may be necessary to carry out this subsection and to implement a system of end use verification to ensure that any computers exported directly or indirectly to South Africa will not be used by any entity set forth in this subsection.

(c)(1) Issuance of any license for the export to South Africa of goods or technology which are to be used in a nuclear production or utilization facility, or which, in the judgment of the Secretary of State, are likely to be diverted for use in such a facility; any authorization to engage, directly or indirectly, in the production of any special nuclear material in South Africa; any license for the export to South Africa of component parts or other items or substances especially relevant from the standpoint of export control because of their significance for nuclear explosive purposes; and any approval of retransfers to South Africa of any goods, technology, special nuclear material, components, items, or substances described in this section. The Secretaries of State, Energy, Commerce, and Treasury are hereby authorized to take such actions as may be necessary to carry out this subsection.

(2) Nothing in this section shall preclude assistance for International Atomic Energy Agency safeguards or IAEA programs generally available to its member states, or for technical programs for the purpose of reducing proliferation risks, such as for reducing the use of highly enriched uranium and activities envisaged by section 223 of the Nuclear Waste Policy Act (42 U.S.C. 10203) or for exports which the Secretary of State determines are necessary for humanitarian reasons to protect the public health and safety.

(d) The import into the United States of any arms, ammunition, or military vehicles produced in South Africa or of any manufacturing data for such articles. The Secretaries of State, Treasury, and Defense are hereby authorized to take such actions as may be necessary to carry out this subsection.

SEC. 2. (a) The majority of United States firms in South Africa have voluntarily adhered to fair labor principles which have benefitted those in South Africa who have been disadvantaged by the apartheid system. It is the policy of the United States to encourage strongly all United States firms in South Africa to follow this commendable example.

(b) Accordingly, no department or agency of the United States may intercede after December 31, 1985, with any foreign government regarding the export marketing activity in any country of any national of the United States employing more than 25 individuals in South Africa who does not adhere to the principles stated in subsection (c) with respect to that national's operations in South Africa. The Secretary of State shall promulgate regulations to further define the employers that will be subject to the requirements of this subsection and procedures to ensure that such nationals may register that they have addhered to the principles.

(1) Desegregating the races in each employment facility;

(2) Providing equal employment opportunity for all employees without regard to race or ethnic origin;

(3) Assuring that the pay system is applied to all employees without regard to race or ethnic origin;

(4) Establishing a minimum wage and salary structure based on the appropriate local minimum economic level which takes into account the needs of employees and their families;

(5) Increasing by appropriate means the number of persons in managerial, supervisory, administrative, clerical, and technical jobs who are disadvantaged by the apartheid system for the purpose of significantly increasing their representation in such jobs;

(6) Taking reasonable steps to improve the quality of employees' lives outside the work environment with respect to housing, transportation, schooling, recreation, and health;

(7) Implementing fair labor practices by recognizing the right of all employees, regardless of racial or other distinctions, to self-organization and to form, join, or assist labor organizations, freely and without penalty or reprisal, and recognizing the right to refrain from any such activity.

(d) United States nationals referred to in subsection (b) are encouraged to take reasonable measures to extend the scope of their influence on activities outside the workplace, by measures such as supporting the right of all businesses, regardless of the racial character of their owners or employees, to locate in urban areas, by influencing other companies in South Africa to follow the standards specified in subsection (c) and by supporting the freedom of mobility of all workers, regardless of race, to seek employment opportunities wherever they exist, any by making provision for adequate housing for families of employees within the proximity of the employee's place of work.

Sec. 3. The Secretary of State and the head of any other department or agency of the United States carrying out activities in South Africa shall promptly take, to the extent permitted by law, the necessary steps to ensure that the labor practices described in section (2)(c) are applied to their South African employees.

Sec. 4. The Secretary of State and the head of any other department or agency of the United States carrying out activities in South Africa shall, to the maximum extent practicable and to the extent permitted by law, in procuring goods or services in South Africa, make affirmative efforts to assist business enterprises having more than 50 percent beneficial ownership by persons in South Africa disadvantaged by the apartheid system.

Sec. 5. (a) The Secretary of State and the United States Trade Representative are directed to consult with other parties to the General Agreement on Tariffs and Trade with a view toward adopting a prohibition on the import of Krugerrands.

(b) The Secretary of the Treasury is directed to conduct a study to be completed within sixty days regarding the feasibility of minting and issuing gold coins with a view toward expeditiously seeking legislative authority to accomplish the goal of issuing such coins.

Sec. 6. In carrying out their respective functions and responsibilities under this Order, the Secretary of the Treasury and the Secretary of Commerce shall consult with the Secretary of State. Each such Secretary shall consult, as appropriate, with other government agencies and private persons.

Sec. 7. The Secretary of State shall establish, pursuant to appropriate legal authority, an Advisory Committee on South Africa to provide recommendations on measures to encourage peaceful change in South Africa. The Advisory Committee shall provide its initial report within twelve months.

Sec. 8. The Secretary of State is directed to take the steps necessary pursuant to the Foreign Assistance Act [22 U.S.C. 2151 et seq.] and related legislation to (a) increase the amount of internal scholarships provided to South Africans disadvantaged by the apartheid system up to $8 million from funds made available for Fiscal Year 1986, and (b) increase the amount allocated for South Africa from funds made available for Fiscal Year 1986 in the Human Rights Fund up to $1.5 million. At least one-third of the latter amount shall be used for legal assistance for South Africans. Appropriate increases in the amounts made available for these purposes will be considered in future fiscal years.

Sec. 9. This Order is intended to express and implement the foreign policy of the United States. It is not intended to create any right or benefit, substantive or procedural, enforceable at law by a party against the United States, its agencies, its officers, or any person.

Ronald Reagan.

(As amended Pub. L. 98-549, § 6(b)(3), Oct. 30, 1984, 98 Stat. 2804.)

AMENDMENTS

1984—Subsec. (f)(2)(C). Pub. L. 98-549 substituted "section 705" for "section 605" in the original to accommodate renumbering of sections in subchapter VI (section 601 et seq.) of chapter 5 of Title 47, Telegraphs, Telephones, and Radiotelegraphs, by section 6(a) of Pub. L. 98-549. Because both sections translate as "section 605 of Title 47", the amendment by Pub. L. 98-549 resulted in no change in text.

EFFECTIVE DATE OF 1984 AMENDMENT

Amendment by Pub. L. 98-549 to take effect 60 days after Oct. 30, 1984, except where otherwise expressly provided, see section 9(a) of Pub. L. 98-549, set out as a note under section 521 of Title 47, Telegraphs, Telephones, and Radiotelegraphs.

(1) that the applicant has the financial resources, ability, and experience necessary to enable him to fulfill all obligations with respect to payment of any deferred portion of the purchase price, and that sale of the vessel to him would not be inconsistent with any policy of the United States in permitting foreign sales under section 9 of the Shipping Act, 1916, as amended [46 App. U.S.C. 808]; and

[See main edition for text of (2) to (4)]

then the Secretary is authorized to approve the application and sell such vessel to the applicant at not less than the statutory sales price. In case of application submitted by a citizen of the

Commonwealth of the Philippines, paragraph (4) of this subsection shall not apply. Notwithstanding paragraph (4) of this subsection, not to exceed ten "C" type vessels, except C-3's, may be sold to noncitizens at any time after such date of publication at not less than the statutory sales price.

(a) The Secretary of Transportation shall place in a national defense reserve (1) such vessels owned by the Department of Transportation as, after consultation with the Secretary of the Army and the Secretary of the Navy, he deems should be retained for the national defense, and (2) all vessels owned by the Department of Transportation on June 30, 1950, for the sale of which a contract has not been made by that time, except those determined by the Secretary of Transportation to be of insufficient value for commercial and national defense purposes to warrant their maintenance and preservation, and except those vessels, the contracts for the construction of which are made after September 2, 1945, under the provisions of the Merchant Marine Act, 1936, as amended [46 App. U.S.C. 1101 et seq.]. Any such action may be taken only after 60 days have elapsed after such industrial resource shortfall has been identified pursuant to the preceding sentence. If the taking of any action or actions under authority of this section to correct an industrial resource shortfall would cause the aggregate outstanding amount of all such actions for such industrial resource shortfall to exceed $25,000,000, any such action or actions may be taken only if specifically authorized by law.

§ 2168. Cost Accounting Standards Board

[See main edition for text of (a) to (g)]

(h) Implementation of cost accounting standards; cost accounting disclosure by defense contractors as a condition of contract; mandatory price adjustment clause in contract, with interest, for any increased costs due to contractor's failure to follow cost accounting standards; maximum rate and duration of interest; contract dispute; exemptions; effective date of proposed standards and regulations

Such regulations shall require defense contractors and subcontractors as a condition of contracting to disclose in writing their cost-accounting principles, including methods of distinguishing direct costs from indirect costs and the basis used for allocating indirect costs, and to agree to a contract price adjustment, with interest, for any increased costs paid to the defense contractor by the United States because of the defense contractor's failure to comply with duly promulgated cost-accounting standards or to follow consistently his disclosed cost-accounting practices in pricing contract proposals and in accumulating and reporting contract performance cost data. Such interest shall be set at a rate established by the Secretary of the Treasury pursuant to Public Law 92-41. Such interest shall accrue from the time such payments were made to the contractor or subcontractor to the time such price adjustment is effected. If the parties fail to agree as to whether the defense contractor or subcontractor has complied with cost-accounting standards, the rules and regulations relating thereto, and cost adjustments demanded by the United States, such disagreement will constitute a dispute under the contract dispute clause.

[*See main edition for text of* (*1*)]

(2) Exports contribute significantly to the economic well-being of the United States and the stability of the world economy by increasing employment and production in the United States, and by earning foreign exchange, thereby contributing favorably to the trade balance. The restriction of exports from the United States can have serious adverse effects on the balance of payments and on domestic employment, particularly when restrictions applied by the United States are more extensive than those imposed by other countries.
